Why Marx Was Wrong Lawrence Eubank,2011-11-02 The subject of this book is the negative assault on democratic capitalism embodied in Capital A Critique of Political Economy

Marx's great work devoted to delineating the crimes and inequities of capitalist societies and market economies. The book is a systematic step by step analysis of Marx's logic. It is a deconstruction of the arguments and deductions by which he reaches his main conclusion that capitalism is corrupt in its essential nature and that capitalists gain wealth not by any legitimate means but by appropriating unpaid labor or surplus value from the working masses. Despite the disappearance of the Soviet bloc and the waning of Communist zealotry that is still a widely believed doctrine, Marx's accusation against capitalism and the course of argumentation by which he arrives at it together form the subject of the present volume.

The Power of Persuasion Lucas Haasis, 2022-03-07 Lucas Haasis found a time capsule. A complete mercantile letter archive of the merchant Nicolaus Gottlieb Luetkens who lived in 18th century Hamburg. Luetkens travelled France between 1743-1745 in order to become a successful wholesale merchant. He succeeded in this undertaking via both shrewd business practice and proficient skills in the practice of letter writing. Based on this unique discovery in this microhistorical study, Lucas Haasis examines the crucial steps and activities of a mercantile establishment phase, the typical letter practices of Early Modern merchants and the practical principles of persuasion leading to success in the 18th century.

The Worker Center Handbook Kim Bobo, Marien Casillas Pabellon, 2016-08-03 Worker centers are becoming an important element in labor and community organizing and the struggle for fair pay and decent working conditions for low wage workers, especially immigrants. There are currently more than two hundred worker centers in the country and more start every month. Most of these centers struggle as they try to raise funds, maintain stable staff, and build a membership base. For this book, Kim Bobo and Marien Casillas Pabellon, two women with extensive experience supporting and leading worker centers, have interviewed staff at a broad range of worker centers with the goal of helping others understand how to start and build their organizations. This book is not theoretical but rather is designed to be a practical workbook for staff, boards, and supporters of worker centers. Geared toward groups that want to build worker centers, this book discusses how to survey the community, take on an initial campaign, recruit leaders, and raise seed funds. Bobo and Casillas Pabellon also provide a wealth of advice to help existing centers become stronger and more effective. *The Worker Center Handbook* compiles best practices from around the country on partnering with labor, enlisting the assistance of faith communities and lawyers, raising funds, developing a serious membership program, integrating civic engagement work, and running major campaigns. The authors urge center leaders to both organize and build strong administrative systems. Full of concrete examples from worker centers around the country, the handbook is practical and honest about challenges and opportunities.
