The Past in Prehistoric Societies Richard Bradley, 2014-03-18 The idea of prehistory dates from the nineteenth century but Richard Bradley contends that it is still a vital area for research He argues that it is only through a combination of oral tradition and the experience of encountering ancient material culture that people were able to formulate a sense of their own pasts without written records The Past in Prehistoric Societies presents case studies which extend from the Palaeolithic to the early Middle Ages and from the Alps to Scandinavia It examines how archaeologists might study the origin of myths and the different ways in which prehistoric people would have inherited artefacts from the past It also investigates the ways in which ancient remains might have been invested with new meanings long after their original significance had been forgotten Finally the author compares the procedures of excavation and field survey in the light of these examples The work includes a large number of detailed case studies is fully illustrated and has been written in an extremely accessible style

Discovering the Boyne Valley Noel French, 2018-05-04 The Boyne Valley is a place of history myths and legends This rich valley is home to some of Ireland's most famous heritage sites and monuments Tara Newgrange Kells and the Battle of the Boyne site but there are many others including Trim Castle

Loughcrew Monasterboice and Mellifont which are major attractions in their own right A landscape of passage tombs sacred hills monastic ruins bloody battlefields and heritage towns no wonder the Boyne Valley is considered the birthplace of Ireland's Ancient East The legends stories and history of these places have been brought together by local historian and guide Noel French who has been studying and publishing in relation to the area for the past thirty years *The Intersection of Sacredness and Archaeology* Donna L. Gillette, Thomas L. Sanders, 2024-10-01 At the point of the often contentious intersection of sacred site preservation and resource development archaeology has a unique and valuable role Archaeology has been criticized as a destroyer of sacred sites through the unbridled pursuit of knowledge through excavation or aiding unbridled development by failing to identify sacred sites However archaeology can act as a mitigator between the conflicting goals of preservation and development while giving the indigenous a voice At the heart of this mitigation is understanding the sacred how it might be physically manifested how those of diverse cultures understand it and how it is effected by the laws and norms of diverse cultures The purpose of this book is to enhance the discussion surrounding contemporary human interaction with our natural and cultural landscape Its first goal is make this discussion more productive and less contentious by presenting and thus recognizing the cultural ways of knowing and perspectives of indigenous people Its second goal is to foster the preservation of our sacred landscape As more and more of our physical landscape is being altered worldwide through rapid growth and development the cultural landscape is also being changed and challenged These changes often reflect the interests of some members of society while the interests of others including those of Native and Indigenous communities and many archaeologists environmentalists and others who understand the importance of knowing the past are disregarded The latter group is dedicated toward preserving special places and continuing to provide for Native people the ability to celebrate their traditions and focusing on defining the sacred landscape *The Ordnance Survey and Modern Irish Literature* C  il  n Parsons, 2016-04-15 The Ordnance Survey and Modern Irish Literature offers a fresh new look at the origins of literary modernism in Ireland tracing a history of Irish writing through James Clarence Mangan J M Synge W B Yeats James Joyce and Samuel Beckett Beginning with the archives of the Ordnance Survey which mapped Ireland between 1824 and 1846 the book argues that one of the sources of Irish modernism lies in the attempt by the Survey to produce a comprehensive archive of a land emerging rapidly into modernity The Ordnance Survey instituted a practice of depicting the country as modern fragmented alienated and troubled both diagnosing and representing a landscape burdened with the paradoxes of colonial modernity Subsequent literature returns in varying ways both imitative and combative to the complex representational challenge that the Survey confronts and seeks to surmount From a colonial mapping project to an engine of nationalist imagining and finally a framework by which to evade the claims of the postcolonial nation the Ordnance Survey was a central imaginative source of what makes Irish modernist writing both formally innovative and politically challenging Drawing on literary theory studies of space the history of cartography postcolonial theory archive theory and the field Irish

Studies The Ordnance Survey and Modern Irish Literature paints a picture of Irish writing deeply engaged in the representation of a multi layered landscape The Cambridge History of Ireland: Volume 1, 600-1550 Brendan Smith,2018-03-31 The thousand years explored in this book witnessed developments in the history of Ireland that resonate to this day Interspersing narrative with detailed analysis of key themes the first volume in The Cambridge History of Ireland presents the latest thinking on key aspects of the medieval Irish experience The contributors are leading experts in their fields and present their original interpretations in a fresh and accessible manner New perspectives are offered on the politics artistic culture religious beliefs and practices social organisation and economic activity that prevailed on the island in these centuries At each turn the question is asked to what extent were these developments unique to Ireland The openness of Ireland to outside influences and its capacity to influence the world beyond its shores are recurring themes Underpinning the book is a comparative outward looking approach that sees Ireland as an integral but exceptional component of medieval Christian Europe **CBA Research Report** ,1972 The Journal of the Royal Society of Antiquaries of Ireland ,1894
