 Neal,2019-01-02 African American Philosophy and African American Philosophers have played a central role in
 understanding and also shaping what it means to be black in America Some of their conclusions were reactions to the
 mistreatment they received from the majority population but other of their conclusions were extensions and or novel
 positions taken with a view through past perceptual lenses Yet with the mass exodus of black students from HBCU s after the
 civil rights era many of the important figures and their inquiries have been little or poorly studied The significance of this
 work is found in its attempt to grapple with one such seminal figure his memory of his ancestors and the education he
 received from Morehouse College in the Atlanta University Center all of which formed the roots of the ideas he later
 produced Howard Thurman former Dean of Marsh Chapel at Boston University and mentor to figures such as Martin Luther

King Jr left quite a large ideological footprint however just as others of his milieu his ideas have been largely overlooked Thurman's deep rooted knowledge of black culture particularly black religious ideas as they existed during the period of African enslavement in the United States and as they were exhibited in the Negro Spirituals shaped his thinking and allowed him to produce a body of work grounded in the musings and traditions of his ancestors This volume investigates forms an analysis and even critiques Thurman's work such that others can benefit from the profundity of his thoughts while also taking note of their relevance for today's philosophers concerned with humanity

Teens and the New Religious Landscape Jacob Stratman, 2018-09-12 How are teenagers' religious experiences shown in today's young adult literature How do authors use religious texts and beliefs to add depth to characters settings and plots How does YA fiction place itself in the larger conversation regarding religion Modern YA fiction does not shy away from the dilemmas and anxieties teenagers face today While many stories end with the protagonist in a state of flux if not despair some authors choose redemption or reconciliation This collection of new essays explores these issues and more with a focus on stories in which characters respond to a new often shifting religious landscape in both realistic and fantastic worlds

Music & Poetry in the Early Tudor Court John Stevens, 1961 While the music of the Elizabethans is widely known that of the early Tudors is still mostly unpublished Dr Stevens provides a scholarly study of this unaccountably neglected subject and gives the first full description of three song books which contain virtually all that remains of English secular song from 1480-1530 Beginning with a detailed description of the song books he goes on to discuss the relationship between music and poetry during the period before the Reformation This is followed by a description of the tradition of the courtly makers from Chaucer to Wyatt including an important section on the social manifestations of courtly love and he deals thoroughly with the role of the musician and the quality of musical life at the time This is a book which for the first time provides the relevant musical and social information on which a fresh assessment of the poetry of the early Tudors can be based Dr Stevens's conclusions lead him to question the prevailing view that there was an idealized union of poetry and

music in early Tudor England which led up to and culminated in the great Elizabethans The literary text of the songs in the three song books is given in an appendix together with a commentary a first line index of some 370 songs and a list of sources
