Sir Harold Nicolson And International Relations The Practitioner As Theorist:

Sir Harold Nicolson and International Relations Derek Drinkwater, 2005-02-17 Sir Harold Nicolson 1886 1968 is well known as a diarist man of letters diplomatic historian gardener and broadcaster Nicolson's bestselling diaries and letters his many biographies including the highly acclaimed official life of King George V and his numerous essays and broadcasts have made him in the words of his friend and fellow MP Robert Bernays an international figure of the second degree Yet there was more to this urbane man than his finely observed diary stylish writing and Sissinghurst Castle Garden in Kent the joint creation of Nicolson and his wife the writer V Sackville West He also produced a rich and ambitious corpus of writing on the theory and practice of international relations Nicolson's aristocratic background and upbringing in a diplomatic household followed by an Oxford classical education and twenty years in diplomacy combined to forge his distinctive philosophy of international affairs As a young attaché in Constantinople before the Great War and in Whitehall during the conflict at the Paris Peace Conference of 1919 and en poste in Persia and Germany throughout the 1920s Nicolson was ideally placed to observe the maelstrom of international politics As an anti appeasement and wartime MP 1935 1945 he became a highly regarded authority on international relations During and after World War II he turned his mind to the issues of European integration world government and the ultimate possibility of global peace Nicolson has been the subject of two fine biographies This is the first study of his contribution to international thought He emerges from it as an important international thinker alongside theorists as diverse as E H Carr and Leonard Woolf Nicolson's international thought contains elements of realism and idealism while retaining a distinctive character and a breadth and consistency that render it unique

Sir Harold Nicolson and International Relations Derek Drinkwater, 2005 This is a study on the thought of Sir Harold Nicolson 1886 1968 and Nicolson's contribution to the theory and practice of international relations Provided by publisher

For the Sake of Present and Future Generations Suzannah Linton, Gerry Simpson, William A. Schabas, 2015-07-14 Professor Roger Stenson Clark has played a pivotal role in developing International Criminal Law and the movement against nuclear weapons He was one of the intellectual and moral fathers of the International Criminal Court This Festschrift brings together forty one appreciative friends to honour his remarkable contribution The distinguished contributors provide incisive contributions ranging from the reform of the Security Council to rule of law and international justice in Africa to New Zealand cultural heritage to customary international law in US courts and more Threaded through these richly diverse contributions is one common feature a belief in values and morality in human conduct and a passion for transformative use of law for the sake of present and future generations

International Relations Theory Knud Erik Jørgensen, 2017-09-30 This is a major new edition of a highly regarded textbook on International Relations theory which combines deep analysis into the diversity of thought within the major scholarly traditions and the guidance for students on doing their own theorising Knud Erik Jørgensen analyses the nuances of the main contending theories and approaches their philosophical underpinnings

and explains their use and relevance to different research agendas This is all placed within the context of cross cutting coverage of key current issues and debates of the philosophical foundations of IR theory and of why different theories are addressed to different research agendas All chapters have been fully revised and updated and a new chapter on the Human Nature tradition has been included to reflect the changes within the field This text is the most up to date and informative text on International Relations theory and is an essential companion for all International Relations students *Italy in*

International Relations Emidio Diodato, Federico Niglia, 2017-05-30 This book aims to provide an overview of Italian foreign policy from the moment of unification to the establishment of the European Union Three turning points are crucial in order to clarify Italy's foreign policy 1861 the proclamation of the Italian Kingdom 1943 when Italy surrendered in World War II 1992 the signing of the Maastricht Treaty The international position of Italy continues to be an enigma for many observers and this fuels misinterpretations and prejudices This book argues that Italy is different but not divergent from other European countries Italian elites have traditionally seen foreign policy as an instrument to secure the state and import models for development Italy can still contribute to international security and the strengthening of the EU At the same time Italy is not a pure adaptive country and has always maintained a critical attitude towards the international system in which it is incorporated

John Maynard Keynes and International Relations Donald Markwell, 2006-10-26 Sixty years after his death the life and thought of the economist John Maynard Keynes continues to be a subject of the greatest interest to scholars Yet one of the most significant areas of Keynes thinking has been strangely overlooked international relations a subject that was always of central importance to him The purpose of this book is to explore comprehensively for the first time the evolution of Keynes thinking on international relations and to show how this is linked to the changing of his opinions on economic matters in a way which deepens our understanding of both

International Theory at the Margins Nicholas Greenwood Onuf, 2024-03-12 This book brings together thirteen essays from the celebrated international theorist Nicholas Greenwood Onuf They address topics that Onuf has puzzled over for decades prompting him to develop a distinctive perspective on international theory as social theory Among these topics are the problem of materiality in social construction epochal change in the modern world and the power of language Building on the work of giants from Aristotle and Cicero Hume and Kant to Derrida and Foucault and drawing on diverse contemporary theorists including Seyla Benhabib James Der Derian Johan Galtung Morton Kaplan Joseph Nye James Rosenau Elaine Scarry and Kenneth Waltz the book ranges over the margins of the field and settles on issues that have never been put to rest

Hospitality and World Politics Gideon Baker, 2013-02-07 A long neglected concept in the field of international relations and political theory hospitality provides a new framework for analysing many of the challenges in world politics today from the search for peaceable relations between states to asylum and refugee crises

Diplomatic Style and Foreign Policy Jeffrey Robertson, 2016-05-20 The book explores diplomatic style and its use as a means to provide analytical insight into a state's foreign policy with a specific focus on South

Korea Diplomatic style attracts scant attention from scholars It is dismissed as irrelevant in the context of diplomacy s universalism misconstrued as a component of foreign policy alluded to perfunctorily amidst broader considerations of foreign policy or wholly absented from discussions in which it should comprise an important component In contrast to these views practitioners maintain a faith like confidence in diplomatic style They assume it plays an important role in providing analytical insight giving them advantage over scholars in the analysis of foreign policy This book explores diplomatic style and its use as a means to provide analytical insight into foreign policy using South Korea as a case study It determines that style remains important to diplomatic practitioners and provides analytical insight into a state s foreign policy by highlighting phenomena of policy relevance which narrows the range of information an analyst must cover The book demonstrates how South Korea s diplomatic style which has a tendency towards emotionalism and is affected by status generational change cosmopolitanism and estrangement from international society can be a guide to understanding South Korea s contemporary foreign policy This book will be of much interest to students of diplomacy studies foreign policy Asian politics and International Relations in general

British International Thinkers from Hobbes to Namier I. Hall, 2009-12-07 This book will be the first to examine the variety of British international thought its continuities and innovations The editors combine new essays on familiar thinkers such as Thomas Hobbes and John Locke with important but neglected writers and publicists such as Travers Twiss James Bryce and Lowes Dickinson

Diplomacy, Communication, and Peace William Maley, 2020-11-15 This book is composed of interconnected essays which reflect on challenging new issues related to diplomacy communication and peace This book begins by drawing out some of the challenges for diplomacy that arise from modern theories of semantics and of strategic communication as well as those posed by the need for secrecy and by the activities of agents of influence It then proceeds to examine important issues in contemporary diplomacy including refugee diplomacy humanitarian diplomacy sovereignty norms and consular activities It concludes with an exploration of dilemmas that confront attempts to promote peace through multilateral means such as the limitations of peacemaking diplomacy the difficulty of promoting democratic governance and the problems associated with dealing with morally repugnant actors The book is grounded in the conception of diplomacy as a social practice with multiple players and recognises that the state has many different elements and that state actors live in worlds shaped not just by their relations with other states but also by their own complex domestic politics This book will be of much interest to students of diplomacy foreign policy and International Relations

Shaping British Foreign and Defence Policy in the Twentieth Century M. Murfett, 2014-07-31 This volume is devoted to the shaping of British foreign and defence policymaking in the twentieth century and illustrates why it s relatively easy for states to lose their way as they grope for a safe passage forward when confronted by mounting international crises and the antics of a few desperate men

June 1940, Great Britain and the First Attempt to Build a European Union Andrea Bosco, 2016-06-22 June 2016 represents a significant moment in British history The decision to leave

the European Union at the most critical period since its existence could bring unpredictable and far reaching consequences both for the United Kingdom and the Union itself June 1940 was also a turning point in British history On the afternoon of 16 June a few hours before the French Government opted for the capitulation Churchill made on behalf of the British Government an offer of indissoluble union When a sceptical Churchill put forward to the British Cabinet the text of the declaration drafted by Jean Monnet Sir Arthur Salter and Robert Vansittart he was surprised at the amount of support it received The Cabinet adopted the document with some minor amendments and de Gaulle who saw it as a means of keeping France in the war telephoned Reynaud with the proposal for an indissoluble union with joint organs of defence foreign financial and economic policies a common citizenship and a single War Cabinet The proposal however never reached the table of the French Government The spirit of capitulation embodied in Weygand and Pétain prevailed and France submitted herself to the German will for the second time in seventy years After the Munich crisis Great Britain had to face the danger of another European war with the inevitable loss of the Empire and it was at this point that the country first began to favour the application of the federalist principle to Anglo French relations In this conversion to federalism a fundamental role was played by the Federal Union the first federalist movement organised on a popular basis The contribution of Federal Union to the development of the federal idea in Great Britain and Europe was to express and organise the beginning of a new political militancy and it represented the first step of a historical process the overcoming of the nation State the modern political formula which institutionalises the political division of mankind This study principally examines the first eighteen months of the Federal Union during which time it was able to raise itself to the attention of the general public and the political class as the heir of the League of Nations Union The research is based on extensive unpublished archival material found across the globe from London Oxford Brighton and Edinburgh to Washington Paris and Geneva

Hand of the prince Pablo de Orellana, 2025-03-18 This book is dedicated to how diplomacy makes develops and trades in knowledge It proposes an approach to examine how diplomatic knowledge production describes what diplomats see how these descriptions develop and whether they were convincing to one's own policymakers or even those of other actors These descriptions are vital actors can be inserted into global categories Communism or Terrorism that beget significant security relational and policy consequences Diplomacy and policy constitute the world we inhabit based on what policymakers made of descriptions assessments and analysis Such is the power of knowing who we and the others are

A History of International Thought Lucian Ashworth, 2014-01-10 International thought is the product of major political changes over the last few centuries especially the development of the modern state and the industrialisation of the world economy While the question of how to deal with strangers from other communities has been a constant throughout human history it is only in recent centuries that the question of foreign relations and especially imperialism and war have become a matter of urgency for all sectors of society throughout the world This book provides the first comprehensive overview of the evolution of Western international

thought and charts how this evolved into the predominantly Anglophone field of International Relations Along the way several myths of the origins of International Relations are explored and exposed the myth of the peace of Westphalia the myths of Versailles and the nature of the League of Nations the realist idealist Great Debate myth and the myth of appeasement Major approaches to the study of international affairs are discussed within their context and on their own terms rather than being shoe horned into anachronistic paradigms Written in a clear and accessible style Ashworth s analysis reveals how historical myths have been used as gatekeeping devices and how a critical re evaluation of the history of international thought can affect how we see international affairs today

Morality and Responsibility of Rulers Anthony Carty, Janne Elisabeth Nijman, 2018 Arguing that the concept of an international rule of law has a history independent from that of the national rule of law this book discusses early modern European thought on natural law and justice and Chinese thought on world order and international law It provides a unique examination of comparative international legal history and philosophy

Socio-Cultural and Religious Conflicts and the Future of Nigeria Lotanna Olisaemeka, 2022-12-10 With the prevailing violent conflict situation of our world perpetuated sometimes even in the name of religion humanity today faces extinction To reverse this ugly trend humanity has no choice than to build a society where every tribe and tongue can coexist in peace This work analyzed the violent conflicts from anthropological behavioral politico philosophical and theological perspectives and makes a demand on humanity to save herself through proper education and dialogue with all men and religions Lotanna Olisaemeka is a researcher in Missiology affiliated with the Philosophisch Theologische Hochschule Vallendar Germany

New Accountabilities, New Challenges John Wanna, Evert A. Lindquist, Penelope Marshall, 2015-04-08 This important and challenging volume of essays draws on insights from leading academics and public servants from Australia New Zealand the United Kingdom Canada and elsewhere It provides an excellent series of critiques of both the systemic accountabilities and the policy processes of government by drawing on meticulously researched topical and real world case studies of governance Its contribution to the understanding of the applied processes of government in this way is exemplary Topics covered include restoring trust in government parliamentary scrutiny of the APS administrative law and FOI budgetary reforms implementation issues competition policy indigenous administration collaboration with the NGO sector educational reforms and the changes to the Auditor General s mandate

Worldmaking David Milne, 2015-09-22 A new intellectual history of U S foreign policy from the late nineteenth century to the present Worldmaking is a compelling new take on the history of American diplomacy Rather than retelling the story of realism versus idealism David Milne suggests that U S foreign policy has also been crucially divided between those who view statecraft as an art and those who believe it can aspire to the certainty of science Worldmaking follows a cast of characters who built on one another s ideas to create the policies we have today Woodrow Wilson s Universalism and moralism led Sigmund Freud to diagnose him with a messiah complex Walter Lippmann was a syndicated columnist who commanded the attention of leaders as diverse as

Theodore Roosevelt Lyndon Johnson and Charles de Gaulle Paul Wolfowitz was the intellectual architect of the 2003 invasion of Iraq and an admirer of Wilson's attempt to make the world safe for democracy Each was engaged in a process of worldmaking formulating strategies that sought to deploy the nation's vast military and economic power or sought to retrench and focus on domestic issues to shape a world in which the United States would be best positioned to thrive Tracing American statecraft from the age of steam engines to the age of drones Milne reveals patterns of worldmaking that have remained impervious to the passage of time The result is a panoramic history of U S foreign policy driven by ideas and by the lives and times of their authors *British liberal internationalism, 1880-1930* Casper Sylvest, 2013-07-19 This book explores the development character and legacy of the ideology of liberal internationalism in late nineteenth and early twentieth century Britain Liberal internationalism provided a powerful way of theorising and imagining international relations and it dominated well informed political discourse at a time when Britain was the most powerful country in the world Its proponents focused on securing progress generating order and enacting justice in international affairs Liberal internationalism united a diverse group of intellectuals and public figures and it left a lasting legacy in the twentieth century This book elucidates the roots trajectory and diversity of liberal internationalism focusing in particular on three intellectual languages international law philosophy and history through which it was promulgated Finally it traces the impact of these ideas across the defining moment of the First World War The liberal internationalist vision of the late nineteenth century remained popular well into the twentieth century and forms an important backdrop to the development of the academic study of International Relations in Britain

Sir Harold Nicolson And International Relations The Practitioner As Theorist Book Review: Unveiling the Magic of Language
