Skuas And Jaegers A Guide To The Skuas And Jaegers Of The World:

Skuas and Jaegers Klaus Malling Olsen, Hans Larsson, 1997-01-01 Skuas or jaegers are a popular group of seabirds This title examines in detail all the identification problems associated with this difficult group The taxonomy of the world s seven species of skuas has long been a subject of debate compounded by the difficulty of distinguishing between the four catharacta species in the field

Skuas and Jaegers Klaus Malling Olsen, 2013-09-05 Skuas and jaegers are a fascinating and popular group of seabirds that make up a subfamily of just seven species They can be divided into two main groups the larger species of Catharacta skuas which are mainly found in the southern hemisphere with Great Skua breeding in the north and the three Stercorarius species also known as jaegers which breed in the northern hemisphere Both northern and southern skuas breed at high latitudes and several species are long distance migrants performing spectacular migrations through most of the world s oceans sometimes even flying overland The individual plumage variation in some species is enormous creating one of the most puzzling yet fascinating challenges in modern field identification This is the first complete identification guide to the skuas of the world It is designed to enable species identification and correct ageing and the information presented is based on years of study in the field detailed examination of photographs and museum skins and extensive research of the relevant literature The comprehensive text is accompanied by twelve exquisite colour plates by Hans Larsson illustrating a wide range of plumages In addition there are eight pages of colour photographs and numerous black and white photographs and drawings that show key identification features With this book the seabird enthusiast should at last be able to identify almost every skua encountered whether on a seawatch or at sea

A World Checklist of Birds

Burt L. Monroe, Charles G. Sibley, 1997-02-27 Many field ornithologists record where and when they identify species of birds especially when they encounter a species out of its normal range or for the first time Until now however a checklist based on the Sibley Ahlquist Monroe classification has not been available In this book Burt L Monroe Jr and Charles G Sibley provide a list of 9 702 living avian species based on their 1990 book Distribution and Taxonomy of Birds of the World and its 1993 Supplement
