Social Representations And The Development Of Knowledge:

Social Representations and the Development of Knowledge Gerard Duveen, Barbara Bloom Lloyd, 1990-03-30 This book raises for the first time developmental issues in relation to the theory of social representations which Duveen and Lloyd introduced to account for the influence of social life on psychological processes He describes a society's values ideas beliefs and practices as social representations which function both as rule systems structuring social life and as codes facilitating communication The editors introduction identifies the need to expand the theory of social representations to consider developmental changes in social beliefs in individual understanding and in the process of communication Individual chapters examine aspects of such processes in the domains of nursery school life of gender of social divisions in society of images of childhood of emotion of intelligence and of psychology In the final chapter Moscovici considers the contribution which these developmental perspectives make to the theory The book will interest specialists and students in the human and social sciences including developmental and social psychology sociology and communication studies

The Development of Social Knowledge José Antonio Castorina, Alicia Barreiro, 2023-08-01 The result of a deep research work sustained for more than two decades this book studies the construction of social knowledge from a constructivist perspective inherited from Piagetian thought It thus advances in a process of revision and discussion while maintaining crucial aspects of this current for the approach to the construction of the subject and the object of knowledge in the search for the elaboration of an explanatory theory for the formation of new knowledge A collaborative proposal between different disciplines of potential interest for the different actors who study and intervene in this field

Interaction, Communication and Development Charis Psaltis, Anna Zapiti, 2014-04-16 For decades there has been considerable interest in the ways that interactions between children can provide a beneficial context for the study of cognitive and social development In this book Psaltis and Zapiti use both theoretical and empirical research to build on the perspectives of Piaget Vygotsky Moscovici and others including the legacy of Gerard Duveen to offer a state of the art account of research on the themes of social interaction and cognitive development Interaction Communication and Development discusses the significance of social identities for social interaction and cognitive development The empirical set of studies presented and discussed focus on patterns of communication between children as they work together to solve problems Communications are examined in detail with a focus on Socio cognitive conflict conversational moves and conversation types The way the different forms of the interactions relate to different sources of asymmetry in the classroom The way social representations and social identities of gender are negotiated in the interaction This book provides an important account of how children develop through different kinds of social interactions It will have considerable appeal for researchers in the fields of developmental psychology socio cultural psychology social representations theory and education who wish to gain a deeper understanding of development and its relation to socio cultural processes

Social Relations in Human and Societal Development C. Psaltis, A. Gillespie, A.

Perret-Clermont, 2015-05-19 Social interaction is the engine which drives an individual's psychological development and it can create changes on all levels of society Social Relations in Human and Societal Development includes essays by internationally renowned academics from a range of disciplines including social psychology international relations and child development *Development as a Social Process* Serge Moscovici, Sandra Jovchelovitch, Brady Wagoner, 2013-03-06 This volume discusses the interface between human development and socio cultural processes by exploring the writings of Gerard Duveen an internationally renowned figure whose untimely death left a void in the fields of socio developmental psychology cultural psychology and research into social representations Duveen's original and comprehensive **Uniting Knowledge Integrated Scientific Research For Global Development** Seven editors, *Social Representations and the Social Bases of Knowledge* Mario von Cranach, Willem Doise, Gabriel Mugny, 1992 **The Cambridge Handbook of Sociocultural Psychology** Jaan Valsiner, Alberto Rosa, 2007-06-04 This book first published in 2007 is an international overview of the state of our knowledge in sociocultural psychology as a discipline located at the crossroads between the natural and social sciences and the humanities Since the 1980s the field of psychology has encountered the growth of a new discipline cultural psychology that has built new connections between psychology sociology anthropology history and semiotics The handbook integrates contributions of sociocultural specialists from fifteen countries all tied together by the unifying focus on the role of sign systems in human relations with the environment It emphasizes theoretical and methodological discussions on the cultural nature of human psychological phenomena moving on to show how meaning is a natural feature of action and how it eventually produces conventional symbols for communication Such symbols shape individual experiences and create the conditions for consciousness and the self to emerge turn social norms into ethics and set history into motion **Piaget, Vygotsky & Beyond** Leslie Smith, Julie Dockrell, Peter Tomlinson, 2003-09-02 This collection of original contributions by leading researchers celebrates the 1996 centenary of the births of the two most seminal figures in education and developmental psychology Jean Piaget and Lev Vygotsky Research in their footsteps continues worldwide and is growing What are the implications for the future for this extensive programme Which of the large body of findings has proved most important to current research Based around five themes these original contributions cover educational intervention and teaching social collaboration and learning cognitive skills and domains the measurement of development and the development of moral understanding **Tourism Development** Richard W. Butler, Douglas G. Pearce, 2003-09-02 This work explores the theory and practice of contemporary tourism development offering alternative approaches to theory and policy issues and extending research into newly emerging tourist destinations **Empirical Approaches to Social Representations** Glynis Marie Breakwell, David V. Canter, 1993 A long awaited and critical review of a key topic this book shows how different empirical approaches to the study of social representations are viable and can be complementary Empirical examples of the analysis of particular social representations from museums to new technology are included The ten

chapters in the first half of the book present the key arguments concerning the relationship between the theory and methods. The second half looks at a wide variety of research topics. Of central concern to all the topics are the circumstances under which one can be certain of having described a social representation. The answer lies in the use of multivariate statistical analysis the use of which is clearly explained.

A look at development , Gender, Power and Knowledge for Development Lata Narayanaswamy, 2016-12-08 Knowledge for development is under theorised and under researched within development studies but as a set of policy objectives it is thriving within development practice. Donors and other agencies are striving to improve the flow of information within and between decision makers and so called poor and marginalized groups in order to promote economic and social development including the empowerment of women. Gender Power and Knowledge for Development questions the assumptions and practice of the knowledge for development industry. Using a qualitative multi site ethnographical study of a Northern based gender information service and its beneficiaries in India the book queries the utility of the knowledge paradigm itself and the underlying assumption that a knowledge deficit exists in the Global South. It questions the value of practices designed to address this presumed deficit that seek to increase information without addressing the specific problems of the knowledge systems being targeted for support. After reviewing the evidence the book recommends that international organisations governments and practitioners move away from the belief that information intermediaries can employ progressive correctives to tinker at the edges and thus resolve the shortcomings of on going attempts to use knowledge alone as a driver of development. Gender Power and Knowledge for Development will be of great interest to researchers students in development studies gender studies and communication studies as well as INGOs donor agencies and groups engaged in information for development i4D ICT for development ICT4D Tech4Dev knowledge mobilization and knowledge for development K4D.

Social Interaction and the Development of Knowledge Jeremy I.M. Carpendale, Ulrich Müller, 2014-04-04 Written by highly respected theorists in psychology and philosophy the chapters in this book explicate and address fundamental epistemological issues involved in the problem of the relationship between the individual and the collective. Different theoretical viewpoints are presented on this relationship as well as between the nature of rationality and morality relativism and universalism and enculturation and internalization. Many chapters also highlight similarities and differences between these alternative frameworks and Piaget's theory and thus correct the misperception that Piaget had nothing to say about the social dimension of development. Other chapters focus on the implications of these debates for the important topic areas of pedagogy moral development and the development of social understanding in infancy and childhood. Although Piaget's theory is presented and evaluated by some of the chapters in this collection the authors remain critical and do not shy away from revising or extending Piaget's theory whenever it is deemed necessary. Though the topic covered in this book is of fundamental importance in the social sciences it is rarely addressed in a sustained way as it is in this collection of chapters. The book benefits social scientists interested in fundamental epistemological issues.

especially as these concern the relationship between the individual and the collective with implications for the conceptualization of morality and rationality *Knowledge in Context* Sandra Jovchelovitch, 2019-03-11 In this classic edition of her groundbreaking text *Knowledge in Context* Sandra Jovchelovitch revisits her influential work on the societal and cultural processes that shape the development of representational processes in humans Through a novel analysis of processes of representation and drawing on dialogues between psychology sociology and anthropology Jovchelovitch argues that representation a social psychological construct relating Self Other and Object world is at the basis of all knowledge Exploring the dominant assumptions of western conceptions of knowledge and the quest for a unitary reason free from the impurities of person community and culture Jovchelovitch recasts questions related to historical comparisons between the knowledge of adults and children civilised and primitive peoples scientists and lay communities and examines the ambivalence of classical theorists such as Piaget Vygotsky Freud Durkheim and L vy Bruhl in addressing these issues Featuring a new introductory chapter the author evaluates the last decade of research since *Knowledge in Context* first appeared and reassesses the social psychology of the contemporary public sphere exploring how challenges to the dialogicality of representations reconfigure both community and selfhood in this early 21st century This book will make essential reading for all those wanting to follow debates on knowledge and representation at the cutting edge of social cultural and developmental psychology sociology anthropology development and cultural studies **Development of Adult Thinking** Eeva K. Kallio, 2020-03-11 *Development of Adult Thinking* is a timely synthesis and evaluation of the current knowledge and emerging issues relating to adult cognitive development and learning Focusing on psychological and educational cutting edge research as well as giving an overview of the key theorists such as Piaget and Kohlberg Kallio and the team of expert contributors offer a holistic view on the development of adult thinking representing perspectives from developmental moral and social psychology as well as education and philosophy These topics are divided into three sections Adult cognitive and moral development Perspectives of adult learning and Open questions and new approaches offering introduction analysis and directions for future research This text is essential reading for students and researchers in developmental psychology and related courses as well as adult educators and teachers working in adult education

Tourism Governance Bill Bramwell, Bernard Lane, 2013-12-16 The role of governance has only recently begun to be researched and discussed in order to better understand tourism policy making and planning and tourism development Governance encompasses the many ways in which societies and industries are governed given permission or assistance or steered by government and numerous other actors including the private sector NGOs and communities This book explains and evaluates critical perspectives on the governance of tourism examining these in the context of tourism and sustainable development Governance processes fundamentally affect whether and how progress is made toward securing the economic socio cultural and environmental goals of sustainable development The critical perspectives on tourism governance examined

here challenge and re conceptualise established ideas in tourism policy and planning as well as engage with theoretical frameworks from other social science fields The contributors assess theoretical frameworks that help explain the governance of tourism and sustainability They also explore tourism governance at national regional and local scales and the relations between them They assess issues of power and politics in policy making and planning and they consider changing governance relationships over time and the associated potential for social learning The collection brings insights from leading researchers and examines important new theoretical frameworks for tourism research This book was originally published as a special issue of Journal of Sustainable Tourism

Biosphere Reserves and Sustainable Development

Goals 1 Angela Barthes,Catherine Cibien,Bruno Romagny,2024-03-26 Since 1971 UNESCO s Man and the Biosphere MAB Programme has embraced a number of principles that link the political scientific and academic spheres Biosphere Reserves and Sustainable Development Goals 1 presents these areas as privileged spaces for experimenting with operating methods specific to cross cutting objectives and issues These areas encourage the development of interdisciplinary research supported by a worldwide network to disseminate experience approaches and knowhow The various global and local political scales are linked here with different consequences for the reconfiguration of local political arenas for specific modes of development linked to a renewed relationship with knowledge powers and institutions and for renewed relationships between the worlds of science education and territorial governance
