**Social Problems in Canada, Conditions, Constructions and Challenges, 3** Augie Fleras, 2001

**Power and Resistance, 7th ed.** Jessica Antony, Wayne Antony, 2022-06-30T00:00:00Z Power and Resistance debunks the dominant neoliberal hyper individualist approach to society s problems that sees poverty as a result of laziness environmental crises as a result of market demands for products that pollute and Indigenous Peoples struggles as a result of not assimilating We argue that it is social inequality and oppression that are the underlying causes of social problems In a society like ours powerful groups make choices that benefit them and force those choices onto others creating life problems for others and society as a whole The powerful also have influence over what is and is not called a social problem Solving social problems requires changing the structures of inequality and oppression For example industrial corporate agriculture has created huge profits for a few gigantic food corporations but left much of the world hungry But farmers and their allies are pushing back through agroecology an agriculture based on local small scale ecologically sustainable farming that brings eaters and growers closer to one another The seventh edition of Power and Resistance includes new chapters on anti Black racism in schools Indigenous people and mental health food security and sovereignty and work in the gig economy

**Law and Society** Steven Vago, Adie Nelson, Veronica Nelson, Steven E. Barkan, 2017-09-26 Law and Society provides a balanced and comprehensive analysis of the interplay between law and society using both Canadian and international examples This clear and readable text is filled with interesting information ideas and insights All materials and supporting statistics have been carefully updated This edition includes an expanded discussion of the law and First Nations people recent developments impacting LGBTIQ2S persons and persons with disabilities and a new section on civil procedures Each chapter is structured similarly with an outline learning objectives key terms chapter summaries critical thinking questions and an array of additional resources

**Truancy Prevention and Intervention** Lynn Bye, Michelle E. Alvarez, Janet Haynes, Cindy E. Sweigart, 2010-05-07 This practical guide covers best practices in truancy at the community school and student family levels of interventions providing an essential everyday reference guide to

research based programs and truancy program implementation      **Nursing and Globalization in the Americas** Karen Lucas Breda, Ray Elling, 2018-02-06 Nursing is vital to millions of people worldwide This book details the ebb and flow of its fascinating history and politics through case studies from Brazil Argentina Chile Colombia Mexico Canada and the United States Authors from across the Americas share findings and explore new thinking about Western hemisphere specific issues that affect nursing and health care Using economic globalization as an overarching framework these cross national case studies show the strengths and contradictions in nursing elucidating common themes and examining successes The partnership of authors shapes a collective understanding of nursing in the Americas and forms a basis for enduring hemisphere wide academic exchange Thus the book offers a new platform for understanding the struggles and obstacles of nursing in a climate of globalization as well as for understanding nursing s richness and accomplishments Because politics economics health and nursing are inextricably linked this volume critically explores the intersections among political economies and nursing and health care systems The historical and contextual background allows readers to make sense of how and why nursing in the Americas has taken on its present form      Canadian Books in Print. Author and Title Index, 1975      **Managing Ethnic Diversity** Reza Hasmath, 2016-05-13 The management of ethnic diversity has become a topical and often controversial subject in recent times with much debate surrounding multiculturalism as a systematic and comprehensive response for dealing with ethnic diversity This book engages with these debates examining the tangible outcomes of multiculturalism as a policy and philosophy in a range of traditional and newer multi ethnic nations Exploring the questions of whether multiculturalism can promote ethnic harmony employment equity and trust between various minority and non minority groups Managing Ethnic Diversity also adopts a comparative perspective on the experiences of multiculturalism in various international contexts in order to examine whether lessons learned from some jurisdictions can be applied to others With an international team of experts presenting the latest research from the UK North America Europe China and Australasia a truly global dialogue is fostered with regard to the utility and limits of multiculturalism in local and comparative contexts As such Managing Ethnic Diversity will appeal to social scientists interested in race and ethnicity multiculturalism and migration      Racism, Eh? Charmaine Nelson, Camille Antoinette Nelson, 2004 Racism Eh is the first publication that examines racism within the broad Canadian context This anthology brings together some of the visionaries who are seeking to illuminate the topics of race and racism in Canada through the analysis of historical and contemporary issues which address race and racism as both material and psychic phenomena Fundamentally interdisciplinary in nature this text will be an invaluable resource for undergraduate and graduate students academics studying or practicing within the Humanities and the Social Sciences and anyone seeking information on what has been a little explored and poorly understood Canadian issue pub desc      *Challenging Oppression and Confronting Privilege* Robert P. Mullaly, 2010 First ed published under title Challenging oppression      **Collective Morality and Crime in the Americas** Christopher

Birkbeck,2012-12-07 This study examines the ways in which the moral community is talked into being in relation to crime and the objects of concern that typically occupy its attention It maps the imagined moral universe of the virtuous and the criminal and charts the relations between these two groups in the history of the present It examines the calls to action which symbolically endow the moral community with power And it looks at the character and content of collective moralizing The source materials are commentaries about crime and criminal justice appearing in selected newspapers across the Americas The moral talk found there is stylized routine trivial and occasionally dramatic It looks nothing like the weightier renderings of morality that derive from the reconstruction of a particular ethic or from the systematic probing of values and moral reasoning And its fuzzy offhand unexceptional and frequently unsystematic nature makes it a difficult candidate for explaining either stability or change in crime policies But moral talk has intrinsic importance as the creator and sustainer of an imagined moral community a community that symbolizes the existence and vigor of morality itself and confers a crucially important identity on its self proclaimed members And moral talk reveals inherent intersections between normative empirical and technical discourses highlighting the relationships between morality science and social engineering Thus a prosaic instrumental model of morality is particularly strong in North America but only found in a more abstract form in Latin America where it sits alongside a stirring vision of morality more directly anchored in virtue Research on social problems moral panics and the sociology of morality has largely overlooked the type of moral discourse studied here While emphasizing the culturally contingent nature of the findings the conclusion reflects on their significance for understanding the nature of moralizing the artifacts of talk and the construction of identity      **Globalizing Issues** Erik Neveu,Muriel

Surdez,2020-09-07 This book is an invitation to question conventional and often misleading visions of globalization No problem is global by nature issues are transformed by the action of claims makers to become problems debated in supra national forums triggering policy choices and policy transformations Contributions highlight how health issues environmental issues and or political issues are framed as global by a set of stakeholders scientific experts bureaucrats political parties or actors social movements social networks firms As the volume maps the social logic behind the globalization of problems it also presents an opportunity for the very cross disciplinary collaboration it calls for researchers mobilizing the agenda setting paradigm of issue globalization and those working within the social constructionist model are both represented here providing a unique opportunity to examine the dynamics of globalization from the perspectives of political media economic sociology international relations social movement studies and beyond      *Forthcoming Books* Rose Arny,2000

Constructing Social Problems Malcolm Spector, There is no adequate definition of social problems within sociology and there is not and never has been a sociology of social problems That observation is the point of departure of this book The authors aim to provide such a definition and to prepare the ground for the empirical study of social problems They are aware that their objective will strike many fellow sociologists as ambitious perhaps even arrogant Their work challenges

sociologists who have over a period of fifty years written treatises on social problems produced textbooks cataloguing the nature distribution and causes of these problems and taught many sociology courses It is only natural that the authors work will be viewed as controversial in light of the large literature which has established a sociology of a wide range of social problems the sociology of race relations prostitution poverty crime mental illness and so forth In the 1970s when the authors were preparing for a seminar on the sociology of social problems their review of the literature revealed the absence of any systematic coherent statement of theory or method in the study of social problems For many years the subject was listed and offered by university departments of sociology as a service course to present undergraduates with what they should know about the various social pathologies that exist in their society This conception of social problems for several decades has been reflected in the substance and quality of the literature dominated by textbooks In *Constructing Social Problems* the authors propose that social problems be conceived as the claims making activities of individuals or groups regarding social conditions they consider unjust immoral or harmful and that should be addressed This perspective as the authors have formulated it conceives of social problems as a process of interaction that produces social problems as social facts in society The authors further propose that this process and the social facts it produces are the data to be researched for the sociology of social problems This volume will be of interest to those concerned with the discipline of sociology especially its current theoretical development and growth Malcolm Spector was professor of sociology at McGill University in Montreal Canada John I Kitsuse is professor emeritus at the University of California at Santa Cruz He is co author with Leonard Broom of *The Managed Casualty The Japanese American Family in World War II* and co editor with Theodore R Sarbin of *Constructing the Social*

**Communications in Canadian Society** Craig McKie, Benjamin D. Singer, 2001 *Communications in Canadian Society* 5th Edition provides a comprehensive overview and analysis of communications institutions in Canada This edition has been thoroughly updated to take into account the changes taking place in information technology and the effects of this communications revolution in Canada and throughout the world As with previous editions this edition provides a diversity of analytical perspectives with selections by leading authorities in communication studies journalism sociology psychology political science and economics It also provides a strong mix of both classic and contemporary Canadian writing in the field Primarily intended for use at Canadian universities and colleges this book will also be useful to communications professionals and laypersons seeking a better understanding of the communications revolution
