The Opening Mind A Philosophical Study Of Humanistic Concepts:

The Opening Mind Morris Weitz, 1977 **The Architecture of Concepts** Peter de Bolla, 2013-12-02 The Architecture of Concepts proposes a radically new way of understanding the history of ideas Taking as its example human rights it develops a distinctive kind of conceptual analysis that enables us to see with precision how the concept of human rights was formed in the eighteenth century The first chapter outlines an innovative account of concepts as cultural entities The second develops an original methodology for recovering the historical formation of the concept of human rights based on data extracted from digital archives This enables us to track the construction of conceptual architectures over time Having established the architecture of the concept of human rights the book then examines two key moments in its historical formation the First Continental Congress in 1775 and the publication of Tom Paine's Rights of Man in 1792 Arguing that we have yet to fully understand or appreciate the consequences of the eighteenth century invention of the concept rights of man the final chapter addresses our problematic contemporary attempts to leverage human rights as the most efficacious way of achieving universal equality Philosophical Approaches to Literature William E. Cain, 1984 This volume presents eleven new essays that reveal how significant nineteenth and twentieth century writers have drawn from and in some cases opposed major trends in philosophy Essays in this collection deal with Tennyson Coleridge Woolf Faulkner De Quincey Beckett romance as a genre the state of contemporary literary theory as shaped by the writings of Wittgenstein Ricoeur and Derrida and other topics *Divine Agency and Divine Action, Volume I* William J. Abraham, 2017-10-27 Divine Agency and Divine Action Volume I lays the groundwork for a constructive contribution to the contemporary debate regarding divine action Noted scholar William J Abraham argues that the concept of divine action is not a closed concept like knowledge but an open concept with a variety of context dependent meanings The volume charts the history of debate about divine action among key Anglophone philosophers of religion and observes that they were largely committed to this erroneous understanding of divine action as a closed concept After developing an argument that divine action should be understood as an open fluid concept Abraham engages the work of William Alston Process metaphysics quantum physics analytic Thomist philosophy of religion and the theology of Kathryn Tanner Abraham argues that divine action as an open concept must be shaped by distinctly theological considerations and thus all future work on divine action among philosophers of religion must change to accord with this vision Only deep engagement with the Christian theological tradition will remedy the problems ailing contemporary discourse on divine action The Routledge Companion to Twentieth Century Philosophy Dermot Moran, 2008-10-27 The twentieth century was one of the most significant and exciting periods ever witnessed in philosophy characterized by intellectual change and development on a massive scale The Routledge Companion to Twentieth Century Philosophy is an outstanding authoritative survey and assessment of the century as a whole Featuring twenty two chapters written by leading international scholars this collection is divided into five clear parts and presents a comprehensive picture of the period for

the first time major themes and movements logic language knowledge and metaphysics philosophy of mind psychology and science phenomenology hermeneutics existentialism and critical theory politics ethics aesthetics Featuring annotated further reading and a comprehensive glossary The Routledge Companion to Twentieth Century Philosophy is indispensable for anyone interested in philosophy over the last one hundred years suitable for both expert and novice alike *Derrida on the Mend* Robert Magliola, 1984 Magliola's exposition of Derrida has been acclaimed as the best in English Indeed it is the only account I know which brings an alert and independent questioning mind to bear on Derrida's arguments a mind which at times seems to play Kierkegaard into Derrida's Hegel Japanese Journal of Religious Studies Philosophy **100 Years of**
