Theosophy is Religion itself and sublime code of Ethics Helena Petrovna Blavatsky,2018-07-04 The Original

Programme of the Theosophical Society prefaced by introductory notes historical letters and documents by Boris de Zirkoff
Compiler and Editor of H P Madame Blavatsky Collected Writings There is no religion higher than Truth Moreover there is
and can be but one absolute Truth in Kosmos The majority of the public Areopagus is generally composed of self appointed
judges who have never made a permanent deity of any idol save their own personalities their lower selves And he who
believes his own religion on faith will regard that of every other man as a lie and hate it on that same faith Theosophy is not a
religion It is Religion itself a Divine Science embracing every science in life moral and physical and a sublime code of Ethics
Theosophy is Religion and the Theosophical Society the Universal Church of Morality The Theosophical Movement is the
great moral but silent force Human life devoid of all its world ideals and beliefs becomes deprived of its higher sense and
meaning But the world ideals can never completely die out Exiled by the fathers they will be received with open arms by the
children The Theosophical Movement was reborn in 1875 and so the cyclic evolution of theosophical ideals continues
