Ontologized Ethics Elvis Imafidon,John Ayotunde Isola Bewaji,2013-11-21 Ontologized Ethics New Essays in African Meta Ethics examines an often neglected meta ethical issue in African philosophical discourse the extent to which one s orientation of being or idea of what is as an individual or as a group of persons does or should determine one s concept of the good To what extent is ethics or our idea of what is permissible or impermissible grounded on ideas of what fundamentally exists or what it means to be The aim of this collection of essays with emphasis on an African philosophical context will be to establish more firmly and vigorously whether there is an intrinsic link between ontology and morality that is whether and if so how the proper norms for human actions can be explained and validated once we make lucid ideas about metaphysical topics such as human nature community relationality and spirituality The essays included in this volume focus rigorously on ethical issues such as communalism adultery environmental ethics and bioethics with the primary aim of showing whether the link between such issues and metaphysical beliefs is trivial or intrinsic

Seeing, Knowing, Being John Greer,2012-02-15 From ancient Taoist sages and Sufi mystics to Christian contemplatives and contemporary Zen masters Seeing Knowing Being explores the profound truth behind all the world s mystic traditions Living a spiritual life has nothing to do with fixing ourselves It is simply a matter of awakening to what we already are The real work of self discovery and the answer to our suffering emptiness and loss of meaning is learning to see in a different way The mystical adventure is all in the seeing says John Greer From departure to arrival nothing changes but our eyes But the process isn t that simple In this all embracing work that is destined to become a classic Greer artfully traces the steps and stages of the delicate process of awakening He shows how we can move from society s hand me down version of reality to the wonder of our true nature from conceptual habitual patterns of thinking to knowing the truth by being Like a master artist who captures an image and stirs something deep inside of us Greer also highlights nearly one hundred evocative metaphors as varied and colorful as the sages themselves to kindle your imagination and spark your intuition to shift your perspective and shake you into an awareness that no amount of explanation can What Greer shows with great wisdom and compassion is that when you put aside the map of the mind you can follow the compass of your heart You can move through the details of life going to work

Good Stress Jeff Krasno, 2025-03-25 Ten protocols to counteract the chronic ease that creates our

modern epidemic of disease from a wellness industry leader who can prove they work because he's tested them on himself. Jeff Krasno, the founder and CEO of the global wellness platform Commune Media, thought he was pretty healthy. Though he suffered from brain fog, chronic fatigue, and bouts of insomnia, those symptoms seemed utterly normal in today's society. When he learned he had diabetes, his first thought was, "How can that be? I run a wellness company." His diagnosis propelled him to consult every expert at his disposal and engage in intensive research in order to turn his health around. On this journey, he began to form a larger picture of what's wrong with our health in the modern world. In *Good Stress*, co-authored with his wife Schuyler Grant, who shepherded him through 300+ interviews with doctors and helped distill the results into actionable information, Jeff shares what he's learned and outlines a practical program for readers to reset their own health. Jeff explains that the comforts and conveniences of modern life in the developed world undermine our biology. Humans evolved with Paleolithic stressors and scarcity, which conferred health and resilience. Modern life sets us up for diabetes, dementia, heart disease, cancer, and more. Chronic disease is the result of chronic ease: an endless abundance of calories, sedentary desk jobs, exposure to blue light, and separation from nature. To come back into balance, we need to thoughtfully subject our bodies and minds to the stressors we're naturally built for. This book distills the hundreds of conversations that Jeff has had with acclaimed teachers and practitioners in mind-body wellness, including Gabor Maté, Mark Hyman, Marianne Williamson, and Dr. Sara Gottfried. Jeff gives readers uncommonly wise and relatable guidance for 10 practices to extend both our lifespan and our healthspan, including time-restricted eating, cold and heat exposure, light therapy, eating stressed plants, building our psychological immune system, and more. For each practice, Jeff shares his own experience; there's a great story of how Wim Hof finally convinced him to get into an ice bath, unpacks the science behind it, the place it has in our culture, and the effects it has on body and mind, and explains how to undertake it safely and mindfully.
