No Regrets in the Evening of Life Neville Buch, 2018-03-14 The type of local and school history before the reader may be unfamiliar It is a definitive and scholarly history in the style of many grammar school histories in Queensland Although it is not unknown for Australian public and private schooling it is unique for Queensland state schools By saying it is a

definitive and scholarly history what is meant is not that the history is complete only that it reaches decisive conclusions in a substantive treatment In this particular case the historian is someone who has been trained at the level of a higher degree

The Rise and Fall of Meter Meredith Martin, 2012 Why do we often teach English poetic meter by the Greek terms iamb and trochee How is our understanding of English meter influenced by the history of England's sense of itself in the nineteenth century Not an old fashioned approach to poetry but a dynamic contested and inherently nontraditional field English meter concerned issues of personal and national identity class education patriotism militarism and the development of English literature as a discipline The Rise and Fall of Meter tells the unknown story of English meter from the late eighteenth century until just after World War I Uncovering a vast and unexplored archive in the history of poetics Meredith Martin shows that the history of prosody is tied to the ways Victorian England argued about its national identity Gerard Manley Hopkins Coventry Patmore and Robert Bridges used meter to negotiate their relationship to England and the English language George Saintsbury Matthew Arnold and Henry Newbolt worried about the rise of one metrical model among

multiple competitors The pressure to conform to a stable model however produced reactionary misunderstandings of English meter and the culture it stood for This unstable relationship to poetic form influenced the prose and poems of Robert Graves Siegfried Sassoon Wilfred Owen W B Yeats Ezra Pound and Alice Meynell A significant intervention in literary history this book argues that our contemporary understanding of the rise of modernist poetic form was crucially bound to narratives of English national culture

Roll of Honour Barry Blades, 2015-10-30 The Great War was the first Total War a war in which human and material resources were pitched into a life and death struggle on a colossal scale British citizens fought on both the Battle Fronts and on the Home Front on the killing fields of France and Flanders as well as in the industrial workshops of Blighty Men women and children all played their part in an unprecedented mobilisation of a nation at war Unlike much of the traditional literature on the Great War with its understandable fascination with the terrible experiences of Tommy in the Trenches *Roll of Honour* shifts our gaze It focuses on how the Great War was experienced by other key participants namely those communities involved in schooling the nation's children It emphasises the need to examine the myriad faces of war rather than traditional stereotypes if we are to gain a deeper understanding of personal agency and decision making in times of conflict and upheaval The dramatis personae in *Roll of Honour* include Head Teachers and Governors charged by the Government with mobilising their troops school masters whose enlistment conscription or conscientious objection to military service changed lives and career paths the temporary school mistresses who sought to demonstrate their interchangeability in male dominated institutions the school alumni who thought of school whilst knee deep in mud and finally of course the school children themselves whose campaigns added vital resources to the war economy These myriad faces existed in all types of British school from the elite Public Schools to the elementary schools designed for the country's poorest waifs and strays This powerful account of the Great War will be of interest to general readers as well as historians of military campaigns education and British society

The Balkan Games and Balkan Politics in the Interwar Years 1929 - 1939 Penelope Kissoudi, 2013-10-18 The Balkan Games resulted on the one hand from the growth of modern European sport and the unsatisfactory performances of the Balkan athletes at national and international level and on the other hand from a desire to bring the Balkan peoples together in peace and concord The Games were initiated in Athens in 1929 and increasingly became an integral part of the political cultural and social life of the area The common global reality is that when an athletic event is staged attempted friendship seldom receives priority In the 1930s however the Balkan Games provided a rare example of an international athletic event bringing antagonistic states together in friendship This consideration of the significance of the Balkan Games as an instrument of political optimism provides clear evidence of the occasional positive influence of sport in politics The work is a case study of interest to political and social scientists and to historians of Europe and sport This book was previously published as a special issue of the *International Journal of the History of Sport*
