rare archival significance The history of our desire to conquer gravity is encapsulated within these covers **Taming the Skies** Peter Pigott,2003-07 Flight remains one of humanity's most spectacular triumphs and Canada especially has much to be proud of Brace for Impact Peter Pigott,2016-06-18 So many planes seem to fall from the sky or disappear completely But are accidents really so common and why do they happen in the first place Brace for Impact traces the evolution of accident investigation and explains why flying is the safest form of travel **Sailing Seven Seas** Peter Pigott,2010-11-18 Under Canadian Pacific's red and white checkered flag the company's founders George Stephen and William C Van Horne created a rail sea service from Liverpool to Hong Kong Boasting sternwheelers Great Lakes bulk carriers ferries and luxurious ocean going liner leviathans the Canadian Pacific shipping line sailed around the globe In both world wars the entire fleet served gallantly as Allied troop carriers After the Second World War the company staved off the realities of the jet age for as long as it could replacing liners with container ships until what was left of the legendary maritime operation was sold off in 2005 With a witty and informative style author Peter Pigott evokes not only the nostalgic heyday of ocean travel but reveals a slice of almost forgotten Canadiana From the stifling steerage quarters of immigrant ships to the elegant drawing rooms of nautical titans such as the ill fated Empress of Ireland and the Empress of Asia from U boat haunted convoys to container ships shore dwellers and old salts alike will be delighted with Sailing Seven Seas **The Dundurn Group** The Dundurn Group, *Killing Bugs for Business and Beauty* Mark Kuhlberg,2022-03-31 Killing Bugs for Business and Beauty examines the beginning of Canada's aerial war against forest insects and how a tiny handful of officials came to lead the world with a made in Canada solution to the problem Shedding light on a largely forgotten chapter in Canadian environmental history Mark Kuhlberg explores the theme of nature and its agency The book highlights the shared impulses that often drove both the harvesters and the preservers of trees and the acute dangers inherent in allowing emotional appeals instead of logic to drive environmental policy making It addresses both inter governmental and intra governmental relations as well as pressure politics and lobbying Including fascinating tales from Cape Breton Island Muskoka and Stanley Park Killing Bugs for Business and Beauty clearly demonstrates how class region and commercial interest intersected to determine the location and timing of aerial bombings At the core of this book about killing bugs is a story infused with innovation and heroism of the various conflicts that complicate how we worship wilderness **Canadian Books in Print.
