KARL BUTZER, EDITOR,1992 **Method and Theory for Investigating the Peopling of the Americas** Robson Bonnicksen,D. Gentry Steele,1994 The first of four volumes to come out of the first World Summit Conference on the peopling of the Americas this includes sections on methods geoarchaeology biological approaches linguistic approaches and material culture **Zooarchaeology** Elizabeth J. Reitz,Elizabeth S. Wing,1999-02-04 Zooarchaeology is a detailed reference manual for students and professional archaeologists interested in identifying and analysing animal remains from archaeological sites Drawing on material from all over the world and covering a time span from the Pleistocene to the nineteenth century AD the emphasis is on animals whose remains inform us about many aspects of the relationships between humans and their natural and social environments especially site formation processes subsistence strategies and paleoenvironments The authors discuss suitable methods and theories for all vertebrate classes and molluscs and include hypothetical examples to demonstrate these There are extensive references and illustrations to help in the process of identification *Clovis* Robson Bonnicksen,Karen L. Turnmire,1991 *Clovis Lithic Technology* Michael R. Waters,Charlotte D. Pevny,David L. Carlson,Thomas A. Jennings,2011-10-12 Some 13 000 years ago humans were drawn repeatedly to a small valley in what is now Central Texas near the banks of Buttermilk Creek These early hunter gatherers camped collected stone and shaped it into a variety of tools they needed to hunt game process food and subsist in the Texas wilderness Their toolkit included bifaces blades and deadly spear points Where they worked they left thousands of pieces of debris which have allowed archaeologists to reconstruct their methods of tool production Along with the faunal material that was also discarded in their prehistoric campsite these stone or lithic artifacts afford a glimpse of human life at the end of the last ice age during an era referred to as Clovis The area where these people roamed and camped called the Gault site is one of the most important Clovis sites in North America A decade ago a team from Texas A M University excavated a single area of the site formally named Excavation Area 8 but informally dubbed the Lindsey Pit which features the densest concentration of Clovis artifacts and the clearest stratigraphy at the Gault site Some 67 000 lithic artifacts were recovered during fieldwork along with 5 700 pieces of faunal material In a thorough synthesis of the evidence from this prehistoric workshop Michael R Waters and his coauthors provide the technical data needed to interpret and compare this site with other sites from the same period illuminating the story of Clovis people in the Buttermilk Creek Valley *Maya Zooarchaeology* Kitty F. Emery,2004-12-31 A comprehensive work combining traditional zooarchaeological reports and various state of the art summaries of methods and theoretical perspectives This combination of detailed discussions of basic zooarchaeological data with reviews of important themes in Maya zooarchaeology emphasizes the central issues that guide our research from basic data collection through final comparative interpretation The chapters emphasize the newest developments in technical

methods the most recent trends in the analysis of social zooarchaeology and the broadening perspectives provided by a new geographic range of investigations The main focus of the volume remains on fostering cooperation among Mesoamerican zooarchaeologists at the levels of both preliminary analysis and final theoretical reconstruction **Wilson-Leonard** ,1998

Archaeology Robert J. Sharer, Wendy Ashmore, 1993 This introductory text surveys the techniques methods and theoretical frameworks of contemporary archaeology Coverage of method and theory resides in the context of an ideal research plan to explain what archaeologists do how they conduct research and how they use the results to construct our past Integration of traditional and recent innovative approaches to archaeology provides a balanced scientific and humanistic perspective **Wilson-Leonard: Special studies** ,1998 *Epipaleolithic Subsistence Strategies in the Levant* Guy
