essentially all aspects of oxygen transport within the body were covered as demonstrated by the manuscripts comprising this volume of the series Oxygen Transport to Tissue All manuscripts were reviewed Extensive revisions were made in about 25% and modest revision in about another 30% Because we had to compromise between the aim of rapid publication on the one hand and the need for thorough review on the other minor errors in format and some typographical errors were not corrected Except for some revisions all of the original camera ready manuscripts in this volume were prepared by the authors themselves and we greatly appreciate their cooperation
