Taoist Texts:

Taoist Texts: Ethical, Political, and Speculative Frederic Henry Balfour, **Taoist Texts** Frederic H. Balfour, 2005-06-30 From the author's Introduction It must gladden the hearts of all true students to see that some little interest is at last being taken by European writers in the beautiful philosophy of Nature preached by the founder of Taoism the study of which I make bold to add cannot fail to yield rich stores of pleasure to everyone who takes it up be he scholar dilettante or divine

a religion the rise of mystical and alchemical Taoism and the synthesis of Taoism Buddhism and Confucianism Systems of Taoism explores magical sects divination practices devotional ceremonies internal alchemy and the way of right action Taoist Practices discusses meditation techniques of cultivating the body and rites of purification ceremony and talismanic magic This roadmap to the spiritual landscape of Taoism not only introduces the important events in the history of Taoism the sages who wrote the Taoist texts and the various schools of Taoist thinking but also gives readers a feel for what it means to practice Taoism today A comprehensive bibliography for further study completes this valuable reference work

Teachings of the Tao ,1996-12-17 The Tao that can be spoken of is not the real Way reads a famous line from the Tao te ching But although the Tao cannot be described by words words can allow us to catch a fleeting glimpse of that mysterious energy of the universe which is the source of life The readings in this book are a beginner's entrance into the vast treasury of writings from the sacred Chinese tradition consisting of original translations of excerpts from the Taoist canon Brief introductions and notes on the translation accompany the selections from the classics books of devotional and mystical Taoism texts of internal alchemy stories of Taoist immortals magicians and sorcerers ethical tracts chants and rituals and teachings on meditation and methods of longevity

Myth and Meaning in Early Taoism N. J. Girardot,1988 Myth and Meaning in Early Daoism examines some of the earliest texts associated with the Daoist tradition primarily the Daode jing Zhuangzi and Huainanzi from the outlook of the comparative history of religions and finds a kind of thematic and soteriological unity rooted in the

mythological symbolism of hundun the primal chaos being and principle that is foundational for the philosophy and practice of the Dao as creatio continua in cosmic social and individual life Dedicated to the proposition that ancient Chinese texts and traditions are often best understood from a broad interdisciplinary and interpretive perspective this work when it was written challenged many prevailing conceptions of the Daode jing and Zhuangzi as primarily philosophical texts without any religious significance or affinity with the later sectarian traditions While controversial and at times playfully provocative the methodology and findings of this book are still important for the ongoing scholarship about Daoism in China and the world

Textual Criticism and Sacred Texts Signe Cohen,2023-03-20 In Textual Criticism and Sacred Texts Signe Cohen looks at the text critical scholarship on sacred texts across disciplines She traces the development of the genealogical method and discusses its role in textual criticism today The book examines the applicability of traditional text critical methods to oral texts as well as the roles of translations and commentaries in textual criticism Cohen then turns to the under theorized question of the relationship between religion and text critical scholarship and outlines ethics of textual criticism applied to religious texts She then discusses how new digital technologies will change the textual scholarship of the future and proposes new ways that scholars can collaborate across sub disciplines

Tales of the Dancing Dragon Eva Wong,2007-11-13 Here Taoist practitioner Eva Wong offers a colorful treatment of the history and evolution of Taoism told through traditional teaching tales These tales which Wong first heard as a child growing up in Hong Kong are gleaned from the local storytellers and the uncensored chronicles known as yeshi the wild history of China not monitored by the official imperial scholars and historians The stories are by turns mysterious and intriguing passionate and violent and they are peppered with colorful characters including hermits politicians social activists revolutionaries scholars scientists and mystics

Arranged chronologically from prehistory through the early twentieth century these stories introduce the schools in the Taoist lineages and capture the defeats and victories of Taoism its periods of decadence and decay and its renewal maturation and spiritual triumph Wong puts these stories into context and shows that Taoism is a dynamic spiritual tradition constantly changing and being influenced by history Taoism For Dummies Jonathan Herman,2013-05-30 The definitive guide to understanding Taoism no matter your background or faith Lao Tzu s Tao Te Ching is the second most translated book in the world and the practice of religious Taoism is on the rise in China where adherents currently number in the hundreds of millions Yet there remains a remarkable lack of reliable information about Taoism for curious westerners Taoism For Dummies provides comprehensive coverage of Taoism s origins in China s Chou Dynasty its underlying quietist principles its emergence as a major religion various interpretation of its core texts including both Eastern and Western interpretations key Taoist concepts and much more It also provides a fascinating glimpse of Taoism in contemporary China The ideal guide for readers interested in this influential religion as well as those taking an introductory course on Taoism or Chinese Religion A valuable source of insight for those with an interest in modern Chinese culture and beliefs The Taoist Canon Kristofer Schipper,Franciscus Verellen,2019-09-01 Taoism remains the only major religion whose canonical texts have not been systematically arranged and made available for study This long awaited work a milestone in Chinese studies catalogs and describes all existing texts within the Taoist canon The result will not only make the entire range of existing Taoist texts accessible to scholars of religion it will open up a crucial resource in the study of the history of China The vast literature of the Taoist canon or Daozang survives in a Ming Dynasty edition of some fifteen hundred different texts Compiled under imperial auspices and completed in 1445 with a supplement added in 1607 many of the books in the Daozang concern the history organization and liturgy of China s indigenous religion A large number of works deal with medicine alchemy and divination If scholars have long neglected this unique storehouse of China s religious traditions it is largely because it was so difficult to find one s way within it Not only was the rationale of its medieval classification system inoperable for the many new texts that later entered the Daozang but the system itself was no longer understood by the Ming editors hence the haphazard arrangement of the canon as it has come down to us This new work sets out the contents of the Daozang chronologically allowing the reader to follow the long evolution of Taoist literature Lavishly illustrated the first volume ranges from antiquity through the Middle Ages while the second spans the modern period Within this frame texts are grouped by theme and subject Each one is the subject of a historical abstract that identifies the text s contents date of origin and author Throughout the first two volumes introductions outline the evolution of Taoism and its spiritual heritage A third volume offering biographical sketches of frequently mentioned Taoists multiple indexes and an extensive bibliography provides critical tools for navigating this guide to one of the fundamental aspects of Chinese culture Teachings of the Tao Eva Wong,1996-12-17 The Tao that can be spoken of is not the real Way reads a famous line from the Tao te ching But

although the Tao cannot be described by words words can allow us to catch a fleeting glimpse of that mysterious energy of the universe which is the source of life The readings in this book are a beginner's entrance into the vast treasury of writings from the sacred Chinese tradition consisting of original translations of excerpts from the Taoist canon Brief introductions and notes on the translation accompany the selections from the classics books of devotional and mystical Taoism texts of internal alchemy stories of Taoist immortals magicians and sorcerers ethical tracts chants and rituals and teachings on meditation and methods of longevity
