**Ecocritical Perspectives on Children's Texts and Cultures** Nina Goga, Lykke Guanio-Uluru, Bjørg Oddrun Hallås, Aslaug Nyrnes, 2018-06-11 This volume presents key contributions to the study of ecocriticism in Nordic children's and YA literary and cultural texts in dialogue with international classics. It investigates the extent to which texts for children and young adults reflect current environmental concerns. The chapters are grouped into five thematic areas: Ethics and Aesthetics, Landscape, Vegetal, Animal, and Human, and together they explore Nordic representations and a Nordic conception or feeling of nature. The textual analyses are complemented with the lived experiences of outdoor learning practices in preschools and schools captured through children's own statements. The volume highlights the growing influence of posthumanist theory and the continuing traces of anthropocentric concerns within contemporary children's literature and culture and a non-dualistic understanding of nature-culture interaction is reflected in the conceptual tool of the volume: The Nature in Culture Matrix.

This book provides parents and professionals with sound advice on how to communicate effectively about difficult and sensitive topics, providing concrete strategies for helping adopted and foster children make sense of the past so they can enjoy a healthy well-adjusted future. Approximately one of every four adopted children will have adjustment challenges related to their separation from the birth family, earlier trauma, attachment difficulties, and/or issues stemming from the adoption process. Common complicating issues of adopted children are feelings of rejection, abandonment, or confusion about their origins. While many foster and adoptive parents and even many professionals are reluctant to communicate openly about birth histories, silence only adds to the child's confusion and pain. This revised and significantly expanded edition of the award-winning *Telling the Truth to Your Adopted or Foster Child* equips parents with the knowledge and tools they need to communicate with their adopted or foster child about their past. Revisions include coverage of significant new research and information regarding the importance of understanding the child's trauma history to his or her well-being and successful adjustment in his foster or adoptive family. The authors answer such questions as: How do I share difficult information about my child's adoption in a sensitive manner? When is the right time to tell my child the whole truth? How do I obtain more information on my child's history? Detailed descriptions of actual cases help the parent or caregiver find ways to discover the truth, particularly in closed and international adoption cases, organize the information, and explain the details of the past gently to a toddler child or young adult who may find it frightening or confusing. **Political Anxiety in Golden Age Children's Classics and Their Contemporary Adaptations** Jasmin Sültemeyer, 2021-07-05 As striking, counter-intuitive, and distasteful as the combination

of children and anxiety may seem some of the most popular children's classics abound in depictions of traumatic relationships bloody wars and helpless heroes This book draws on Freudian and Lacanian anxiety models to investigate the psychological and political significance of this curious juxtaposition as it stands out in Golden Age novels from both sides of the Atlantic and their present day adaptations The stories discussed in detail so the argument goes identify specific anxieties and forms of anxiety management as integral elements of hegemonial middle class identity Apart from its audacious link between psychoanalysis and Marxist feminist as well as postcolonial ideology criticism this study provides a nuanced analysis of the ways in which allegedly trivial texts negotiate questions of individual and trans national identities In doing so it offers a fresh look at beloved tales like Alice's Adventures in Wonderland The Wizard of Oz and Peter Pan contributes to the dynamic field of adaptation studies and highlights the necessity to approach children's entertainment more seriously and more sensitively than it is generally the case
