Korea and the “Others” Maurizio Riotto, 2024-08-19. This book intends to be a reaction to a remarkable paradox within Korean studies easily encountered even by non experts. While many Korean studies journals strongly encourage the submission of multicultural and transnational articles, in fact very few scholars in the world are able to receipt this message. The volume analyzes various episodes of confrontation both physical and cultural between the people of Korea and foreign counterparts i.e. the others in various historical moments. It was devised and born within the Humanities Korea Plus HK Project entitled *Collectio collatio connectio* which is sponsored by the National Research Foundation NRF of Korea and is currently underway at Anyang University in Anyang City Republic of Korea. This project aims to explore documents on relations and exchanges between East and West especially but not only in pre modern times and it aspires to serve as a turning point in the history of comparative and transnational studies on Korea. In doing so it also attempts to address deficiencies in existing scholarship especially with regard to comparisons between the Far East and Korea in particular and the cultures of the Near Middle East and the classic and medieval West. It follows that this volume has as its target a rather broad academic audience not limited merely to the field of Korean studies but ranging from the ancient Mediterranean to Japan passing through medieval and modern Europe.
