Tango and the Dancing Body in Istanbul Melin Levent Yuna, 2021-11-21 *Tango and the Dancing Body in Istanbul* explores the expansion of social Argentine tango dancing among Muslim actors in Turkey pioneered in Istanbul despite the conservative rule of the Justice and Development Party JDP and Tayyip Erdoğan In this book Melin Levent Yuna questions why a dance that appears to publicly represent an erotic relationship finds space to expand and increase dramatically in the number of contemporary Turkish Muslim tango dancers particularly during a conservative rule Even during the 2020 Covid 19 pandemic tango dance classes gatherings and messages flourished on YouTube Facebook Instagram and Zoom Urban Turkey and its tango dance performances provide one symbol and example of how neoliberal capitalism could go hand in hand with conservatism by becoming a bridge between Europe and the Middle East This study largely focuses on the dancers perspective while presenting the policies of Erdoğan It presents the social characteristics of the tango dancers the meanings they attach to their bodies and their dance as well as what this dance reflects about them besides the policies of the Justice and Development Party The book approaches the tango dance and its dancing body in terms of layers of meaning systems in a neoliberal and conservative context This study will be of great interest to students and scholars in dance anthropology cultural studies and performance studies

In Strangers' Arms Beatriz Dujovne, 2011-09-07 The tango is easily the most iconic dance of the last century its images as familiar as an old friend But are they the whole story Peeling back the poster propaganda that has always characterized the tango publicly this intimate study shows the invisible heart of the dance and the culture that raised it Drawing on direct experience and conversations with dancers it reveals much about the role of the tango in Argentinean culture Instructors considering this book for use in a course may request an examination copy here

Latin American Popular Culture Since Independence William H. Beezley, Linda Ann Curcio, 2012 This unique reader offers an engaging collection of essays that highlight the diversity of Latin America's cultural expressions from independence to the present Leading historians explore funerals dance and music letters and literature spectacles and monuments and world's fairs and food These themes and events highlight the ways in which a wide range of individuals with copious at times contradictory

motives attempted to forge identity turn the world upside down mock their betters forget their troubles through dance express love in letters and altogether enjoy life The authors analyze case studies from Argentina Brazil the Dominican Republic Ecuador Mexico Nicaragua Peru and Trinidad Tobago tracing how their examples resonate in the rest of the region They show how people could and did find opportunities to escape if only occasionally their daily drudgery making lives for themselves of greater variety than the constant quest for dominance drive for profits or knee jerk resistance to the social or economic order so often described in cultural studies Instead this rich text introduces the complexity of motives behind and the diversity of expressions of popular culture in Latin America Contributions by Sal Acosta Thomas L Benjamin John Charles Chasteen Dari n J Davis Lauren Robin H Derby Matthew D Esposito Ingrid E Fey Stephen Jay Gould Graham E L Horton Fanni Mu oz Cabrejo Blanca Muratorio Jeffrey M Pilcher Janet Sturman and Pamela Voekel *National Rhythms, African Roots* John Charles Chasteen,2004 John Chasteen examines the history behind sexually suggestive dances salsa samba and tango that brought people of different social classes and races together in Latin America **Black Legend** Paulina L. Alberto,2022-01-06 Celebrities live their lives in constant dialogue with stories about them But when these stories are shaped by durable racist myths they wield undue power to ruin lives and obliterate communities Black Legend is the haunting story of an Afro Argentine Ra l Grigera el negro Ra l who in the early 1900s audaciously fashioned himself into an alluring Black icon of Buenos Aires bohemian nightlife only to have defamatory storytellers unmake him In this gripping history Paulina Alberto exposes the destructive power of racial storytelling and narrates a new history of Black Argentina and Argentine Blackness across two centuries With the extraordinary Ra l Grigera at its center Black Legend opens new windows into lived experiences of Blackness in a white nation and illuminates how Ra l s experience of celebrity was not far removed from more ordinary experiences of racial stories in the flesh Consumer Culture in Latin America J. Sinclair,2012-12-05 How can we understand consumption in a region known for its cultural richness and vast inequalities What do Latin Americans consume and why Examining topics from tango and samba to sex workers in Costa Rica from eating tamales to selling ice in the Andes and from building and moving houses to buying cell phones this collection brings together original research on some of the many forms of consumption and consumers that contribute to Latin American cultures and histories Contributors include sociologists anthropologists media and cultural studies scholars geographers and historians showcasing diverse approaches to understanding Latin American consumption practices and consumer culture Rise and Fall of the Cosmic Race Marilyn Grace Miller,2009-07-21 Latin America is characterized by a uniquely rich history of cultural and racial mixtures known collectively as mestizaje These mixtures reflect the influences of indigenous peoples from Latin America Europeans and Africans and spawn a fascinating and often volatile blend of cultural practices and products Yet no scholarly study to date has provided an articulate context for fully appreciating and exploring the profound effects of distinct local invocations of syncretism and hybridity Rise and Fall of the Cosmic Race fills this void by charting the history of Latin America s experience

of mestizaje through the prisms of literature the visual and performing arts social commentary and music In accessible jargon free prose Marilyn Grace Miller brings to life the varied perspectives of a vast region in a tour that stretches from Mexico and the Caribbean to Brazil Ecuador and Argentina She explores the repercussions of mestizo identity in the United States and reveals the key moments in the story of Latin America s cult of synthesis Rise and Fall of the Cosmic Race examines the inextricable links between aesthetics and politics and unravels the threads of colonialism woven throughout national narratives in which mestizos serve as primary protagonists Illuminating the ways in which regional engagements with mestizaje represent contentious sites of nation building and racial politics Miller uncovers a rich and multivalent self portrait of Latin America s diverse populations

Culture and Management in the Americas Alfredo Behrens,2009-04-02 Latin Americans are culturally different from North Americans in ways that so far have been inaccurately portrayed in the management literature In *Culture and Management in the Americas* Alfredo Behrens argues that these differences merit a substantial overhaul of management theory and practice to make the best of the significantly untapped Latin American potential for creativity innovation and teamwork This applies in organizations with North American ownership and management whether they are based in the U S or Latin America Behrens a management consultant and academic who has studied taught and practiced in South and North America and Europe explains why the use of traditional North American research methods to capture cultural traits in the multi cultural workforce is inappropriate This practice produces a false picture of the cultural attributes and capabilities of Latin American managers and key staff And this in turn leads to serious shortcomings in the development of appropriate motivation and leadership strategies and of appraisal and control

instruments Rather than relying on standardized surveys for measuring cultural attributes to underpin and develop such strategies and tools the author suggests that managers look to the arts particularly literature and cinema for a richer and more useful alternative He illustrates his points by reference to literary icons such as Argentina s Martin Fierro Brazil s Macunaima and America s Captain Ahab He uses a variety of case studies to demonstrate what we can learn from these iconographic characters and what we can expect of each other when we apply these lessons whether we are leading following or working in self directed teams This readable and enjoyable book will be an invaluable engaging and practical tool for anyone charged with managing at any level in workforce that combines both North American and Latin American cultures
