Targeting Guns Gary Kleck, 2017-07-05 This new paperback comprehensively reviews the research evidence on the links between guns violence and gun control and reports results of the author's own research as well In *Targeting Guns* Kleck follows the line of argument and careful statistical inference of his earlier prizewinning volume *Point Blank* while updating the literature reviews and statistical information and adding two chapters

Point Blank Gary Kleck, 1991 Winner of the 1993 Michael J Hindelang award of the American Society of Criminology By 1990 there were approximately 200 million guns in private hands in the United States and around half of American households contained a gun Over 30 000 people a year are killed with guns in suicides homicides and accidents and Americans use guns for defensive purposes over a million times a year There is little doubt that gun violence and control are issues of vital importance and they continue to inspire national debate It is doubtful however whether most gun debates are worth listening to Not surprisingly such debates generally leave their participants exactly where they began with their biases intact and onlookers perplexed Written deliberately to counter an atmosphere of hysteria and extremism *Point Blank* now in paperback offers logical argument supported by empirical information It confronts fundamental questions head on On its initial publication in 1993 *Point Blank* won the Michael J Hindelang Award of the American Society of Criminology for the book that made the most outstanding contribution to criminology *Point Blank* reports both original research and assesses existing evidence drawn from a wide variety of academic disciplines including criminology sociology law and medicine

Lethal Logic Dennis A. Henigan, 2009-06-30 Guns don t kill people people kill people When guns are outlawed only outlaws will have guns An armed society is a polite society Who hasn t heard these engaging assertions time and time again Burned into the national consciousness by years of targeted disciplined messaging by the National Rifle Association and others they are just a few of the bumper sticker slogans that have defined the gun control debate in America Long ridiculed by gun control advocates they are the first words that come to mind for most Americans when the gun issue is discussed This is the first book both to acknowledge the profound and deadly impact of the gun lobby s bumper sticker logic on the gun control debate and to systematically expose the misguided thinking at the core of the pro gun slogans Indeed the author contends that the gun lobby s remarkable success in blocking passage of lifesaving gun laws is the result in large part of its relentless and effective use of these simple and resonant messages Their persuasive power has been a largely ignored influence on the current politics of gun control in which the gun lobby wields unprecedented power in the Republican Party while many Democratic Party leaders see the policy benefits of stronger gun laws as not worth the political risk of standing up to the NRA The book contends that the current political stalemate over guns will never be broken until the pro gun slogans are exposed as the cleverly disguised fallacies that they are
