## **Spatial Relations Poems:**

Spatial Relations Leonora Smith, 2001 Readable and inviting *Spatial Relations* reminds us of the power in everyday places and objects and the mysterious space between them Like the fold up shapes in old junior high school aptitude tests they are both concrete and bewildering The characters and personae in these poems including mythologized versions of Smith's parents yearn for big emotions for high living for what they have tasted and touched loved and lost This is a book that will invite you to remember imagine and laugh more often than you might expect The poems in this collection have a rueful lively sense of humor an underlying impatience with social inequity and a willingness to imagine that things might be playing themselves out differently in some parallel universe Like anyone who has narrowly escaped a life of domestic confinement these poems have a wild streak

**Iconic Investigations** Lars Elleström, Olga Fischer, Christina Ljungberg, 2013 The contributions to Iconic Investigations deal with linguistic or literary aspects of language While some studies analyze the cognitive structures of language others pay close attention to the sounds of spoken language and the visual characteristics of written language In addition this volume also contains studies of media types such as music and visual images that are integrated into the overall project to deepen the understanding of iconicity the creation of meaning by way of similarity relations Iconicity is a fundamental but relatively unexplored part of signification in language and other media types During the last decades the study of iconicity has emerged as a vital research area with far reaching interdisciplinary scope and the volume should be of interest for students and researchers interested in scholarly fields such as semiotics cognitive linguistics conceptual metaphor studies poetry intermediality and multimodality

**Reading Visual Poetry After Futurism** Michael Webster,1995 Early in the century poets expanded the possibilities of their genre by creating sound poems by dispensing with syntax and punctuation and by arranging words and letters across the page in new visual patterns This book explores ways of reading the aesthetically challenging and semiotically subversive texts created by four poets F T Marinetti 1876 1944 Kurt Schwitters 1887 1948 and e e cummings 1894 1962 The book shows us how to read these experimental texts in a variety of interrelated ways as products of each poet s individual aesthetic as part of the avant garde s reaction to aestheticism as efforts to bring art closer to life and as attempts to create a new kind of semiotically and aesthetically open work The book concludes by emphasizing the individual invention of its four central figures rather than placing them in their usual roles as precursors to the concrete poetry movement of the fifties

**The Encyclopaedia Britannica** ,1929      **Poetry** Harriet Monroe,1928      **The Place of God in Piers Plowman and Medieval Art** Mary Clemente Davlin,2001 Very few poets except the authors of the Hebrew Scriptures and the New Testament have tried to write in any extended way about God Even Dante confines his vision of Christ and the Trinity to a few passages at the end of Paradiso and most religious lyric poets concentrate more on their own attitudes and reactions to God their prayer longing repentance suffering or joy than on the nature of God Among English poems three narratives Piers Plowman Paradise Lost and Paradise Regained are exceptional in their extensive explicit poetry about god and their direct concern with the mysteries of Biblical faith This work looks at Piers Plowman confronting not only the alterity of culture resulting from a lapse of almost 700 years but also the more profound alterity of the subject matter      **Principles of Literary Criticism** I.
