Social Psychology Of Aging A Special Issue Of Basic And Applied Social Psychology:

The Social Psychology of Aging Scott F. Madey, 2018-12-07 This special issue highlights how social psychology can further the understanding of important social health interpersonal and intergenerational issues facing people as they age This issue has three goals to generate more interest in aging as an area of study for social psychologists by showcasing researchers who are currently integrating basic social psychological research with issues in aging and lifespan development to challenge readers to think about how their research programs can interconnect with issues in aging and to demonstrate how social psychological processes have direct application to many of the issues facing people as they age *When I'm 64* National Research Council, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on Aging Frontiers in Social Psychology, Personality, and Adult Developmental Psychology, 2006-02-13 By 2030 there will be about 70 million people in the United States who are older than 64 Approximately 26 percent of these will be racial and ethnic minorities Overall the older population will be more diverse and better educated than their earlier cohorts The range of late life outcomes is very dramatic with old age being a significantly different experience for financially secure and well educated people than for poor and uneducated people The early mission of behavioral science research focused on identifying problems of older adults such as isolation caregiving and dementia Today the field of gerontology is more interdisciplinary When I m 64 examines how individual and social behavior play a role in understanding diverse outcomes in old age It also explores the implications of an aging workforce on the economy The book recommends that the National Institute on Aging focus its research support in social personality and life span psychology in four areas motivation and behavioral change socioemotional influences on decision making the influence of social engagement on cognition and the effects of stereotypes on self and others When I m 64 is a useful resource for policymakers researchers and medical professionals *Social Cognition and Aging* Thomas M. Hess, Fredda Blanchard-Fields, 1999-06-18 Most of the research done in social cognition has been conducted with younger adults and may not be applicable to a much older population Social Cognition and Aging provides a snapshot view of research that has been done with older adults or is directly applicable to this population Focusing on issues of self identity social interactions and social perceptions this book provides a broad overview of how aging affects one s own perceptions and actions as well as how others perceive and interact with the aged Coverage includes such topics as self control memory resilience age stereotypes moral development and the art of living With contributions from top researchers in both gerontology and psychology this book is an important reference for academics and professionals alike in personality cognition social psychology adult development sociology and gerontology **Spousal Bereavement in Late Life** Deborah S. Carr, PhD, Randolph M. Nesse, MD, Camille B. Wortman, PhD, 2005-11-08 This volume provides insightful analysis and theoretical interpretation of factors that contribute to a range of adjustment patterns among bereaved persons in late life It places the experience of widowhood

in late life squarely within the context of contemporary society and explores a remarkable range of associated issues The volume is destined to become a classic it will set the standard for future empirical investigation of the experience of bereavement among older adults For Further Information on the CLOC Study Please Click on CLOC [Social Psychology of Health](#) Peter Salovey, Alexander J. Rothman, 2003 This volume describes classic and contemporary theory and research in social psychology that sheds light on how people think about health and illness as well as their willingness to engage in health relevant behaviors The Editors have selected papers that serve to illustrate the reciprocal relation between advances in theory and advances in practice The first two sections of the volume examine people's mental representations of health and health practices and how these personal construals and implicit theories are linked to behavior People can react to new health information in different ways with acceptance defensiveness or downright ignorance Research that can help us to understand these varied reactions is examined in Section 3 The following sections consider how classic social psychological theories and perspectives can be used to understand behavior relevant to health and illness These include social influence social comparison pluralistic ignorance social support cognitive dissonance message framing and attribution theory Finally several articles consider links between personality characteristics and health such as those between hostility and heart disease and confiding traumatic experiences and immune function The volume also contains an introductory chapter by the editors which provides a discussion of why social and personality psychologists should be interested in health and illness Together with overviews for each section discussion questions and suggestions for further reading the volume is an ideal text for advanced undergraduate and graduate courses on health psychology The volume is also appropriate for courses in related disciplines such as public health nursing health education health communication and other allied health sciences

Handbook of Research Methods in Social and Personality

Psychology Harry T. Reis, Charles M. Judd, 2000-03-13 This volume first published in 2000 provides an overview of research methods in contemporary social psychology New Frontiers in Resilient Aging Prem S. Fry, Corey L. M. Keyes, 2010-07-29 A typically pessimistic view of aging is that it leads to a steady decline in physical and mental abilities In this volume leading gerontologists and geriatric researchers explore the immense potential of older adults to overcome the challenges of old age and pursue active lives with renewed vitality The contributors believe that resilience capacities diminishing with old age is a misconception and argue that individuals may successfully capitalize on their existing resources skills and cognitive processes in order to achieve new learning continuing growth and enhanced life satisfaction By identifying useful psychological resources such as social connectedness personal engagement and commitment openness to new experiences social support and sustained cognitive activity the authors present a balanced picture of resilient aging Older adults while coping with adversity and losses can be helped to maintain a complementary focus on psychological strengths positive emotions and regenerative capacities to achieve continued growth and healthy longevity

Families as Relationships

Robert M. Milardo, Steve Duck, 2000-08-22 The field of family studies has recently seen the development of a more specialized focus on the character of particular relationships The nature of these relationships may take many forms but typically involves individuals who view themselves as a unit with a long term commitment to continue their relationship Traditionally at least in western societies families are defined in terms of two parents living together with responsibility for rearing their

children However these so called nuclear families are becoming a rarer phenomenon Single parent families childless couples lesbian or gay male couples are also all represented in the broad mix of relations referred to as families Each of the chapters in this book deals with a primary relationship issue These include issues of early marriage how young relationships become enduring relationships parent and child relations conflict between partners the interface between work and family life marital quality and maintenance divorce and its impact on the family aging and older families This volume provides a useful reference for professionals whose research and or clinical practice focuses on family relationship issues This book is also intended for advanced students in the areas of sociology close relationships and family sciences Families as Relationships is one of a series of paperbacks dedicated to the study and application of processes by which individuals relate to each other in social and family settings Each book provides an expanded and up to date version of a section in the original Handbook of Personal Relationships second edition edited by Steve Duck In the Midst of Plenty Marybeth Shinn,Jill

Khadduri,2020-04-06 Foreword by Nan Roman President and CEO of the National Alliance to End Homelessness This book explains how to end the U S homelessness crisis by bringing together the best scholarship on the subject and sharing solutions that both local communities and national policy makers can apply now In the Midst of Plenty shifts understanding of homelessness away from individual disability to larger contexts of poverty income inequality housing affordability and social exclusion Homelessness experts Shinn and Khadduri provide guidance on how to end homelessness for people who experience it and how to prevent so many people from reaching the point where they have no alternative to sleeping on the street or in emergency shelters The authors show that we know how to end homelessness if we devote the necessary resources to doing so In the Midst of Plenty Homelessness and What to Do About It is an excellent resource for policy makers professionals in the homeless services system and anyone else who wants to end homelessness It also can serve as a text in undergraduate or masters courses in public policy sociology psychology social work urban studies or housing policy The knowledgeable and thoughtful authors of this book two brilliant women who know as much as anyone in the country about the nature of homelessness and its solutions have done a great service by taking us on a journey through the history of homelessness how our responses have changed and how we can end it Nan Roman President and CEO National Alliance to End Homelessness Shinn and Khadduri s new book is a thorough yet concise examination of what we know about the nature and causes of homelessness and the crucial lessons learned This critically important work provides a roadmap to restoring basic housing and income security as viable policy options in the face of our daunting inequality divide that otherwise threatens millions with destitution and homelessness Dennis Culhane Dana and Andrew Stone Professor of Social Policy University of Pennsylvania Marybeth Shinn and Jill Khadduri have combined their significant expertise to create an essential guide about the history of modern homelessness and to offer a clear path forward to end this American tragedy Their policy recommendations on ending homelessness are culled from the best about what we know works Barbara Poppe Executive
