The Synchronized Society traces the history of the synchronous broadcast experience of the twentieth century and the transition to the asynchronous media that dominate today Broadcasting grew out of the latent desire by nineteenth century industrialists political thinkers and social reformers to tame an unruly society by controlling how people used their time The idea manifested itself in the form of the broadcast schedule a managed flow of information and entertainment that required audiences to be in a particular place usually the home at a particular time and helped to create water cooler moments as audiences reflected on their shared media texts Audiences began disconnecting from the broadcast schedule at the end of the twentieth century but promoters of social media and television services still kept audiences under control replacing the schedule with surveillance of media use Author Randall Patnode offers compelling new insights into the intermingled roles of broadcasting and industrial post industrial work and how Americans spend their time *Netflix and the Re-invention of Television* Mareike Jenner,2018-07-24 This book deals with the various ways Netflix reconceptualises television as part of the process of TV IV As television continues to undergo a myriad of significant changes Netflix has proven itself to be the dominant force in this development simultaneously driving a number of these changes and challenging television s existing institutional structures This comprehensive study explores the pre history of Netflix the role of binge watching in its organisation and marketing and Netflix s position as a transnational broadcaster It also examines different concepts of control and the role these play in the history of ancillary technologies from the remote control to binge watching as Netflix s iteration of giving control to the viewers By focusing on Netflix s relationship with the linear television schedule its negotiations of quality and marketing as well as the way Netflix integrates into national media systems Netflix and the Re invention of Television illuminates the importance of Netflix s role within the processes of TV IV **A History of Mass Communication** Irving Fang,1997-02-27 This exciting new text traces the common themes in the long and complex history of mass communication It shows how the means of communicating grew out of their eras how they developed how they influenced the societies of those eras and how they have continued to exert their influence upon subsequent generations The book is divided into six periods which are identified as Information Revolutions writing printing mass media entertainment the toolshed which we call home now and the Information Highway In looking at the ways in which the tools of communication have influenced and been influenced by social change A History of Mass Communication provides students of media and journalism with a strong sense of the way their chosen field affects how society functions Providing a broad based approach to media history Dr Fang encourages the reader to take a careful look at where our culture is headed through the tools we use to communicate with one another A History of Mass Communication is not only the most current text on communication history but also an invaluable resource for anyone interested in how methods of communication affect society
