Fell has contributed a general introduction that places Miller's thought in context and exhibits the contemporary relevance of his philosophy

What We Owe to Nonhuman Animals Gary Steiner, 2023-09-27 This book strongly challenges the Western philosophical tradition's assertion that humans are superior to nonhuman animals It makes a case for the full and direct moral status of nonhuman animals The book provides the basis for a radical critique of the entire trajectory of animal studies over the past fifteen years The key idea explored is that of felt kinship a sense of shared fate with and obligations to all sentient life It will help to inspire some deep rethinking on the part of leading exponents of animal studies The book's strong outlook is expressed through an appeal for radical humility on the side of humans rather than a constant reference to the human-animal divide Historical figures examined in depth include Aristotle Seneca and Kant contemporary figures examined include Christine Korsgaard and Martha Nussbaum This book presents an account according to which the tradition has not proceeded on the basis of impartial motivations at all but instead has made a set of pointedly self-serving assumptions about the proper criteria for assessing moral worth Readers of this book will gain exposure to a wide variety of thinkers in the Western philosophical tradition historical as well as contemporary This book is suitable for professionals working in nonhuman animal studies students advanced undergraduates and practitioners working in the fields of philosophy environmental studies law literature anthropology and related fields

Commonplace Commitments Peter S. Fosl, Michael J. McGandy, Mark D. Moorman, 2016-09-30 Joseph P. Fell proposes that the solution to the problem of nihilism is found in the common experience of persons and the everyday commitments that one makes to people practices and institutions In his landmark 1979 book Heidegger and Sartre and in his subsequent essays Fell describes a quiet but radical reform in the philosophical tradition that speaks to perennial dilemmas of thought and pressing issues for action Since Descartes at least we have been puzzled as to what we can know how we should act and what we should value The skeptical influence of modern dualism distilled in the mind body problem at arose with the assertion I think therefore I am has shot through not just philosophy and psychology but also society politics and culture With dualism arose radical subjectivism and the concomitant problems of nihilism and alienation The broad aim of phenomenology is to repair the rupture of self and world Announced by Edmund Husserl and developed by Jean Paul Sartre Martin Heidegger and John William Miller who drew from the North American tradition this is the project to which Fell has devoted more than a half century of reflection and technical elaboration In this volume an array of scholars consider criticize and cultivate Fell s key contributions to the phenomenological project Ranging from analyses of key texts in Fell s phenomenology to probing examinations of his crucial philosophical presuppositions to the prospects for Fell s call to find the solution to nihilism in everyday experience these essays gather the work of the authors thinking with and through Fell s key works on Sartre Heidegger and Miller Also included are seminal statements from Fell on his pedagogical practice and his conception of philosophy

Thinking with Whitehead and the American Pragmatists Brian G. Henning, William T. Myers, Joseph D. John, 2015-04-16 Despite there being deep lines of convergence between the philosophies of Alfred North Whitehead C S Peirce William James John Dewey and other classical American philosophers it remains an open question whether Whitehead is a pragmatist and conversation between pragmatists and Whitehead scholars have been limited Indeed it is difficult to find an anthology of classical American philosophy that includes Whitehead s writings These camps began separately and so they remain This volume questions the wisdom of that separation exploring their connections both

historical and in application The essays in this volume embody original and creative work by leading scholars that not only furthers the understanding of American philosophy but seeks to advance it by working at the intersection of experience and reality to incite novel and creative thought This exploration is long overdue Specific questions that are addressed are Is Whitehead a pragmatist What contrasts and affinities exist between American pragmatism and Whitehead's thought What new questions strategies and critiques emerge by juxtaposing their distinct perspectives

Work and Community in the Thessalonian Correspondence Gift Mtukwa, 2021-08-31. In this important study Dr Gift Mtukwa investigates the relationship between work and community in Paul's letters to the Thessalonians. Utilizing an African biblical hermeneutic he provides a theology of work that takes seriously the communal nature of Paul's context and its parallels with a traditional African worldview. He combines cultural and historical insight with biblical analysis to demonstrate that work has a critical role to play in community formation. It is neither a burden nor an individual pursuit but a purposeful communal activity done to benefit self and neighbor. This fresh look at Paul's work exhortations from a contextualized African perspective offers a powerful reminder that work like all human endeavors should have the glory of God and love of others as its goal.

Philosophy as a Literary Art Costica Bradatan, 2016-04-14. Despite philosophers' growing interest in the relation between philosophy and literature in general, over the last few decades comparatively few studies have been published dealing more narrowly with the literary aspects of philosophical texts. The relationship between philosophy and literature is too often taken to be literature as philosophy and very rarely philosophy as literature. It is the dissatisfaction with this one-sidedness that lies at the heart of the present volume. Philosophy has nothing to lose by engaging in a serious process of literary self-analysis. On the contrary, such an exercise would most likely make it stronger, more sophisticated, more playful and especially more self-reflexive. By not moving in this direction, philosophy places itself in the position of not following what has been deemed since Socrates at least the worthiest of all philosophical ideals: self-knowledge. This book was originally published as a special issue of *The European Legacy*.

The Clarity of Scripture James Callahan, 2020-08-31. IS SCRIPTURE CLEAR IF IT IS WHY DO PORTIONS OF IT SEEM SO OBSCURE IF IT ISN'T WHY HAVE THEOLOGIAN'S SPENT SO MUCH TIME DEFENDING THE NOTION OF ITS CLARITY AND MORE IMPORTANT ARE CHRISTIANS ENGAGED IN A FUTILE EFFORT IN TRYING TO READ AND UNDERSTAND IT? JAMES CALLAHAN OFFERS VALUABLE INSIGHT INTO THE COMPLEX NOTION of biblical perspicuity. He sets the issues within the history of the church and traces how the Bible's clarity has been understood practically and theologically over time. With precision and care he clarifies the role of historical context, authorial intent and reader response in a constructive articulation of how we come to understand Scripture's meaning. Contemporary literary studies inform his discussion and

suggest the importance of intertextuality and intratextuality in the reading of Scripture Ultimately Callahan argues Scripture must be viewed as a privileged text within a privileged community Nevertheless it must be read not arrogantly but with humility under the searching glance of the God who caused it to be written The Quest for Community and Identity Robert E. Birt, 2002 This collection of essays engages two of the most fundamental social and political issues of our time community and identity Wrestling with the perplexities of these two issues within the Africana world the contributors delve into the influences of a postmodern world of globalization with outdated crumbling forms of identity and sociality In the wake of such an order new forms of identity and community must be established Birt has collected an informed group of contributors here who lay the foundation for a new approach to finding community and identity in the Africana world **The Philosopher's Index**, 2007 Vols for 1969 include a section of abstracts *Critical Psychology* Dennis R.
