Anthony J. Blasi, 2017-04-13 Sociologist Anthony Blasi analyzes early Christianity using multiple social scientific theories including those of Max Weber Georg Simmel Karl Marx Antonio Gramsci Max Scheler Alfred Schutz and contemporary theorists He investigates the canonical New Testament books as representative of early Christianity a sample based on usage and he takes the books in the chronological order in which they were written The result is a series of stills that depict the movement at different stages in its development His approaches often neglected in New Testament studies include such sociological subfields as sect theory the routinization of charisma conflict stratification theory stigma the sociology of knowledge new religions the sociology of secrecy marginality liminality syncretism the social role of intellectuals the poor person as a type the sick role degradation ceremonies populism the sociology of migration the sociology of time mergers the sociology of law and the sociology of written communication Needing to treat the New Testament text as social data Blasi uses his background in biblical studies and a review of a vast literature to establish the chronology of the compositions of the New Testament books and to present the data in a new translation that is accessible to non specialists *Modernism and the Social Sciences* Mark Bevir, 2017-09-28 This study explores the rise and nature of modernist approaches to economics sociology international relations administration language history and anthropology *The Social Sciences* Chicago Public Library, 1914

Realism for Social Sciences Ken Urai, Masaaki Katsuragi, Yoshiyuki Takeuchi, 2023-11-13 This book discusses the growing interest in realism in social sciences of the twenty first century The first part of this book provides recent discussions on realism in philosophy The second part describes specific problems that have returned to realism in various fields of the social sciences such as economics cultural anthropology management science and statistics This book clarifies what kinds of movements are taking place and consequently the direction in which the social sciences are heading in the future Readers would also find that there is great diversity in the way realism and reality are perceived and understood depending on the objectives and circumstances of each field of social science This suggests that rather than having a unified view stance of realism and reality it may be more meaningful to value the differences diversity and range itself Therefore this book does not present a unified view of realism reality and actuality Although the definitions of realism and reality may differ from chapter to chapter this represents a corner of the current state of the social sciences This book is unique in that it examines how the issues of realism and reality are viewed understood and dealt with in the various fields of social science instead of examining them by philosophers and philosophers of science This would clarify how philosophical discussions have

been translated into the various fields of social science **A Primer of Social Science** Henry Parkinson,1918 *The SAGE Handbook of the Philosophy of Social Sciences* Ian C Jarvie,Jesus Zamora-Bonilla,2011-02-17 what is the relationship between the social sciences and the natural sciences where do today s dominant approaches to doing social science come from what are the main fissures and debates in contemporary social scientific thought how are we to make sense of seemingly contrasting approaches to how social scientists find out about the world and justify their claims to have knowledge of it In this exciting handbook Ian Jarvie and Jes s Zamora Bonilla have put together a wide ranging and authoritative overview of the main philosophical currents and traditions at work in the social sciences today Starting with the history of social scientific thought this handbook sets out to explore that core fundamentals of social science practice from issues of ontology and epistemology to issues of practical method Along the way it investigates such notions as paradigm empiricism postmodernism naturalism language agency power culture and causality Bringing together in one volume leading authorities in the field from around the world this book will be a must have for any serious scholar or student of the social sciences
