Angus McLean (Police officer), 2015 **Game Time** Christopher Hanson, 2018-03-08 Pausing slowing rewinding replaying reactivating reanimating Has manipulating video game timelines altered our experience of time Compelling Choice Video game scholar Christopher Hanson argues that the mechanics of time in digital games have presented a new model for understanding time in contemporary culture a concept he calls game time Multivalent in nature game time is characterized by apparent malleability navigability and possibility while simultaneously being highly restrictive and requiring replay and repetition When compared to analog tabletop games sports film television and other forms of media Hanson demonstrates

the temporal structures of digital games provide unique opportunities to engage players with liveness causality potentiality and lived experience that create new ways of experiencing time Features comparative analysis of key video games titles including Braid Quantum Break Battle of the Bulge Prince of Persia The Sands of Time Passage The Legend of Zelda The Ocarina of Time Lifeline and A Dark Room The text is well researched and the introduction is an excellent focused overview of video game studies Choice Smoke and Mirrors Norma Marie,2021-02-22 NatalieWhen my supposedly perfect life falls apart I turn to my best friend Lucas and relocate to BoothBay Harbor with my sole reason to push on my daughter Savannah Being around Lucas again makes the voices that tell me I m not good enough fall quiet But just as I start to heal my past and his present threaten to tear us apart LucasIn high school Natalie was my best friend and my secret crush With her back in my life she s reawakening feelings I thought were long gone When things start spiraling it takes all I have to prove to her that I won t walk away again The further I fall the more she pulls away I want it all but she has to want it too Can I be enough to show her that this is real or is she living in a past filled with nothing but smoke and mirrors Mad as Hell Dominic Sandbrook,2012-02-14 I m mad as hell and I m not going to take it anymore The words of Howard Beale the fictional anchorman in 1976 s hit film Network struck a chord with a generation of Americans In this colourful new history Dominic Sandbrook ranges seamlessly over the political economic and cultural high and low points of American life in the 1970s exploring the roots of the fears resentments cravings and disappointments we know so well today From Richard Nixon and Ronald Reagan to Anita Bryant and Jerry Falwell he shows how the 1970s saw the emergence of a new right wing populism setting the stage for the bitter partisanship and near total cynicism of our modern political landscape *Lies* Rachelle M. Smith,2022-01-11 This encyclopedia examines the phenomenon of deception from a variety of perspectives and in a multitude of contexts It offers readers an accessibly written and engaging resource that sheds light on when why and how we lie Ironically it seems to be a universal truth that everyone lies From innocent white lies to elaborate deceptions humans appear to be hard wired for dishonesty But what psychological or evolutionary purpose does lying serve What motivates us to lie and what effects do such lies have on those around us and on our own physiology and mental health What are the differences between types of lies and how do various forms of dishonesty manifest themselves in such areas as politics advertising and social media And perhaps most importantly how can we spot liars in our everyday lives and encourage those around us and even ourselves to be more honest Lies The Science behind Deception provides a broad and multifaceted introduction to this fascinating topic More than 175 entries address the many forms of lying the purpose and development of such behaviors and their consequences It also includes practical sidebars that help readers to deal with lying and liars in their own lives

Crimes That Changed Our World Paul H. Robinson,Sarah M. Robinson,2018-06-15 Can crime make our world safer Crimes are the worst of humanity s wrongs but oddly they sometimes trigger improvement in our lives Crimes That Changed Our World explores some of the most important trigger cases of the past century revealing much about how change comes to

our modern world The exact nature of the crime outrage reform dynamic can take many forms and Paul and Sarah Robinson explore those differences in the cases they present Each case is in some ways unique but there are repeating patterns that can offer important insights about what produces change and how in the future we might best manage it Sometimes reform comes as a society wrestles with a new and intolerable problem Sometimes it comes because an old problem from which we have long suffered suddenly has an apparent solution provided by technology or some other social or economic advance Or sometimes the engine of reform kicks into gear simply because we decide as a society that we are no longer willing to tolerate a long standing problem and are now willing to do something about it As the amazing and often touching stories that the Robinsons present make clear the path of progress is not just a long series of course corrections sometimes it is a quick turn or an unexpected lurch In a flash we can suddenly feel different about present circumstances seeing a need for change and can often just as suddenly do something about it Every trigger crime that appears in Crimes That Changed Our World highlights a societal problem that America has chosen to deal with each in a unique way But what these extraordinary and sometime unexpected cases have in common is that all of them describe crimes that changed our world Presidential Campaigns Paul F. Boller Jr.,2004-07-22 Were presidential campaigns always as bitter as they have been in recent years Or is the current style of campaigning a new political development In this revised and updated edition of Presidential Campaigns the answers to these questions are clear the race for the presidency although at times mean and nasty has always been an endlessly entertaining and highly charged spectacle for the American public This book unveils the whole history of American presidential elections from the seamless ascent of General George Washington to the bitterly contested election of George W Bush bringing these boisterous contests to life in all their richness and complexity In the old days Boller shows campaigns were much rowdier than they are today Back in the nineteenth century the invective at election time was exuberant and the mudslinging unrestrained a candidate might be called everything from a carbuncle faced old drunkard to a howling atheist But there was plenty of fun and games too with songs and slogans speeches and parades all livening up the scene in order to get people to the polls Presidential Campaigns takes note of the serious side of elections even as it documents the frenzy frolic and the sleaze Each chapter contains a brief essay describing an election and presenting campaign highlights that bring to life the quadrennial confrontation in all its shame and glory With a postscript analyzing the major changes in the ways Americans have chosen their Presidents from Washington s time to the present Presidential Campaigns gives the reader a full picture of this somewhat flawed procedure For all of its shortcomings though this great American shindig is an essential part of the American democratic system and for better or for worse tells us much about ourselves **Idioms in the News - 1,000 Phrases, Real Examples , Becoming a Counselor** Samuel T. Gladding,2021-05-05 This book contains 156 heartwarming vignettes that touch on the many universal dimensions in becoming a helping professional while demystifying and humanizing the process Readers get a firsthand look at Dr Gladding s successes and setbacks from
