*Animals and Their Children in Victorian Culture* Brenda Ayres, Sarah Elizabeth Maier, 2019-11-20 Whether a secularized morality, biblical worldview, or unstated set of mores, the Victorian period can and always will be distinguished from those before and after for its pervasive sense of the proper way of thinking, speaking, doing, and acting. Animals in literature taught Victorian children how to behave. If you are a postmodern posthumanist, you might argue. But the animals in literature did not write their own accounts. Animal characters may be the creations of writers' imagination, but animals did and do exist in their own right, as did and do humans. The original essays in *Animals and Their Children in Victorian* explore the representation of animals in children's literature by resisting an anthropomorphized perception of them. Instead of focusing on the domestication of animals, this book analyzes how animals in literature civilize children, teaching them how to get along with fellow creatures, both human and nonhuman.

Themed around the emerging agendas for developing new sustainable models of social sector excellence and systemic impact, *Social Entrepreneurship* offers for the first time a wide-ranging, internationally focused selection of cutting edge work from leading academics, policy makers, and practitioners. Together, they seek to clarify some of the ambiguity around this term, describe a range of social entrepreneurship projects, and establish a clear set of frameworks with which to understand it. Included in the volume are contributions from Muhammad Yunus, the father of microfinance; Geoff Mulgan, former head of the British prime minister's policy unit; and Bill Drayton, founder of the Ashoka network of social entrepreneurs. Jeff Skoll, founder of the Skoll Foundation and first president of eBay, provides a preface.
