Sarah Peterson,1994 Peterson explores a change in French cooking in the mid seventeenth century from the heavily sugared saffroned and spiced cuisine of the medieval period to a new style based on salt and acid tastes In the process she reveals more fully than any previous writer the links between medieval cooking alchemy and astrology Peterson's vivid account traces this newly acquired taste in food to its roots in the wider transformation of seventeenth century culture which

included the Scientific Revolution. She makes the startling and persuasive argument that the shift in cooking styles was actually part of a conscious effort by humanist scholars to revive Greek and Roman learning and to chase the occult from European life.

A Little Taste of France Maria Villegas, Kay Halsey, Sarah Randell, 2003. The Little Taste of series encapsulates the flavours of the world's most exciting cuisines and explores the colourful settings in which food is sourced, cooked and enjoyed. Exceptional food with beautiful photographs.

Accounting for Taste Priscilla Parkhurst Ferguson, 2006-08-01. French cuisine is such a staple in our understanding of fine food that we forget the accidents of history that led to its creation. *Accounting for Taste* brings these accidents to the surface, illuminating the magic of French cuisine and the mystery behind its historical development. Priscilla Parkhurst Ferguson explains how the food of France became French cuisine. This momentous culinary journey begins with Ancien Régime cookbooks and ends with twenty-first century cooking programs. It takes us from Carême, the inventor of modern French cuisine in the early nineteenth century, to top chefs today such as Daniel Boulud and Jacques Pépin. Not a history of French cuisine, *Accounting for Taste* focuses on the people, places and institutions that have made this cuisine what it is today: a privileged vehicle for national identity, a model of cultural ascendancy and a pivotal site where practice and performance intersect. With sources as various as the novels of Balzac and Proust, interviews with contemporary chefs such as David Bouley and Charlie Trotter, and the film *Babette's Feast*, Ferguson maps the cultural field that structures culinary affairs in France and then exports its crucial ingredients. What's more, well beyond food, the intricate connections between cuisine and country, between local practice and national identity, illuminate the concept of culture itself. To Brillat-Savarin's famous dictum, "Animals fill themselves, people eat intelligently," people alone know how to eat. Priscilla Ferguson adds, and *Accounting for Taste* shows how the truly intelligent also know why they eat the way they do. Parkhurst Ferguson has her nose in the right place and an infectious lust for her subject that makes this trawl through the history and cultural significance of French food, from French Revolution to *Babette's Feast*, via Balzac's suppers and Proust's madeleines, a satisfying meal of varied courses.
