Treaty No. 9 John Long, 2010. Restoring nearly forgotten perspectives to the historical record. John Long considers the methods used by the government of Canada to explain Treaty No 9 to Northern Ontario First Nations. He shows that many crucial details about the treaty's contents were omitted in the transmission of writing to speech while other promises were made orally but not included in the written treaty. Reproducing the three treaty commissioners' personal journals in their entirety, Long reveals the contradictions that suggest the treaty parchment was never fully explained to the First Nations who signed it. In this the companion to the landmark volume *The Literary History of Alberta Volume One: From Writing on Stone to World War Two*, George Melnyk examines Alberta literature in the second half of the twentieth century. At last Melnyk argues Alberta writers have found their voice and their accomplishments have been remarkable. The contradictory landscape, the stereotypes of the Indian, the Mountie and the Cowboy and the language of the Other speaking from the margins, these elements all left their impressions on the consciousness of early Alberta. But writers in the last few decades have turned this inheritance to their advantage to create compelling stories about this place and its

people Today Melnyk discovers Alberta writers can appreciate not only this achievement but also its essential source the symbolic communication of Writing on Stone The Literary History of Alberta Volume Two extends the study of Alberta s cultural history to the present day It is a vital text for anyone interested in Alberta s vibrant literary culture **The Oxford Handbook of Evidentiality** Alexandra Y. Aikhenvald, 2018-01-18 This volume offers a thorough systematic and crosslinguistic account of evidentiality the linguistic encoding of the source of information on which a statement is based In some languages the speaker always has to specify this source for example whether they saw the event heard it inferred it based on visual evidence or common sense or was told about it by someone else While not all languages have obligatory marking of this type every language has ways of referring to information source and associated epistemological meanings The continuum of epistemological expressions covers a range of devices from the lexical means in familiar European languages and in many languages of Aboriginal Australia to the highly grammaticalized systems in Amazonia or North America In this handbook experts from a variety of fields explore topics such as the relationship between evidentials and epistemic modality contact induced changes in evidential systems the acquisition of evidentials and formal semantic theories of evidentiality The book also contains detailed case studies of evidentiality in language families across the world including Algonquian Korean Nakh Dagestanian Nambikwara Turkic Uralic and Uto Aztecan The Oxford Handbook of Evidentiality Aleksandra Iľevna Aikhenval'd, 2018 The first volume to offer a thorough and systematic account of evidentiality and the expression of information source Illustrated with extensive data from a range of typologically diverse languages Introductory chapter offers practical advice for fieldworkers investigating evidentially Interdisciplinary in nature with insights from typology semantics pragmatics language description anthropology cognitive psychology and psycholinguistics Book jacket
