Alchemy of Christ: The Book of Revelations LaRoya,2017-07-10 It has been a long tradition among the Hebrews to use the pesher dream interpretation code which had encoded messages regarding two levels of information written within a story One level was written as an allegory that told a message about morality The other level was written about esoteric instruction and political events which mirrored inner growth Each of the 22 chapters are inspired by the 22 Hebrew alphabet letters In this book *The Alchemy of Christ The Book of Revelation* I give a commentary on the Book of Revelations Apocalypse means revealing and it is the revealing of the Christ within The final battle of Armageddon takes place within us This is an inner war that will transform us and bring us back to recovery to the state of Christ Consciousness The political struggles within the world mirror the transformation of the individual Just as we recover the earth as a whole will recover as well leading to an enlightened Civilization

Laden Choirs Peter Wolfe,2014-07-15 In 1973 the Australian novelist Patrick White won the Nobel Prize for Literature the year that his great novel of family ties and change *The Eye of the Storm* was published and became a bestseller in America and Europe Yet

White is still not widely known or read and few writers of today have provoked so many contradictory judgments. Now Peter Wolfe has written the first book-length study of the work of this brilliant and haunting novelist. The study offers a subtle penetrating examination of White's style, his skill in building narrative tension, and also the depth and complexity reflected in his characterization, which in his novels always dominates action. Fittingly for a writer whose novels bear the indelible stamp of Australia, the study also examines White's psychological use of setting and the intense sense of place found in his work. No other critical study of White covers such a broad range of his writing. Peter Wolfe considers here the entire canon of the novels *The Tree of Man*, *Voss*, *The Vivisector*, *The Eye of the Storm*, *A Fringe of Leaves*, and *The Twyborn Affair*. White's most recent novel is also discussed. White's themes and settings range from the power and immensity of the wilderness of the Australian outback to the dislocations wrought in traditional values by postwar industrialization and urban sprawl. *Laden Choirs* makes accessible to an American audience a writer of the first rank whose work lies at the heart of modernist concerns. Literary students and scholars who wish to explore the world of Patrick White will find this book an essential key.
