The Alchemical Tarot of Jung Joaquín de Saint Aymour, 2019-01-15 Over several years the renowned Swiss psychoanalyst Carl Gustav Jung devoted himself to the study of various ancient oracles such as the I Ching and the Tarot This is how Jung discovered that the 22 Major Arcana of the Tarot the main cards of the deck were graphic representations of the Archetypes the dominant figures in each person that influence life at the most crucial moments By discovering the Archetypes making them visible and conscious through the Tarot a person can take the initiative and change the course of their destiny That is why the Tarot used in the way Jung discovered is much more than an oracle of divination It works as a method to write your own future according to the secret knowledge of Kabbalists and alchemists With this book illustrated by the Arcana of greater Jungian symbolism you have the opportunity to use yourself Jung's Initiatory Method based on Kabbalah and Alchemy to get the answers you need in what

Tarot Psychology Robert Wang,1993-01-01

Journey Into Consciousness Charles Breaux,1998-01-01 In the present book the author introduces the Tantric methods of Tibetan Buddhism and draws correlations between this practice and the teachings of Carl Jung In a clear concise style Breaux points out how many psychological truths are woven into the fabric of the Tantric doctrine The language of the Tantra is visionary abounding in

symbols and metaphors produced spontaneously in the meditations of ancient yogis At the heart of tantra is the experience of a divine power within the human being that can be awakened The format of the book begins in the root chakra and follows the path of your psychological and spiritual continuum up through the chakras Each chapter includes a meditation practice employing Tibetan Tantric Deities and procedures Although not a substitute for a genuine Tantric teacher the book will enable readers to experience the tantra through suggested meditation You enter the light within when you step outside of your own shadow The basic drive to remember your essential nature surges beneath all your fears desires and preconceptions Although they approach this process from opposite sides of the world both Tantra and Jungian psychology aspire to fathom this mysterious process and create the necessary conditions so spiritual transformation can occur
