Electrically Small, Superdirective, and Superconducting Antennas

R. C. Hansen, 2006-06-19 A seminal reference to electrically small antennas for today's wireless and Wi-Fi world This book is dedicated to the challenges posed by electrically small antennas and their solutions Electrically small antennas have characteristics that limit performance low radiation resistance high reactance low efficiency narrow bandwidth and increased loss in the matching network Most of these limitations are shared by two other classes of antennas superdirective and superconducting antennas All three classes of antennas are thoroughly treated in three interrelated parts Part One Electrically Small Antennas begins with a discussion of the fundamental limitations of bandwidth and matching then provides detailed design information on loaded whips and dipoles ferrite loops patches with unusual substrates and dielectric resonator antennas In addition to exploring designs that work the author sets forth antenna designs that are based on good physics yet are poor performers as well as designs with both poor underlying physics and poor performance Part Two Superdirective Antennas sets forth basic capabilities and limitations of superdirective antennas both apertures and arrays and investigates bandwidth efficiency and tolerances The author explores the magnification of intrinsic matching circuit loss due to a large mismatch and evaluates the recent and promising non-Foster matching circuits Part Three Superconducting Antennas reviews superconductivity concepts and new principles for dipole loop and patch antennas The author concludes with a discussion of superconducting delay lines for wideband phased array steering Throughout the book the author provides readers with a historical perspective setting forth what has been investigated what works and what does not Each part has its own author index and a list of references to help readers continue their explorations of particular topics With the explosive demand for wireless and Wi-Fi this seminal reference is essential reading for all antenna professionals and is recommended as a graduate level course book

Small Town Big Rumors

Willow Winters, He tasted like tequila and the fake name I gave him was Rose Four years ago I decided to get over one man by getting under another A single night and nothing more I found my handsome stranger with a shot glass and charming but devilish smile at the end of the bar The desire that hit his eyes the second they landed on me ignited a spark inside me instant and hot He was perfect and everything I didn't know I needed That one night may have ended but I left with much more than a memory Four years later and with a three year old in tow the man I still dream about is staring at me from across the street in the town I grew up in I don't miss the flash of recognition or the heat in his gaze The chemistry is still there even after all these years I just hope the secrets and regrets don't destroy our second chance before it's even begun

philosophical theories of fairness to develop a framework for evaluating AI models which can be called a theory of algorithmic justice a theory inspired by the theory of justice developed by the American philosopher John Rawls For several years now researchers who design AI models have investigated the causes of inequalities in AI decisions and proposed techniques for mitigating them It turns out that in most realistic conditions it is impossible to comply with all metrics simultaneously Because of this companies using AI systems will have to choose which metric they think is the correct measure of fairness and regulators will need to determine how to apply currently existing laws to AI systems Leben provides a detailed set of practical recommendations for companies looking to evaluate their AI systems and regulators thinking about laws around AI systems and he offers an honest analysis of the costs of implementing fairness in AI systems as well as when these costs may or may not be acceptable

Do Not Forget This Small Honest Nation Adam

Somorjai, OSB and Tibor Zinner, 2013 Cardinal Joseph Mindszenty 1892-1975 was in 1956-71 guest of the American Embassy in Budapest, Hungary. During these 15 years he wrote a great number of letters and messages transmitted through diplomatic channels to four US Presidents and their Secretaries of State. There are only two Presidential answers from Kennedy and from Nixon. In general the Department of State instructed the Chargé in Budapest to inform the Cardinal orally his message has been received in the White House State Department. This correspondence in his integrity remained buried in 5 archives. This book is offered for all those willing to learn the various problems of Cold War and détente period American diplomacy and the thinking of the great cardinal in his generation hero of freedom for the Hungarians and for the World. From the letters of the Cardinal The Treaty of Versailles Trianon has dismembered us and Yalta has created a Soviet satellite out of us October 23 1957. The moral qualifications leave the sinful livers and blood wallowers cold November 8 1957. Today nothing is more important and perhaps it is not too late for mankind than that its leaders and the led should learn what bolshevism is in the way that we its poor wretched satellites have experienced in body and soul. This great lesson can equal the Declaration of Independence in its effect June 23 1960. This peace is the peace of Central Europe has been the peace of the graveyard only those who are not imprisoned can be satisfied with a jail August 10 1961 illegality never can become legality as the injustice justice March 13 1964 Rev Adam Somorjai OSB b 1952 a Hungarian Benedictine living in Rome Italy worked in various Church Offices editor of the correspondence of Cardinal Mindszenty with the Popes and Cardinal Secretaries of State of the Vatican Prof Tibor Zinner b 1948 legal historian university professor in Budapest Hungary's best known expert on 20th century political trials author of numerous publications e.g. on Imre Nagy and László Rajk. **Love Riot** Sara Barratt, 2020-05-05. Young people are walking away from the church and those still in the church often struggle with indifference about their faith. But it doesn't have to be this way. It's time for a revolution a holy uprising A riot With passion and authenticity teen author Sara Barratt calls on her generation to reject apathy and embrace a daring costly faith Not content with safe religion that demands nothing of us Sara shows teens how they can stop giving in to the status quo and devote themselves fully to Christ following him no matter what their friends do or the culture around them does She challenges them to give everything over their comfort zones their time their loyalties their pride and discover that in losing control they are gaining the life that was meant for them all along Love Riot is a battle cry from one teen to another to embrace a life of wholehearted commitment and relentless abandon for Christ no matter the cost.
