Farrell, 2021-01-15 Atomic Bomb Island tells the story of an elite top

secret team of sailors airmen scientists technicians and engineers who came to Tinian in the Marianas in the middle of 1945 to prepare the island for delivery of the atomic bombs then being developed in New Mexico to finalize the designs of the bombs themselves and to launch the missions that would unleash hell on Japan Almost exactly a year before the atomic bombs were dropped strategically important Tinian was captured by Marines because it was only 1 500 miles from Japan and its terrain afforded ideal runways from which the new B 29 bombers could pound Japan In the months that followed the U S turned virtually all of Tinian into a giant airbase with streets named after those of Manhattan Island a Marianas city where the bombs could be assembled the heavily laden B 29s could be launched and the Manhattan Project scientists could do their last work Don Farrell has done this story incredible justice for the 75th anniversary The book is a thoroughly researched beautifully illustrated mosaic of the final phase of the Manhattan Project from the Battle of Tinian and the USS Indianapolis to Hiroshima and Nagasaki

Papal Apology Dario Lisiero,2015-11-04 According to Pope Francis the conduct of the Church in regard to the Waldenses has been not only non Christian but also non human in other words inhumane For this reason he feels it necessary and urgent to apologize from the bottom of his heart In so doing however he is creating a huge rift with his Church past and a double antagonistic effect with his Church past and present because while trying to befriend the Waldenses he antagonizes and infuriates his predecessors starting with Innocent III one of those responsible for the Waldenses excommunication to Pius IX excommunicating the entire modern world not to mention his own founder St Ignatius of Loyola whose principal aim in founding the Jesuit Order was to combat the Protestant Reformation
