The Tao of Montessori Catherine McTamaney Ed.D.,2007-02-09 If like some you regret that Montessori too rarely in her writings appreciated the humanity of teachers their creativity their curiosity their doubts this book stands as the perfect complement Jola Montessori com Evocative and unique The Tao of Montessori offers a quiet balance to the noisy demands of teaching and parenting through a special blend of encouraging verse Award winning Montessori teacher Catherine McTamaney revisits the eighty one verses of Lao tzu s Tao Te Ching and relates them to the life and work of teachers parents and children Originally meant to remind rather than direct and to show the way toward natural harmony in the world around and within us Lao tzu s verses find a new meaning through McTamaney s skillful mixture of spirituality and education Take a moment to read a single stanza then put it aside and muse upon its meaning By revisiting one verse each day you can relate its images to your life as a teacher parent or child Whether you are familiar with the writings of Lao tzu or are simply ready to explore a refreshingly contemplative perspective on children and teachers The Tao of Montessori is a profound work of intellectual stimulation

spiritually mentally emotionally and physically In the book Daaji explains the importance of the core tenets of parenting and instilling children with wisdom that guides them as they grow up Based on research conversations with psychologists and educators and learnings as grandparents and parents the book will help channel the energies away from anxiety to appreciation towards the children It will give a new understanding of how to tap into parents wisdom and raise happy and resilient families      *Teaching Children* Ann El-Moslimany,2018-01-01 The author explores education from the essential principles of Tawhid Oneness of God humanity knowledge fitrah concept of human nature and the role of humans as vicegerents of God on earth responsibility and stewardship The current education system dates back a hundred years or more and is in desperate need of a reboot In developing the industrialized society the education system itself became like a factory the end product being pupils who merely regurgitate facts and themselves end up as cogs in the machine that is the wider industrial complex The legacy of this is a soulless functional educational system that fails to develop pupils to meet the present and future needs of individuals and their expectations This failure inevitably impacts on society and humanity at large Society has long since moved beyond the industrial revolution and into an age of global connectedness where the sum of human knowledge is freely available via the internet It is an age where people are generally more well informed and on a variety of issues An effective holistic educational philosophy is required one that gives full spiritual meaning to all that a child learns It should equip children with spiritual awareness morals and values social responsibility and accountability self discipline and self determination self confidence and empowerment ambition and aspiration tempered with thoughtfulness and a sense of gratitude      *The Catalyst* ,      Constructivism and Teachers in Chinese Culture Zitong Wei,2019-01-11 This book provides a refreshing look at kindergarten teachers practical knowledge and their context specific reasoning of the usefulness of constructivism from a culturally emic perspective Examining the similarities and differences between constructivism and Confucianism from both instructional and moral perspectives it provides a unique contribution to teaching and teacher education An understanding of the compatibility between constructivism and Confucianism is valuable in cross cultural exchange and learning and as such the book is a great source for educational researchers in a time of globalization      **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954** United States.
