rich selection of innovative scholarship on the Etruscans a vibrant independent people whose distinct civilization flourished in central Italy for most of the first millennium BCE and whose artistic social and cultural traditions helped shape the ancient Mediterranean European and Classical worlds Includes contributions from an international cast of both established and emerging scholars Offers fresh perspectives on Etruscan art and culture including analysis of the most up to date research and archaeological discoveries Reassesses and evaluates traditional topics like architecture wall painting ceramics and sculpture as well as new ones such as textile archaeology while also addressing themes that have yet to be thoroughly investigated in the scholarship such as the obesus etruscus the function and use of jewelry at different life stages Greek and Roman topoi about the Etruscans the Etruscans reception of ponderation and more Counters the claim that the Etruscans were culturally inferior to the Greeks and Romans by emphasizing fields where the Etruscans were either technological or artistic pioneers and by reframing similarities in style and iconography as examples of Etruscan agency and reception rather than as a deficit of local creativity

Bender,1985      **Rome and Her Empire** Barry W. Cunliffe,1994 Far more than a history this brilliantly illustrated volume offers a reconstruction in human terms of the many facets of Rome s extraordinary legacy The Romans speak to us here through their splendid achievements and their tragic failures their monuments and their tastes to give us an understanding of the spirit behind these dramatic events From village to Empire for nearly a millennium Rome kept up a dizzying pace of change and expansion Stirring victories over Hannibal the Gauls the Britons alternated with peaceful intervals of cultural development under Augustus and Marcus Aurelius until the final days of chaos and decline Those thousand years take shape on the pages of Professor Cunliffe s beautiful book to give us a gradually unfolding vision of a people who once lived and of a resplendent world now in ruins Instead of a textbook he has virtually recreated Rome itself a world opening up maintaining its brief fragile balance and then collapsing The whole dynamic nature of the process is evoked here by the use of historical passages alternating with concise analytical views of daily life The rise and fall of a great empire Professor Cunliffe writes cannot fail to fascinate us for we can see in such a story something of our own time But of all the empires that have come or gone none has a more immediate appeal than the Empire of Rome It pervades our lives today The sheer vastness of the Empire was staggering At its height it extended across 2 600 miles east to west and 2 000 miles north to south But these figures mean little Even understood as reaching from the north of Britain to Africa and engulfing Spain Germany and lands as far as the Persian Gulf Rome does not come alive until captured as in this book through glimpses of shops and villas the voices of people the echoing theaters baths temples and slums And Professor Cunliffe provides them for the reader Along with the history of Rome s growth and dominion he has added a careful history of her changing political social and cultural institutions But above all the Romans themselves speak Cicero Seneca and Petronius seize the flavour of the Roman experience Marius Pompey and Caesar use the urban mob as a pawn in their power games Livy pieces together the city s origins from folklore Even the coins transmit news and instill piety ultimately becoming devices for propaganda Tombstones monuments bawdy and political graffiti and private letters miraculously preserved give us a wealth of human details the voices that gave life to Rome and her Empire A young soldier writes home to Egypt Dear mother I hope this finds you well When you get this letter I will be much obliged if you will send me some money On a wooden tablet from London written by a master to his servant in Rome I believe you know I am very well If you have made the list please send See that you turn the slave girl into cash Lucretius the Epicurean explains natural phenomena in terms of philosophical concepts Vitruvius lays down the rules of architecture the poets and playwrights all help enrich the fabric and our heightened understanding of Roman life In this handsome book such materials provide readers with the eloquent testament and indestructible evidence of a city that emerged from obscurity in 500 B C and directed the civilized world until the birth of Constantinople in 500 A D Featured among the volume s 1 000 illustrations of which half are in full color are superb photographs by former Life correspondent Brian Brake and by Leonard von Matt These stunning works are augmented by additional photographs
