Rethinking Religion in the Theatre of Grotowski Catharine Christof, 2017-03-27 This book opens a new interdisciplinary frontier between religion and theatre studies to illuminate what has been seen as the religious or spiritual

nature of Polish theatre director Jerzy Grotowski's work. It corrects the lacunae in both theatre studies and religious studies by examining the interaction between the two fields in his artistic output. The central argument of the text is that through an embodied and materialist approach to religion developed in the work of Michel Foucault and religious studies scholar Manuel Vasquez as well as a critical reading of the concepts of the New Age, a new understanding of Grotowski and religion can be developed. It is possible to show how Grotowski's work articulated spiritual experience within the body, achieving a removal of spirituality from ecclesial authorities and relocating spiritual experience within the body of the performer. This is a unique analysis of one of the 20th Century's most famous theatrical figures. As such, it is a vital reference for academics in both Religion and Theatre Studies that have an interest in the spiritual aspects of Grotowski's work. Goddesses Never Age Christiane Northrup, M.D., 2016-12-13 THE NEW YORK TIMES BESTSELLER. Though we talk about wanting to age gracefully, the truth is that when it comes to getting older, we're programmed to dread an inevitable decline in our health, our looks, our sexual relationships, even the pleasure we take in living life. But as Christiane Northrup M.D. shows us in this profoundly empowering book, we have it in us to make growing older an entirely different experience, both for our bodies and for our souls. In chapters that blend personal stories and practical exercises with the latest research on health and aging, Dr. Northrup lays out the principles of ageless living, from rejecting processed foods to releasing stuck emotions, from embracing our sensuality to connecting deeply with our Divine Source. Explaining that the state of our health is dictated far more by our beliefs than by our biology, she works to shift our perceptions about getting older and show us what we are entitled to expect from our later years, no matter what our culture tries to teach us to the contrary, including vibrant good health, a fulfilling sex life, the capacity to love without losing ourselves, the ability to move our bodies with ease and pleasure, clarity and authenticity in all our relationships, especially the one we have with ourselves. Taking all the right supplements and pills or getting the right procedure done isn't the prescription for anti-aging. Dr. Northrup explains, "Agelessness is all about vitality, the creative force that gives birth to new life." *Goddesses Never Age* is filled with tools and inspiration for bringing vitality and vibrancy into your own ageless years, and it all comes together in Dr. Northrup's 14-day Ageless Goddess Program, your personal prescription for creating a healthful, soulful, joyful new way of being at any stage of life. *Littell's Living Age*, 1845 Spiritual Despotism Isaac Taylor, 1835

Littell's Living Age Eliakim Littell, Robert S. Littell, 1882 Methods in Religion, Spirituality & Aging James W. Ellor, 2013-10-18. Since the 1971 White House Conference on Aging in the United States, the need to move from religiosity into new areas such as Spiritual Assessment and Spirituality has emerged. This movement has picked up momentum among scholars, particularly in terms of research in the area of Spirituality. While spirituality as a term is employed in many new studies, this term continues to defy the quest for a single definition and method. This book is divided into three sections. In the first, the authors reflect on the philosophical and theological issues presented by these terms from a variety of both cognate

and practical methodological approaches The second section offers insights from the major professions of sociology psychology public health nursing and social work The final section offers insight and assistance to researchers and authors on specific religious traditions This book will be important for anyone working to develop such practical tools as spiritual assessment forms to those who engage in more formal scholarly investigation

Contemporary Spiritualities Stefania Palmisano,Nicola Pannofino,2020-11-01 Contemporary alternative spirituality as studied by sociologists is usually seen as a recent phenomenon dating from the 1960s and 1970s However when viewed from a longer term perspective this form of religious expression is actually seen to reintroduce concepts that recur throughout Western cultural history This book argues therefore that spirituality in the 21st Century actually shares many of the same characteristics as Classical Mediaeval Renaissance and Modern spiritualities It is neither entirely new nor is it clearly alternative to more established religions The book is divided into two parts The first sets out the context in which contemporary alternative spirituality has formed charting its development as an academic term and a social phenomenon The second part looks at how these two elements have developed in countries that are historically Catholic focussing on specific examples in contemporary Italy spiritualities based on the sacralisation of nature those concerned with health and wellbeing and those which are fascinated by mystery Catholic majority countries are particularly interesting in this instance as the Catholic Church has a unique cultural hegemony with which to compare alternative spiritual practices It concludes that spirituality if framed in a longer historical perspective is a way of acting and seeing the world which was built and continues to be built upon complex relations with various contradictory sources of authority such as religion magic thinking secularism rationalism various spheres of lay culture This is a bold take on the spirituality milieu and as such will be of great interest to scholars of Religious Studies working on the sociology of religion contemporary spirituality and the rise of the spiritual but not religious

New Age Spirituality Steven J. Sutcliffe,Ingvild Saelid Gilhus,2014-09-11 New Age and holistic beliefs and practices sometimes called the new spirituality are widely distributed across modern global society The fluid and popular nature of new age makes these movements a very challenging field to understand using traditional models of religious analysis Rather than treating new age as an exotic specimen on the margins of proper religion New Age Spirituality examines these movements as a form of everyday or lived religion The book brings together an international range of scholars to explore the key issues insight healing divination meditation gnosis extraordinary experiences and interactions with gods spirits and superhuman powers Combining discussion of contemporary beliefs and practices with cutting edge theoretical analysis the book repositions new age spirituality at the forefront of the contemporary study of religion

Mysticism, Ritual and Religion in Drone Metal Owen Coggins,2018-01-25 This is the first extensive scholarly study of drone metal music and its religious associations drawing on five years of ethnographic participant observation from more than 300 performances and 74 interviews plus surveys analyses of sound recordings artwork and extensive online discourse about music Owen Coggins shows that while many drone metal

listeners identify as non religious their ways of engaging with and talking about drone metal are richly informed by mysticism ritual and religion He explores why language relating to mysticism and spiritual experience is so prevalent in drone metal culture and in discussion of musical experiences and practices of the genre The author develops the work of Michel de Certeau to provide an empirically grounded theory of mysticism in popular culture He argues that the marginality of the genre culture together with the extremely abstract sound produces a focus on the listeners engagement with sound and that this in turn creates a space for the open ended exploration of religiosity in extreme states of bodily consciousness
