Family, Sex, and Faith Pål Kolstø, 2025-01-15 Family Sex and Faith is the first systematic examination of what the Russian Orthodox Church ROC teaches and how believers respond to its messages regarding issues such as marriage divorce contraception abortion husband wife relations and LGBTQIA rights According to Pål Kolstø for the ROC the ethics of private life involve what Michel Foucault called biopolitics the state regulates the sex lives of its citizens to control the development of the population Family Sex and Faith offers a systematic analysis of aspects of the moral theology of the ROC discussing the means and strategies it employs to achieve its goals to counter resistance and to emerge victorious from the battles in which it is embroiled Although the constitution defines Russia as a secular state the ROC has achieved a privileged position in society functioning as a major provider of ideology and legitimacy for the Putin regime
