Midnight Tango Katherine Kent, 2002 Global Tangos Melissa A. Fitch, 2015-02-25 *Global Tangos Travels in the Transnational Imaginary* argues against the hackneyed rose in mouth clichés of Argentine tango demonstrating how the dance may be used as a way to understand transformations around the world that have taken place as a result of two defining features of globalization transnationalism and the rise of social media *Global Tangos* demonstrates the cultural impact of Argentine tango in the world by assembling an unusual array of cultural narratives created in almost thirty countries all of which show how tango has mixed and mingled in the global imaginary sometimes in wildly unexpected forms Topics include Tango Barbie and Ken advertising for phone sex the presence of tango in political upheavals in the Middle East and in animated Japanese children's television programming gay tango porn tango orchestras and composers in World War II concentration camps global tango protests aimed at reclaiming public space the transformation of Buenos Aires as a result of tango tourism and the use of tango for palliative care and to treat other ailments They also include the global development of queer tango theory activism and festivals *Global Tangos* shows how the rise in social media has heralded a new era of political activism artistry solidarity and engagement in the world one in which virtual global tango communities have indeed become very real social and support networks The text engages some key concepts from contemporary critics in the fields of tourism studies geography dance studies cultural anthropology literary studies transnational studies television studies feminism and queer theory *Global Tangos* underscores the interconnectedness of cultural identity economics politics and power in the production marketing distribution and circulation of global images related to tango and by extension Latin America that travel the world *Tango Midnight* Michael Cassutt, 2003-11-01 It's 2005 and the world has changed International terrorists have released a genetically modified disease called X Pox on the world There is no greater challenge to medicine than finding a cure Biochem billionaire Tad Mikleszewski called TM by nearly everyone is a space junkie who has been the primary investor backing the Spacelifter project a private attempt to build a single stage to orbit vehicle But Spacelifter's crucial test firing has failed and TM is going to pull the plug He has a better idea for getting himself into space he'll buy research time on the International Space Station to work on a cure for X Pox The Russians will sell him a seat on the Soyuz taxi vehicle for a mere 30 million But the equipment in the Harmony Laboratory module was salvaged from old Russian military labs and perhaps TM's skills are a little bit out of date A tiny leak a small hole in the seal of the isolation box where TM is manipulating the X Pox pathogen and Harmony is contaminated by the disease that kills within three weeks Now it's a race against time to rescue the crew and decontaminate the Space Station NASA has a shuttle a month from launch and if Astronaut Kelly Gessner can be retrained in decontamination procedures they can push that up two weeks The Russians have a third Soyuz due off the assembly line but Astronaut Mark Koskinen NASA's chief of staff at Star City doesn't think they'll make it in time But whether Russian or American someone is going to have to get up there and fast At the Publisher's request
