Tamerlane And The Jews:

Tamerlane and the Jews Michael Shterenshis, 2013-11-05 This book provides a general introduction to the history of Jewish life in 14th century Asia at the time of the conqueror Tamerlane Timur The author defines who are the Central Asian Jews and describes the attitudes towards the Jews and the historical consequences of this relationship with Tamerlane Left alone to live within a stable empire the Jews prospered under Tamerlane In founding an empire Tamerlane had delivered Central Asia from the last Mongols and brought the nations of Transoxonia within the orbit of Persian civilisation The Central Asian Jews accepted this spirit and preserved it until modern times in their language and culture *Jewish Culture and History*, 2004

The Judeo-Persian Poet 'Emrānī and his "Book of Treasure" David Yeroushalmi, 2021-10-11 In the course of their long history on Iranian soil the Jews of Iran have produced a large body of literature which has been little studied and published This volume deals with one of the most prominent Jewish poets of Iran known as Emr n 1454 1536 C E The book consists of three parts The first part studies Emr n s time life and work and analyzes in depth the poet s last major work entitled Ganj n me The Book of Treasure Ganj n me which is closely modeled after compositions of classical Persian literature is Emr n s versified commentary of the ethical tractate of the Mishnah commonly known as Pirqey Abot The Chapters of the Fathers The second part of the book offers the English translation annotation and source study of Ganj n me The third and last part of the book provides a critical edition of Ganj n me *History of the Turkish Jews and Sephardim* Elli Kohen, 2007 This book presents a living history of the Turkish Jews Author Elli Kohen attempts to combine the patience of the chronicler with the folksy humor of the storyteller without undermining the presentation of the Sephardic Jews cultural history

Folktales of the Jews, V. 3 (Tales from Arab Lands) Dan Ben Amos, 2011-05-01 Thanks to these generous donors for making the publication of the books in this series possible Lloyd E Cotsen The Maurice Amado Foundation National Endowment for the Humanities and the National Foundation for Jewish Culture Tales from Arab Lands presents tales from North Africa Yemen Lebanon Syria and Iraq in the latest volume of the most important collection of Jewish folktales ever published This is the third book in the multi volume series in the tradition of Louis Ginzberg s timeless classic Legends of the Jews The tales here and the others in this series have been selected from the Israel Folktale Archives IFA named in Honor of Dov Noy at The University of Haifa a treasure house of Jewish lore that has remained largely unavailable to the entire world until now Since the creation of the State of Israel the IFA has collected more than 20 000 tales from newly arrived immigrants long lost stories shared by their families from around the world The tales come from the major ethno linguistic communities of the Jewish world and are representative of a wide variety of subjects and motifs especially rich in Jewish content and context Each of the tales is accompanied by in depth commentary that explains the tale s cultural historical and literary background and its similarity to other tales in the IFA collection and extensive scholarly notes There is also an introduction that describes the culture and its folk narrative tradition a world map of the areas covered illustrations

biographies of the collectors and narrators tale type and motif indexes a subject index and a comprehensive bibliography
 Until the establishment of the IFA we had had only limited access to the wide range of Jewish folk narratives Even in Israel
 the gathering place of the most wide ranging cross section of world Jewry these folktales have remained largely unknown
 Many of the communities no longer exist as cohesive societies in their representative lands the Holocaust migration and
 changes in living styles have made the continuation of these tales impossible This series is a monument to a rich but
 vanishing oral tradition This series is a monument to a rich but vanishing oral tradition **The Jews of Asia** Sidney
 Mendelssohn,1920 **Comprehensive History of the Jews of Iran** Ḥabīb Lavī,1999 This book the first comprehensive
 source on an important topic not only describes briefly the history of Jews in ancient Iran Persia but covers all periods
 particularly the 19th and 20th centuries BOOK JACKET *The Jewish Encyclopedia* Isidore Singer,1901 *The genuine
 and complete works* Flavius Josephus,1800 *The Whole Genuine and Complete Works of Flavius Josephus*, Flavius

 Medieval France is the first comprehensive study of contact between France and the Mongols in the late Middle Ages As
 these realms expanded across Eurasia the French through crusade and settlement the Mongols through conquest their
 encounters altered each other s understanding of the world and their place in it The Mongol influence on French culture is
 visible in what Mark Cruse calls the Mongol archive a wide range of materials including chronicles crusade treatises
 encyclopedias manuscript illuminations maps romances and travel accounts revealing how the French court made sense of a
 people previously unknown to the European intellectual tradition Cruse mines this archive of Franco Mongol contact to
 reassess France s place in the continental history of medieval Eurasia By comparing the French and Mongol courts Cruse
 shows how their similarities allowed meaningful communication between them and highlights the surprising connections
 diplomatic intellectual and genealogical across vast distances The library of King Charles V r 1364 1380 one of the largest in
 medieval Europe is a monument to the richness of these encounters which anticipate the global interconnectedness of the
 modern world Ultimately the innovative approach in *The Mongol Archive in Late Medieval France* toward French conceptions
 of and relations with the Mongols demonstrates how a global perspective transforms our understanding of the medieval

 Net DramaNet Implementing the concept of culture as a virtual network it investigates Early modern European drama and its
 global dissemination The 12 articles of the volume all written by experts in the field teaching in the United Kingdom the USA
 Russia Switzerland India and Germany focus on a selection of English and Spanish dramas from the sixteenth and
 seventeenth centuries Analysing and comparing motifs formal parameters as well as plot structures they discuss the

commonalities and differences of Early modern drama in England and Spain Memoirs of a Millennium Ted Pocock,2016-01-18 Memoirs of a Millennium is an engaging and unconventional history of the last millennium told through the lives of ten individuals across ten centuries The characters and their compatriots are brought vividly to life by eyewitnesses both sympathetic and unsympathetic and a colourful cast of subsequent commentators In this insightful and entertaining book Ted Pocock uncovers complex webs of humanity in a narrative that moves effortlessly from connection to connection across countries and continents and from the past to the present and back again The ten chapters explore the lives and times of the following individuals 1000 Vladimir of Kiev Russia 1100 Godfrey of Bouillon Palestine and the Holy Land 1200 Jayavarman VII of Angkor Cambodia 1300 Devorguilla of Galloway England and Scotland 1400 Tamburlaine of Samarkand Central Asia 1500 Marcantonio Raimondi of Bologna Italy 1600 Toyotomi Hideyoshi of Osaka Japan 1700 Sophie Charlotte of Prussia Germany 1800 John Ledyard of Connecticut USA 1900 Yuan Shikai of Beijing China The scholarship is dazzling the prose elegant and witty the rich digressions into related themes irresistible The successive eras come alive and the compelling text keeps the reader in thrall Dr Helen Ibbitson Jessup **PALESTINE** Ruben Ygua,2025-04-08 Traditional methods of studying the past have always given greater importance to nationalistic religious and moral interests which subordinated the historical fact to the point of view of the system The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they pretend to inform us After so many years studying History I came to the conclusion that the best system of study is through an impartial objective Chronology which limits itself to place each event in its exact place in time revealing History without manipulations This Chronology contains not only purely political facts such as the founding of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics but also includes information on the most diverse fields of human activity chemistry astronomy geography mathematics etc At the same time the chronology is complemented by data that do not belong to a specific date but to a whole era such as generalities of each society curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this is one of the most complete chronologies available periodically updated with the latest archaeological and scientific discoveries and which transforms the reader into an eyewitness of the past understanding the relationship of events geographically distant from each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally neglected when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections the Spanish originals of which are being translated into French English Italian and Portuguese The chronology runs year by year as far as possible from prehistory to the present day For those who prefer a deeper and more detailed study I have prepared a second chronology day by day this for the time being runs from 1789 to 1946 divided into five collections **Travels and Adventures of the Rev. Finally the Truth about the Rise of the West Modernity developed only in the West in Europe and North America Nowhere else did science and democracy arise nowhere else was slavery outlawed Only Westerners invented chimneys musical scores telescopes eyeglasses pianos electric lights aspirin and soap The question is Why Unfortunately that question has become so politically incorrect that most scholars avoid it But acclaimed author Rodney Stark provides the answers in this sweeping new look at Western civilization How the West Won demonstrates the primacy of uniquely Western ideas among them the belief in free will the commitment to the pursuit of knowledge the notion that the universe functions according to rational rules that can be discovered and the emphasis on human freedom and secure property rights Taking readers on a thrilling journey from ancient Greece to the present Stark challenges much of the received wisdom about Western history How the West Won shows for example Why the fall of Rome was the single most beneficial event in the rise of Western civilization Why the Dark Ages never happened Why the Crusades had nothing to do with grabbing loot or attacking the Muslim world unprovoked Why there was no Scientific Revolution Why scholars recent efforts to dismiss the importance of battles are ridiculous had the Greeks lost at the Battle of Marathon we probably would never have heard of Plato or Aristotle Stark also debunks absurd fabrications that have flourished in the past few decades that the Greeks stole their culture from Africa that the West s discoveries were copied from the Chinese and Muslims that Europe became rich by plundering the non Western world At the same time he reveals the woeful inadequacy of recent attempts to attribute the rise of the West to purely material causes favorable climates abundant natural resources guns and steel How the West Won displays Rodney Stark s gifts for lively narrative history and making the latest scholarship accessible to all readers This bold insightful book will force you to rethink your understanding of the West and the birth of modernity and to recognize that Western civilization really has set itself apart from other cultures **Ibn Khaldūn** Walter Joseph Fischel,1956 **Uzbekistan** MaryLee Knowlton,2006

An examination of the geography history government economy culture and peoples of Uzbekistan **Postcolonial George Eliot** Oliver Lovesey,2017-08-17 This book examines the range of the colonial imaginary in Eliot s works from the domestic and regional to ancient and speculative colonialisms It challenges monolithic hegemonic views of George Eliot whose novelistic career paralleled the creation of British India and also dismissals of the postcolonial as ahistorical It uncovers often overlooked colonized figures in the novels It also investigates Victorian Islamophobia in light of Eliot s impatience with ignorance intolerance and xenophobia as well as her interrogation of the make believe of endings Drawing on a range of sources from Eug ne Bodichon s Algerian anthropological texts the Persian journals of John Martyn and postmodern re engagements Postcolonial George Eliot has implications for an understanding of the globalization of English the decolonization of disciplinarity and periodization and the roots of present day conflict in the wider Mediterranean world
