The Farm Labor Movement In The Midwest Social Change And Adaptation Among Migrant Farmworkers:

The Farm Labor Movement in the Midwest W. K. Barger, Ernesto M. Reza, 2010-07-22 The Farm Labor Organizing Committee FLOC was founded by Baldemar Velazquez in 1967 to challenge the poverty and powerlessness that confronted migrant farmworkers in the Midwest This study documents FLOC's development through its first quarter century and analyzes its effectiveness as a social reform movement Barger and Reza describe FLOC's founding as a sister organization of the United Farm Workers UFW They devote particular attention to FLOC's eight year struggle 1978-1986 with the Campbell Soup company that led to three way contracts for improved working conditions between FLOC Campbell Soup and Campbell's tomato and cucumber growers in Ohio and Michigan This contract significantly changed the structure of agribusiness and instituted key reforms in American farm labor The authors also address the processes of social change involved in FLOC actions Their findings are based on extensive research among farmworkers growers and representatives of agribusiness as well as personal involvement with FLOC leaders and supporters

A New American Labor Movement William E. Scheuerman, 2021-10-01 The American labor movement isn't dead It's just moving from the bargaining table to the streets In *A New American Labor Movement* William Scheuerman analyzes how the decline of unions and the emergence of these new direct action movements are reshaping the American labor movement Tens of thousands of exploited workers from farm laborers and gig drivers to freelance artists and restaurant workers have taken to the streets in a collective attempt to attain a living wage and decent working conditions with or without the help of unions This new worker militancy expressed through mass demonstrations strikes sit ins political action and similar activities has already achieved much success and offers models for workers to exercise their power in the twenty first century Finally Scheuerman notes many of the strategies of the new direct action groups share features with the sectoral bargaining model that dominates the European labor movement suggesting that sectoral bargaining may become the foundation of a new American labor movement

Farm Workers and the Churches Alan J. Watt, 2010-02-23 In the mid 1960s the charismatic Cesar Chavez led members of California's La Causa movement in boycotting the grape harvest and melon pickers in South Texas called a strike against growers contesting unfair labor and wage practices in both states In *Farm Workers and the Churches* Alan J Watt shows how the religious and social contexts of the farm workers their leaders and the larger society helped or hindered these two pivotal actions Watt explores the ways in

which liberal expressions of Northern Protestantism transplanted to California and combined with the pro labor wing of the Catholic Church and the heritage of Mexican popular piety provided a fertile field for the growth of broad support for Chavez and his organizing efforts Eventually La Causa was able to achieve collective bargaining victories including a historic labor contract between California agribusiness and farm workers The movement did not fare as well in Texas where the combination of a locally weak union leadership a more conservative Southern Protestant ethos and the strikebreaking measures of the Texas Rangers all boded ill However a general Chicano movement ultimately took permanent root in the state because of the workers struggle Watt offers a careful examination of the complex interactions among religious traditions social heritage and ethnicity as these factors affected the course and outcomes of these two pioneering campaigns undertaken by La Causa
