Youth Crime and Youth Culture in the Inner City Bill Sanders,2004-12-15 Youth Crime and Youth Culture in the Inner City offers an interpretive account of juvenile delinquency within the modern inner city an environment which is characterized by a long history of social deprivation and high rates of crime A wide range of topics are explored such as young people s motivation for frequency of and attitudes towards a variety of illegal behaviors such as street robbery burglary theft drug use drug selling and violence Why do young people commit these offences Who do they commit them against How do they feel afterwards This book attempts to answer these important theoretical questions utilizing ethnographic research collected over a seven year period and based around the London inner city borough of Lambeth

Out of Sight Robert McAuley,2013-06-17 Youth crime is simultaneously a social problem and an intrinsic part of consumer culture while images of gangs and gangsters are used to sell global commodities young people not in work and education are labelled as antisocial and susceptible to crime This book focuses on the lives of a group of young adults living in a deprived housing estate situated on the edge of a large city in the North of England It investigates the importance of fashion music and drugs in young people s lives providing a richly detailed ethnographic account of the realities of exclusion and explaining how young people become involved in crime and drug use Young men and women describe their own personal experiences of exclusion in education employment and the public sphere They describe their history of exclusion as the life and the term identifies how young people grew up as objects of suspicion in the eyes of an affluent majority While social exclusion continues to be seen as a consequence of young people s behaviour Out of Sight crime youth and exclusion in modern Britain examines how stigmatising poor communities has come to define Britain s consumer society The book challenges the view underlying government policy that social exclusion is a product of crime antisocial behaviour and drug use and in focusing on one socially deprived neighbourhood it promotes a different way of seeing the problematic relationship between socially excluded young people society and government

This Reader gathers influential and contemporary work in the study of emotion and affective life from across the range of the social sciences. Drawing on both theoretical and empirical research, the collection offers a sense of the diversity of perspectives that have emerged over the last thirty years from a variety of intellectual traditions. Its wide span and trans disciplinary character is designed to capture the increasing significance of the study of affect and emotion for the social sciences and to give a sense of how this is played out in the context of specific areas of interest. The volume is divided into four main parts: universals and particulars of affect; embodying affect; political economies of affect; affect, power and justice. Each main part comprises three sections dedicated to substantive themes: emotions, history and civilization; emotions and culture; emotions, selfhood and identity; emotions and the media; emotions and politics; emotions, space and place, with a final section dedicated to themes of compassion, hate and terror. Each of the twelve sections begins with an editorial introduction that contextualizes the readings and highlights points of comparison across the volume. Cross national in content, the collection provides an introduction to the key debates, concepts and modes of approach that have been developed by social scientists for the study of emotion and affective life. **Ethnography** Brewer, John, 2000-12-01. New Statesman Society ,1993 Persistent Young

Offenders David Loble,David Smith,2016-05-13 Based on some of the most interesting research of the last ten years this book discusses effective practice in work with persistent young offenders It contrasts two major evaluations of projects for juvenile offenders one of which was successful and the other less so The projects Freagarrach and CueTen were funded by The Scottish Office and the Scottish Executive Freagarrach was evaluated over five years from 1995 and CueTen over three years its entire lifespan from 1996 This book makes the findings of these projects available to a wider readership setting them in a wider discursive framework than is appropriate in a government report The authors identify the factors that made Freagarrach a more successful project than CueTen arguing that an understanding of these factors is important in drawing general conclusions from the experience of the two projects and that this is particularly the case because some of these factors have received little attention in recent discussions of what works in community based programmes for offenders This is a detailed and thorough study of work with juvenile offenders which will be of particular value to those interested in less

punitive approaches It will be of interest both to practitioners and to academics in criminology social policy and social work
