Where Ideas Go to Die Michael McDevitt (Professor of journalism),2020 Ideas die at the hands of journalists This is the controversial thesis offered by Michael

McDevitt in a sweeping examination of anti intellectualism in American journalism A murky presence anti intellectualism is not acknowledged by reporters and editors It is not easily measured by scholars as it entails opportunities not taken context not provided ideas not examined Where Ideas Go to Die will be the first book to document how journalism polices intellect at a time when thoughtful examination of our society s news media is arguably more important than ever Through analysis of media encounters with dissent since 9 11 McDevitt argues that journalism engages in a form of social control routinely suppressing ideas that might offend audiences McDevitt is not arguing that journalists are consciously or purposely controlling ideas but rather that resentment of intellectuals and suspicion of intellect are latent in journalism and that such sentiment manifests in the stories journalists choose to tell or not to tell In their commodification of knowledge journalists will for example clarify ideas to distill deviance dismiss nuance as untranslatable and funnel productive ideas into static partisan binaries Anti intellectualism is not unique to American media Yet McDevitt argues that it is intertwined with the nation s cultural history and consequently baked into the professional training that occurs in classrooms and newsrooms He offers both a critique of our nation s media system and a way forward to a media landscape in which journalists recognize the prevalence of anti intellectualism and take steps to avoid it and in which journalism is considered an intellectual profession
