American Race Relations and the Legacy of British Colonialism Thomas H. Stanton, 2020-03-04 Colonial rule distorts a colony's economy and its society and British rule was no exception British policies led to a stratified American colonial society with slaves on the bottom and white settlers on top The divided society functioned through laws that imposed rules and defined roles of the respective races This occurred in other colonies too often leading to strife that continues today Especially since World War II the United States seems finally to have been able to remove many laws and practices that had created barriers between races in the divided society Appeals to legitimacy such as by abolitionists and the Civil Rights Movement were essential to change laws from support of the divided society to instruments for disestablishing it Thanks to the rule of law another important British legacy the U S is much farther along than many former colonies in making progress By highlighting the history of the interplay of two fundamental concepts the divided society and the rule of law and briefly contrasting the experiences of other former colonies this book shows how the United States has made significant long term progress although incomplete and ways for this to continue today

years the M Street Dunbar High School was an academically elite all black public high school in Washington DC As far back as 1899 its students came in first in citywide tests given in both black and white schools Over this eighty five year span approximately 80 percent of M Street Dunbar s graduates went on to college even though most Americans white or black did not attend college at all Faculty and students were mutually respectful to one another and disruptions in the classroom were not tolerated Yet in this era of best practices this public high school has received virtually no attention in the literature or in policy considerations for inner city education The Dunbar High School today with its new building and athletic facilities is just another ghetto school with abysmal standards and low test score results despite the District of Columbia s record of having some of the country s highest levels of money spent per pupil The purpose of this study is to explore the history of a high school that was successful in teaching black children from low income families and to determine if the learning model employed there could be successful in a modern inner city public education environment
