A History of Uyghur Buddhism Johan Elverskog, 2024-06-18 Today most Uyghurs are Muslims For centuries however Uyghurs were Buddhists By around 1000 CE they like many of their neighbors had decisively turned toward the Dharma and a golden age of Uyghur Buddhism flourished under the Mongol empire Dwelling along the Silk Road in what is now northwestern China they stood at the center of Buddhist Eurasia linking far flung regions and traditions But as Muslim power grew Uyghur Buddhists converted to Islam rewriting their past and erasing their Buddhist history This book presents the first comprehensive history of Buddhism among the Uyghurs from the ninth to the seventeenth century Johan Elverskog traces how the Uyghurs forged their distinctive tradition considering a variety of social political cultural and religious contexts He argues that the religious history of the Uyghurs challenges conventional narratives of the meeting of Buddhism and Islam showing that conversion took place gradually and was driven by factors such as geopolitics climate change and technological innovation Elverskog also provides a nuanced understanding of lived Buddhism focusing on ritual practices and materiality as well as the religion's entanglements with economics politics and violence A groundbreaking history of Uyghur Buddhism this book makes a

compelling case for the importance of the Uyghurs in shaping the course of both Buddhist and Asian history Xinjiang Paul Hattaway,2022-12-08 God s Mighty Acts in China In The China Chronicles Paul Hattaway draws on more than thirty years experience in China and numerous interviews with church leaders to provide insight into how the Living God brought about the largest revival in the history of Christianity Xinjiang a vast region in northwest China has been much in the news in recent years because of the plight of more than one million Muslim Uyghur people there But Xinjiang also has a long Christian history Today there are nearly one million believers mostly among the Han Chinese who have migrated into the region in recent decades In this book the sixth in the series Hattaway focuses on the heroic efforts to reach the Uyghurs and other Muslim groups who remain largely untouched by the gospel The China Chronicles Series Book 1 Shandong Book 2 Guizhou Book 3 Zhejiang Book 4 Tibet Book 5 Henan Book 6 Xinjiang **In Search of the Irish Dreamtime: Archaeology and Early Irish Literature** J. P. Mallory,2016-06-14 Ireland s oldest traditions excavated via archaeological genetic and linguistic research culminating in atruly groundbreaking publication Following his account of Irish origins drawing on archaeology genetics and linguistics J P Mallory returns to the subject to investigate what he calls the Irish Dreamtime the native Irish retelling of their own origins as related by medieval manuscripts He explores the historical backbone of this version of the earliest history of Ireland which places apparently mythological events on a concrete timeline of invasions colonization and royal reigns that extends even further back in time than the history of classical Greece The juxtaposition of traditional Dreamtime tales and scientific facts expands on what we already know about the way of life in Iron Age Ireland By comparing the world depicted in the earliest Irish literary tradition with the archaeological evidence available on the ground Mallory explores Ireland s rich mythological tradition and tests its claims to represent reality **The Chinese Neolithic** Li Liu,2005-01-06 This book studies the formation of complex societies in prehistoric China during the Neolithic and early state periods c 7000 1500 BC Archaeological materials are interpreted through anthropological perspectives using systematic analytic methods in settlement and burial patterns Both agency and process are considered in the development of chiefdoms and in the emergence of early states in the Yellow River region Interrelationships between factors such as mortuary practice craft specialization ritual activities warfare exchange of elite goods climatic fluctuations and environmental changes are emphasized This study offers a critical evaluation of current archaeological data from Chinese sources and argues that although some general tendencies are noted social changes were affected by multiple factors in no pre determined sequence In this most comprehensive study to date Li Liu attempts to reconstruct developmental trajectories toward early states in Chinese civilization and discusses theoretical implications of Chinese archaeology for the understanding of social evolution

Foreign Devils and Philosophers Thijs Weststeijn,2020-02-10 What was the cultural impact of early meetings between Chinese and Europeans This book explores visual literary and scholarly representations of the Celestial Empire and Western countries against the backdrop of actual encounters Based on rare Chinese and correspondingly European especially Dutch

sources and archival documents the volume covers a range of cultural expressions from the applied arts to philosophy. Special attention goes to the ideals and realities of trade and diplomacy of the Dutch East India Company in China. Foreign Devils and Philosophers approaches global history from a cultural perspective and illuminates the reciprocal dynamic of aversion and admiration Chinese and Westerners could appear as sages or savages in each other's eyes. Fantastic Fauna from China to Crimea Petya Andreeva, 2024-03-05. Numerous Iron Age nomadic alliances flourished along the 5000 mile Eurasian steppe route. From Crimea to the Mongolian grassland, nomadic image making was rooted in metonymically conveyed zoomorphic designs creating an alternative ecological reality. The nomadic elite nucleus embraced this elaborate image system to construct collective memory in reluctant diverse political alliances organised around shared geopolitical goals rather than ethnic ties. Largely known by the term 'animal style', this zoomorphic visual rhetoric became so ubiquitous across the Eurasian steppe network that it transcended border regions and reached the heartland of sedentary empires like China and Persia. This book shows how a shared fluency in animal style design became a status defining symbol and a bonding agent in opportunistic nomadic alliances and was later adopted by their sedentary neighbours to showcase worldliness and control over the 'Other'. In this study of enormous geographical scope, the author raises broader questions about the place of nomadic societies in the art historical canon.
