Talking Water Talking Fire:

Talking Water, Talking Fire Jim Tallosi, 1984-01-01 **Talking Fire Hand** Stephen C. Porter, 2010-07-22 Charlie Power has just insured that justice will be served to three hardened murderers. However, by doing so, he has set the stage for his own murder trial. Although neither his friends nor his enemies realize it, Charlie has a secret identity. Under the name Talking Fire Hand, given to him by his Indian teachers, he's known throughout the West as a lightning fast gunfighter, a skilled tracker, and an expert woodsman. When he finds an Indian maiden who is hurt, helpless, and unfortunately alone, he tries to help her by using the skills learned from his missionary parents to doctor her wounds. Once they travel through the Indians' territory to the next town, he discovers that he'll have to protect her from those who might want to take advantage of her. He must consider his Christian values to potentially save his life when he discovers that the only path that God has left open to him is to surrender to the forces that are trying to kill him and trust in his God for rescue.

Ten Lectures on the Elaboration of Cognitive Grammar Ronald Langacker, 2017-07-31 This book reviews the basic claims and descriptive constructs of Cognitive Grammar, outlines major themes in its ongoing development, and applies these notions to central problems in grammatical analysis. The initial review covers conceptual semantics, the conceptual characterization of grammatical categories, grammatical constructions, and the architecture of a unified theory of language structure. Main themes in the framework's development include the dynamicity of language structure, grammar as the implementation of semantic functions, systems of opposing elements to serve those functions, and organization in strata representing successive elaborations of a baseline structure. The descriptive application of these notions centers on nominal and clausal structure, with special emphasis on nominal grounding.

When Tengu Talk Wilburn N. Hansen, 2008-09-30 Hirata Atsutane (1776-1843) has been the subject of numerous studies that focus on his importance to nationalist politics and Japanese intellectual and social history. Although well known as an ideologue of Japanese National Learning (Kokugaku), Atsutane's significance as a religious thinker has been largely overlooked. His prolific writings on supernatural subjects have never been thoroughly analyzed in English until now. In *When Tengu Talk*, Wilburn Hansen focuses on Senkyo ibun (1822), a voluminous work centering on Atsutane's interviews with a fourteen-year-old Edo street urchin named Kozo Torakichi, who claimed to be an apprentice tengu, a supernatural creature of Japanese folklore. Hansen uncovers in detail how Atsutane employed a deliberate method of ethnographic inquiry that worked to manipulate and stimulate Torakichi's surreal descriptions of everyday existence in a supernatural realm, what Atsutane termed the Other World. Hansen's investigation and analysis of the process begins with the

hypothesis that Atsutane's project was an early attempt at ethnographic research a new methodological approach in nineteenth century Japan Hansen posits that this scientific analysis was tainted by Atsutane's desire to establish a discourse on Japan not limited by what he considered to be the unsatisfactory results of established Japanese philological methods A rough sketch of the milieu of 1820s Edo Japan and Atsutane's position within it provides the backdrop against which the drama of Senkyoibun unfolds There follow chapters explaining the relationship between the implied author and the outside narrator the Other World that Atsutane helped Torakichi describe and Atsutane's nativist discourse concerning Torakichi's fantastic claims of a newly discovered Shinto holy man called the sanjin Sanjin were partly defined by supernatural abilities similar but ultimately more effective and thus superior to those of the Buddhist bodhisattva and the Daoist immortal They were seen as holders of secret and powerful technologies previously thought to have come from or been perfected in the West such as geography astronomy and military technology Atsutane sought to deemphasize the impact of Western technology by claiming these powers had come from Japan's Other World In doing so he creates a new Shinto hero and by association asserts the superiority of native Japanese tradition In the final portion of his book Hansen addresses Atsutane's contribution to the construction of modern Japanese identity By the late Tokugawa many intellectuals had grown uncomfortable with continued cultural dependence on Neo Confucianism and the Buddhist establishment was under fire from positivist historiographers who had begun to question the many contradictions found in Buddhist texts With these traditional discourses in disarray and Western rationalism and materialism gaining public acceptance Hansen depicts Atsutane's creation of a new spiritual identity for the Japanese people as one creative response to the pressures of modernity When Tengu Talk adds to the small body of work in English on National Learning It moreover fills a void in the area of historical religious studies which is dominated by studies of Buddhist monks and priests by offering a glimpse of a Shinto religious figure Finally it counters the image of Atsutane as a forerunner of the ultra nationalism that ultimately was deployed in the service of empire Lucid and accessible it will find an appreciative audience among scholars of Shinto and Japanese and world religion In addition to religion specialists it will be of considerable interest to anthropologists and historians of Japan
