Taming The Tiger The Struggle To Control Technology:

Taming the Tiger Witold Rybczynski,1985 Examines how and why individuals and entire nations have throughout history resisted technological innovations *ThirdWay* ,1985-11 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture *Cyborgs in Latin America* J. Brown,2010-08-18 A PDF version of this book is available for free in open access via the OAPEN Library platform www.oapen.org *Cyborgs in Latin America* explores the ways cultural expression in Latin America has grappled with the changing relationships between technology and human identity *Perspectives and Implications for the Development of Information Infrastructures* Constantinides, Panos,2012-05-31 In the same way that infrastructures such as transportation electricity sewage and water supply are widely assumed to be integrators of urban spaces information infrastructures are assumed to be integrators of information spaces With the advent of Web 2.0 and new types of information infrastructures such as online social networks and smart mobile platforms a more in depth understanding of the various rights to access use develop and modify information infrastructure resources is necessary *Perspectives and Implications for the Development of Information Infrastructures* aims at addressing this need by offering a fresh new perspective on information infrastructure development It achieves this by drawing on and adapting theory that was initially developed to study natural resource commons arrangements such as inshore fisheries forests irrigation systems and pastures while placing great emphasis on the complex problems and social dilemmas that often arise in the negotiations **The Fourth Wave** Herman Maynard,Susan E. Mehrtens,1996-08-31 Applying the concept of historical waves originally propounded by Alvin Toffler in *The Third Wave* Herman Maynard and Susan Mehrtens look toward the next century and foresee a fourth wave an era of integration and responsibility far beyond Toffler's revolutionary description of third wave postindustrial society Whether we attain this stage of global well being however will depend on how well our business institutions adapt and change *The Fourth Wave* examines the ways business has changed in the second and third waves and must continue to change in the fourth The changes concern the basics how an institution is organized how it defines wealth how it relates to surrounding communities how it responds to environmental needs and how it takes part in the political process Maynard and Mehrtens foresee a radically different future in which business principles concern for the environment personal integrity and spiritual values are integrated The authors also demonstrate the need for a new kind of leadership managers and CEOs who embrace an attitude of global stewardship who define their assets as ideas information creativity and vision and who strive for seamless boundaries between work and private lives for all employees *ThirdWay* ,1986-01 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture **Managerial Competence Within the Hospitality and Tourism Service Industries** John Saeed,2006-09-27 Focusing particularly on the hospitality and tourism industry this book examines the topical issue of cross cultural managerial competence across all managerial functions the

book balances theory and practical application **The Derrick Jensen Reader** Derrick Jensen, 2012-07-03 In an age marked by seemingly unstoppable environmental collapse and the urgent quest for solutions environmental philosopher Derrick Jensen the voice of the growing deep ecology movement reveals for us new seeds of hope Here for the first time in The Derrick Jensen Reader are collected generous selections from his prescient unflinching books on the problem of civilization and the path to true resistance In the acclaimed A Language Older Than Words Jensen dissects his own abusive childhood to examine the pathology of Western culture and shares with us the power and beauty of an alliance with the natural world He continues to use the lens of his own experience as well as the wisdom of philosophers activists and teachers to expose oppression and call us to action in his other early works Listening to the Land A Culture of Make Believe Strangely Like War and Walking on Water We see his analysis deepen when he asks us to accept that the only moral response to biocide is resistance in the two volume Endgame a truth he explores further in Thought to Exist in the Wild What We Leave Behind the graphic novel As The World Burns and in his two novels Songs of the Dead and Lives Less Valuable And in Dreams Jensen s latest work he leads us still further toward his vision for a healed planet freeing us to see beyond the limits of our present culture to a future luminous with meaning Counterculture Green Andrew G. Kirk, 2007-11-19 For those who eagerly awaited its periodic appearance it was more than a publication it was a way of life The Whole Earth Catalog billed itself as Access to Tools and it grew from a Bay Area blip to a national phenomenon catering to hippies do it yourselves and anyone interested in self sufficiency independent of mainstream America In recovering the history of the Catalog s unique brand of environmentalism Andrew Kirk recounts how San Francisco s Stewart Brand and his counterculture cohorts in the Point Foundation promoted a philosophy of pragmatic environmentalism that celebrated technological achievement human ingenuity and sustainable living By piecing together the social cultural material environmental and technological history of that philosophy s incarnation in the Catalog Kirk reveals the driving forces behind it tells the story of the appropriate technology movement it espoused and assesses its fate This book takes a fresh look at the many individuals and organizations who worked in the 1950s 1960s and 1970s to construct this philosophy of pragmatic environmentalism At a time when many of these ideas were seen as heretical to a predominantly wilderness based movement Whole Earth became a critical forum for environmental alternatives and a model for how complicated ecological ideas could be presented in a hopeful and even humorous way It also enabled later environmental advocates like Al Gore to explain our current inconvenient truth and the actions of Brand s Point Foundation demonstrated that the epistemology of Whole Earth could be put into action in meaningful ways that might foster an environmental optimism distinctly different from the jeremiads that became the stock in trade of American environmentalism Kirk shows us that Whole Earth was more than a mere counterculture fad In an era of political protest it suggested that staying home and modifying your toilet or installing a solar collector could make a more significant contribution than taking to the streets to shout down establishment misdeeds Given

its visible legacy in the current views of Al Gore and others the subtle environmental heresies of Whole Earth continue to resonate today which makes Kirk's lucid and lively tale an extremely timely one as well

Managing Records as Evidence and Information Richard J. Cox, 2000-12-30 For the past three decades policies regarding a variety of information issues have emanated from federal agencies legislative chambers and corporate boardrooms Despite the focus on information policy it is still a relatively new concept and one only now beginning to be studied The subject area is wider than believed archives and records policies information resources management information technology telecommunications international communications privacy and confidentiality computer regulation and crime intellectual property and information systems and dissemination This is not a compendium of policies to be used but rather an exploration in a more detailed fashion of the fundamental principles supporting the setting of records policies Records policies are critically important for records professionals to develop and use as a means of strategically managing the information and evidence found in the millions of records created daily provided that the policies are based on comprehensible principles This is a series of discourses on the fundamentals of archives and records management needing to be understood before any organization attempts to define and set any policy affecting records and information The chapters concern defining records how information technology plays into policy compiling the fundamental tasks of identifying and maintaining records as critical to records and information policy public outreach and advocacy as a key objective for such policy and the role of educating records professionals in supporting sensible records policies

Charged Bodies Thomas Mahon, 2024-03-21 At the heart of Silicon Valley's meteoric rise is a story etched in the lives of those who shaped it and those who were forever transformed by it Author Tom Mahon provides an insider's perspective on the birth of the semiconductor industry which sparked the region's transformation from sleepy farmland to the heart and soul of the high tech revolution Through twenty five extended in person interviews you'll meet a diverse cast of characters whose goal was to create technology and tools in service to humanity In the Afterword to this edition the author questions whether they accomplished their objectives and urges readers to rise up and rethink technology What did it take to create the atmosphere that transformed rich farmland into the wealthy center of high tech Five climates lined up in just the right way Educational institutions Stanford and Berkeley an attractive location with balmy Mediterranean like weather a history of technology development Federal Telegraph in the early twentieth century financial risk taking the gold rush and a cultural climate near the center of an ideological revolution the hippie movement The Santa Clara Valley had them all In spades Before personal computers or the Internet or social media came chips Inventive minds took advantage of the quad electron structure and unique properties insulative and conductive of silicon to create semiconductors But Charged Bodies is more than just the story of new technologies emerging from The Valley of the Heart's Delight Using an approach like The Canterbury Tales Tom Mahon captures the spirit of Silicon Valley in the 80s through the stories of the people all around him The inventors and bankers have their say But so do a range of other people

who lived through that transition Listen as artists and hackers detectives and journalists lawyers and scientists flappers and philosophers tell the story of Silicon Valley in their own words *The Causes of Structural Unemployment* Thomas Janoski, David Luke, Christopher Oliver, 2014-06-27 There is a specter haunting advanced industrial countries structural unemployment Recent years have seen growing concern over declining jobs and though corporate profits have picked up after the Great Recession of 2008 jobs have not It is possible that jobless recoveries could become a permanent feature of Western economies This illuminating book focuses on the employment futures of advanced industrial countries providing readers with the sociological imagination to appreciate the bigger picture of where workers fit in the new international division of labor The authors piece together a puzzle that reveals deep structural forces underlying unemployment skills mismatches caused by a shift from manufacturing to service jobs increased offshoring in search of lower wages the rise of advanced communication and automated technologies and the growing financialization of the global economy that aggravates all of these factors Weaving together varied literatures and data the authors also consider what actions and policy initiatives societies might take to alleviate these threats Addressing a problem that should be front and center for political economists and policymakers this book will be illuminating reading for students of the sociology of work labor studies inequality and economic sociology *The Social and Interactional Dimensions of Human-Computer Interfaces* Peter J. Thomas, 1995-05-26 This volume analyzes the social implications of computer interfaces *Understanding the Visual* Tony Schirato, Jen Webb, 2004-10-13 In a world preoccupied with the visual it has become essential to understand the dynamics of images and interpret them This volume shows the reader how to analyse the structure conventions contexts and uses of the visual in Western cultures *Sunnyvale* Jeff Goodell, 2009-12-23 In Sunnyvale California in 1979 Jeff Goodell s family lived quietly on Meadowlark Lane unaware that their town was soon to become ground zero in the digital revolution Over the course of the next decade as Silicon Valley boomed the Goodell family unraveled Splintered by their parent s divorce Jeff and his siblings careen toward self destruction while their parents end up on opposite sides of the technological divide their mother succeeds beyond her wildest dreams at a small company with a dopey rainbow colored logo called Apple while their father refuses to keep up with the times and loses his landscaping business Affecting and personal Sunnyvale is a portrait of one family s fate in a brutally Darwinian world It is also a thoughtful examination of what has happened to the American family in the face of the technological revolution *Electronic Media Criticism* Peter B. Orlik, 2001 Given the prominence of the electronic media in the 21st century it is crucial that both media professionals and consumers know how to decipher and evaluate media content the assumptions on which that content is based and the constraints to which it is subject Electronic Media Criticism offers a variety of critical approaches to audio and video discourse Rather than restricting itself to one perspective the book applies key aesthetic sociological philosophical psychological structural and economic principles to arrive at a comprehensive evaluation of both programming and advertising content Maintaining the approach of the original

volume this second edition includes updated chapters to reflect the current media world including sample reviews and illustrations material pertaining to new media because the book is process oriented rather than medium oriented Internet referents are interspersed in discussion of the various critical perspectives two additional scripts for critical analysis an episode of The Simpsons and an installment of the dark Canadian comedy The Newsroom and new exercises for further practice in applying critical procedures Orlik interweaves the insights of industry and academic authorities recognizing that both orientations are essential in the development of a valid and viable critical outlook Written for media students and practitioners all readers of this volume will gain feasible and flexible tools for focused and rational analysis of electronic media products as well as improved understanding of the role and essential ingredients of criticism itself

The Shape of Craft Ezra Shales, 2017-10-15 Today when we hear the word craft a whole host of things come immediately to mind microbreweries artisanal cheeses and an array of handmade objects Craft has become so overused that it can grate on our ears as pretentious and strain our credulity But its overuse also reveals just how compelling craft has become in modern life In The Shape of Craft Ezra Shales explores some of the key questions of craft who makes it what do we mean when we think about a crafted object where and when crafted objects are made and what this all means to our understanding of craft He argues that beyond the clichés craft still adds texture to sterile modern homes and it provides many people with a livelihood not just a hobby Along the way Shales upends our definition of what is handcrafted or authentic revealing the contradictions in our expectations of craft Craft is and isn't what we think

Getting Better Bryan Green, 2018-01-16 Ever since the fifties when television became ascendent in American popular culture it has become commonplace to bemoan its bad effects Little or nothing however has been said about its good effects With this observation Henry Perkinson introduces his provocative and original analysis of television and culture Rejecting the determinism inherent in most studies of the effects of television We are what we watch he insists that it is people that actively change culture media having no agency to do so Nevertheless he argues that television did facilitate the changes we have made in our culture over the past thirty years Perkinson describes how television helped us become critical of our existing culture especially of the relationships that were commonly accepted between men and women blacks and whites politicians and voters employers and employees and between people and the environment These criticisms have brought about dramatic changes in our social political and economic arrangements as well as changes in our intellectual outlook Since these changes came about through our efforts to eliminate or reduce discrimination suffering and injustice Perkinson argues that our culture has become more moral in the age of television In what amounts to a history of recent social change in America Getting Better examines the role television has played in the rise of feminism the black protest movement the presidential elections the Vietnam War Watergate environmentalism religious fundamentalism and the New Age movement This book will be essential reading for students of communications and American culture and for anyone who wants to make

sense of the transformations of American life from the 1950s to the present Even those who do not agree that things are getting better will find that Perkinson s analysis helps to make things more coherent Managerial Competence within the Hospitality and Tourism Service Industries John Saeed, 2006-09-27 This book examines cross cultural managerial competence across all managerial functions Focusing particularly on the hospitality and tourism industry editor Saeed examines the cross cultural implications of planning workplace communication recruitment promotion induction training supervision industrial relations management of change customer service financial management and marketing Incorporating well structured discussion this book demonstrates an excellent balance of theory and practical application and takes an innovative angle on the analysis of the host countries managers undergoing culture shock This volume will be useful to students across many disciplines including cross cultural studies international business and tourism
