WINNER OF THE WORLD FANTASY AWARD FOR BEST COLLECTION From award winning and New York Times bestselling authors Paolo Bacigalupi and Tobias Buckell comes a fantasy novel told in four parts about a land crippled by the use of magic and a tyrant who is trying to rebuild an empire unless the people find a way to resist Khaim The Blue City is the last remaining city in a crumbled empire that overly relied upon magic until it became toxic It is run by a tyrant known as The Jolly Mayor and his devious right hand the last archmage in the world Together they try to collect all the magic for themselves so they can control the citizens of the city But when their decadence reaches new heights and begins to destroy the environment the people stage an uprising to stop them In four interrelated parts The Tangled Lands is an evocative and epic story of resistance and heroic sacrifice in the twisted remains surrounding the last great city of Khaim Paolo Bacigalupi and Tobias Buckell have created a fantasy for our times about a decadent and rotting empire facing environmental collapse from within and yet hope emerges from unlikely places with women warriors and alchemical solutions **Address to the Public** Isabel Chapin Barrows, Samuel June Barrows, Martha D. Adams, 1909 **Entangled Lives** Joy L. K. Pachuau, Willem van Schendel, 2022-11-10 This book considers three questions about understanding the past How can we rethink human histories by including animals and plants How can we overcome nationally territorialised narratives And how can we balance academic history writing and indigenous understandings of history This is a tentative foray into the connections between these questions Entangled Lives explore them for a large area that has seldom been explored in academic inquiry The Eastern Himalayan Triangle includes both uplands and lowlands The region is the meeting point of three global biodiversity hotspots connecting India and China across Myanmar Burma Bangladesh and Bhutan The Triangle is treated as a multispecies site in which human histories have always been utterly intertwined with plant and animal histories It foregrounds that history is co created it is always interspecies history but that its contours are locally specific

Wayne Yang, 2018-06-14 Indigenous and decolonizing perspectives on education have long persisted alongside colonial models of education yet too often have been subsumed within the fields of multiculturalism, critical race theory, and progressive education. Timely and compelling *Indigenous and Decolonizing Studies in Education* features research theory and dynamic foundational readings for educators and educational researchers who are looking for possibilities beyond the limits of liberal democratic schooling. Featuring original chapters by authors at the forefront of theorizing practice research and activism, this volume helps define and imagine the exciting interstices between Indigenous and decolonizing studies and education.
