society helped pave the way to Britain's postwar settlement and Welfare State Rackham came to prominence as Chairman of the National Union of Women's Suffrage Societies as a government factory inspector and championing the rights of unemployed women in the 1930s An early broadcaster on BBC radio and among the first women appointed magistrates and councillors her name became synonymous with enlightened local government The transformation of women's lives in Victorian and twentieth century Britain is crucial to understanding Rackham's ideals intellectual formation and priorities as a Labour Party politician This book will be of interest to historians and students of gender history and women's lives The Sense of the Past Bernard Williams, 2009-02-09 Before his death in 2003 Bernard Williams planned to publish a collection of historical essays focusing primarily on the ancient world This posthumous volume brings together a much wider selection written over some forty years His legacy lives on in this masterful work the first collection ever published of Williams's essays on the history of philosophy The subjects range from the sixth century B C to the twentieth A D from Homer to Wittgenstein by way of Socrates Plato Aristotle Descartes Hume Sidgwick Collingwood and Nietzsche Often one would be hard put to say which part is history which philosophy Both are involved throughout because this is the history of philosophy written philosophically Historical exposition goes hand in hand with philosophical scrutiny Insights into the past counteract blind acceptance of present assumptions In his touching and illuminating introduction Myles Burnyeat writes of these essays They show a depth of commitment to the history of philosophy seldom to be found nowadays in a thinker so prominent on the contemporary philosophical scene The result celebrates the interest and importance to philosophy today of its near and distant past The Sense of the Past is one of three collections of essays by Bernard Williams published by Princeton University Press since his death In the Beginning Was the Deed Realism and Moralism in Political Argument selected edited and with an introduction by Geoffrey Hawthorn and Philosophy as a Humanistic Discipline selected edited and with an introduction by A W Moore make up the trio Historical Dictionary of Bertrand Russell's Philosophy Rosalind Carey, John Ongley, 2009-03-02 Academic philosopher logician public intellectual educator political activist and freethinker Bertrand Russell was and remains a colossus No other single philosopher in the last 200 years can be said to have created so much and influenced so many His Principia Mathematica written with A N Whitehead ranks as one of the greatest books on logic since Aristotle His philosophical work on language meaning logic mind and metaphysics formed the basis of 20th century philosophy Russell was active in numerous political movements of liberation and peace and his popular writings including the best selling History of Western Philosophy won the Nobel prize in literature in 1950 Historical Dictionary of Bertrand Russell's Philosophy offers a comprehensive current guide to the many facets of Russell's work Through its chronology introductory essay bibliography and hundreds of cross referenced dictionary entries on concepts people works and technical terms Russell's impact on philosophy and related fields is made accessible to the reader in this must have reference *Reforming Sex* Atina Grossmann, 1995 Reforming Sex takes on questions of international context and comparison as well as continuity and

discontinuity in twentieth century German history in a manner that other studies have not The book follows Weimar sex reformers into the Third Reich to exile around the world and into both the Eastern and Western zones of postwar Germany It demonstrates how deeply rooted eugenics ideology and American and Bolshevik models of modernity were in the Weimar movement It also examines the drastic rupture between sex reform notions of social health and National Socialist population policy The story of German sex reform provides a new perspective on post World War II family planning programs it sheds light on the long and lively background to current controversies about abortion the role of doctors and the state in determining women s right to control their own bodies and the possibilities for reforming and transforming sexual relations between men and women     *The Transnational World of the Cominternians* B. Studer,2015-04-07 The Cominternians who staffed the Communist International in Moscow from its establishment in 1919 to its dissolution in 1943 led transnational lives and formed a cosmopolitan but closed and privileged world The book tells of their experience in the Soviet Union through the decades of hope and terror     **Medieval Women** Eileen Power,1997-09-18 A vivid portrayal of women in the Middle Ages with an engaging essay on Eileen Power by Maxine Berg     **Abortion in England 1900-1967** Barbara Brookes,2012-12-12 Over the decades from 1900 to 1967 abortion was transformed from an important female centred form of fertility control into a medical event closely monitored by the State This transition the author argues here took place against a background of debate over fertility control and its implications for women s maternal role The book originally published in 1988 suggests that the inter war years saw a crucial mapping of boundaries in the debates over abortion The distinction between methods of fertility control used before and after conception was more sharply drawn The abortion law was difficult to enforce and in 1936 the Abortion Law Reform Association was founded by feminists to call for safe legal abortion as a woman s right Resort to criminal abortion continued in the post war years and the number of therapeutic abortions also began to increase The medical profession s attempt to create a distinction between worthy medical and spurious social reasons for fertility control gave way in the face of women s demands for safe and effective means to plan when and if they would have children After a hard fought battle the abortion law was reformed in 1967 The abortion decision however remained firmly in the hands of the medical profession     *Snapshots of Bloomsbury* Maggie Humm,2006 Photographs some barely known on the domestic lives of Virginia Woolf 1882 1941 and Vanessa Bell 1879 1961 and the historical cultural and artistic milieu of their circle in Bloomsbury including Vivienne Eliot Vita Sackville West Lady Ottoline Morrell and Dora Carrington     *Women's University Narratives, 1890-1945, Part I Vol 2* Anna Bogen,2024-08-01 From the late nineteenth century women began to enter British universities Their numbers were small and their gains hard won and fiercely contested yet they inspired a whole new genre of fiction This collection of largely forgotten and rare texts forms a valuable primary resource for scholars of literature social history and women s education     *Women's University Fiction, 1880-1945* Anna Bogen,2015-10-06 The rise of the middle classes brought a sharp increase in the number of young men and

women able to attend university Developing in the wake of this increase the university novel often centred on male undergraduates at either Oxford or Cambridge Bogen argues that an analysis of the lesser known female narratives can provide new insights

**The Prospects of Industrial Civilisation** Bertrand Russell, Dora Russell, 2014-06-03 The Prospects of Industrial Civilization provides a rare glimpse into areas of Russell's political thought which are often ignored Written with Dora Black who became Russell's second wife on a trip to China in 1920 it is revealing both as a period piece and as a book for our times Russell criticises his own age and demonstrates how humanity perpetually struggles against the centralising forces of industrialism and nationalism He views industrialism as a threat to human freedom as it creates large populations which have to be subject to controls and he likens Bolshevik Russia to Cromwell's England asserting that both were dictatorships designed to force an essentially feudal society to adopt industrialism He sees industrialism and nationalism as fundamentally linked and proposes one government for the whole world as a solution Russell is not blind to the positive side of industrialism without machines an economy of subsistence would be the best for which society could hope but argues that the global village and prevailing political democracy should be its eventual results
