Laufer, 2023-04-28 New Directions in Criminological Theory focuses on new approaches to theory construction with particular emphasis on reformulations and new applications of existing paradigms. A case is made for studying crime in terms of the social context in which crimes are conceived interpreted and negotiated. The volume includes theoretical discussions of spouse abuse of punishment and of power control models. Additional chapters examine theoretical advances in corporate illegality employee theft and the alcohol crime syndrome. These original contributions include Charles F. Wellford and Ruth A.
