

How does one grow holy in such times? This question drove the early Christian imagination no less than it does today. *Patristic Spirituality: Classical Perspectives on Ascent* is the *Stroma* for modern readers offering an "itinerary" for early Christian believers seeking to enter into the divine presence. Readers will discover an array of practical early Christian wisdom and the practical challenges of ascent, "a work of God in Christ, transforming and incorporating us," says Lewis Spence. For how early Christians cultivated the life of grace with hospitality, silence, discerning, and other ascetic practices for human elevation into mystical union with God.

Spirituality Today Trends And Perspectives:

Understanding New Perspectives of Spirituality Edie Lanphar, Agata Wilczek, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2015 This book deals with the rapidly developing field of spirituality Although having a singularity of focus the chapters have been written by a cross cultural and international set of researchers who discuss critical issues from an interdisciplinary perspective Thus while a broad range of critical aspects emerge the chapters are threaded together by the concept of spirituality as a lone walk While alone the spiritual journey is also deeply connected to others As a deeply human experience the chapters in this book therefore reflect the prismatic viewpoints that form the understandings and experiences of the spiritual walk This book challenges the reader to start to understand the apparent ambiguity this appears to bring to researchers and practitioners Rather than a roadblock to understanding the multiple frames and facets this brings it is instead a rich field for the exploration of the human condition Exploring and Engaging Spirituality for Today's Children La Verne Tolbert, 2014-05-19 Exploring and Engaging Spirituality for Today's Children A Holistic Approach answers questions about the most effective ways to help children pre teens and teens develop spiritually This collection of research gleaned from presentations during the Fourth Triennial Children's Spirituality Conference at Concordia University in 2012 is divided into four major sections 1 theological and historical foundations 2 engaging parents and congregations 3 engaging methodologies and 4 exploring children at risk child pornography social justice intercultural diversity and abstinence education Researchers acknowledge that the home is the foundation for Christian nurture In Exploring and Engaging Spirituality for Today's Children both scholars and ministry leaders come together with parents to promote a holistic environment where children are encouraged to love respect and obey God From birth to high school children's voices resonate throughout these studies as they are invited to share their reflections and experiences Exploring and Engaging Spirituality for Today's Children is a lively easy to read collection that reflects a broad range of faith traditions and is ideal for all those who are committed to the spiritual development of children **Youth and Media Culture. A Study on Church's Response from a Salesian Perspective** Albert Fernandes, 2017-12-13 Master's Thesis from the year 2011 in the subject Guidebooks Spirituality grade 84 00 course Spirituality language English abstract What effect has the media had on your life Most probably our answer would be I am aware of the media but I am not affected by it What influence has your incredible exposure to the media had on your life and on the lives of the people with whom you live The rise of digital media and communications technologies have helped redefine experiences of space and time but in terms of everyday cultural experience they have supplemented rather than replaced old media forms and integrated within youth's existing cultures and social relationships It has created a paradox of life which needs to bridge There can be no doubt that media pervades social life The audio visual media print and other communication technologies play major role in modern human existence mediating diverse interactions between people Moreover they are numerous heterogeneous and multi

faceted Even more we cannot deny that media are dynamic and ever changing constantly reacting to economic and popular forces The modes like news advertising film radio television fashion the book have undergone an alarming sea of changes in recent years Media as a Means for Re-Christianization Albert Fernandes,2018-01-05 Research Paper undergraduate from the year 2011 in the subject Communications Mass Media grade 95 language English abstract The paradox of our times is that we have taller buildings but shorter tempers wider freeways but narrower viewpoints we spend more but have less we buy more but enjoy it less We read too seldom watch TV too much and pray too seldom We have multiplied our possessions but reduced our values We build more computers to hold more information These are days of throwaway morality overweight bodies and pills that do everything from cheer to quiet and to kill It is a time when there is much in the show window and nothing in the stockroom Indeed it s all true Today what is the role of religion in the lives of the people We are more attuned to secularism than religion One would advise the other not to mix up religion with the secularism Religion is considered to be altogether a different entity and whereby secularism is left to be by itself Values promoted by secularism are widely spread and dominant Today ecclesiastical documents are hardly of use for any government proves Some people do not give importance to Church documents since they are of very less value in the secular world The broken marriages are settled or separated lawfully in the civil court than in the church Corruption is the trend of profit making Relationships are mostly getting better for business purpose We are trained to be polite and gentle for business relationships This is exactly what is called de Christianization in the world of today We need to work ardently towards re Christianization today by using the effective means of social digital communication This paper attempts to show Media as a means for re Christianization

Spirituality and Global Ethics Mahmoud Masaali,Rico Sneller,2017-05-11 This volume addresses three fundamental questions about the interplay between the ethics of globality and spirituality What are the practical implications of spirituality for the condition of life in a turbulent era of violent religious non religious extremism In what way can spirituality the view of love compassion tolerance and mutual recognition encounter mistrust enmity separateness and violence How and in what way can spirituality contribute to the newly emerging global ethics Religious scholars distinguish between the esoteric and exoteric sides of belief systems Esotericism centres on the inner awareness and conceals a certain spirituality that is only transmittable to those who could successfully pass through a process of initiatic preparation and transpersonal practices to understand the mystical dimensions of existence In contrast exotericism takes the outer dimension of every day consciousness into account and favours the possibility of the popular understanding of the essence of existence In this perspective truth could be grasped by the public without the need of any transpersonal initiative and transformation of consciousness Esotericism extends beyond religion and has become the spiritual philosophy of life without the need of being essentially religious It has become common notably in the West to identify oneself as spiritualist without having religious affiliations The condition of globality has provided an unprecedented opportunity for spiritual perspectives to grow Ideas

perspectives beliefs and philosophies of life are growing outside local national containers to express themselves in different global settings while the forces of globalisation are influencing local identities and cultures While evolving global transformations strengthen people s capability to leave institutionally ordered belief systems it simultaneously enables them to rearrange themselves around alternative perspectives These fundamental transformations cultivate a fabulous landscape for the growth of spirituality

Methods in Religion, Spirituality & Aging James W. Ellor,2013-10-18 Since the 1971 White House Conference on Aging in the United States the need to move from religiosity into new areas such as Spiritual Assessment and Spirituality has emerged This movement has picked up momentum among scholars particularly in terms of research in the area of Spirituality While spirituality as a term is employed in many new studies this term continues to defy the quest for a single definition and method This book is divided into three sections In the first the authors reflect on the philosophical and theological issues presented by these terms from a variety of both cognate and practical methodological approaches The second section offers insights from the major professions of sociology psychology public health nursing and social work The final section offers insight and assistance to researchers and authors on specific religious traditions This book will be important for anyone working to develop such practical tools as spiritual assessment forms to those who engage in more formal scholarly investigation
