

The background of the book cover is a historical painting depicting a Tasmanian landscape. In the foreground, several people are gathered around a large, dark, possibly charred log or branch. Two men in dark clothing and hats are seated on the left, while others stand or sit nearby. A horse is visible in the middle ground, and a small, simple hut is nestled among trees in the distance. The landscape is hilly and covered in sparse vegetation, with a large, leafy tree on the right side. The overall scene suggests a moment of daily life or labor in a colonial settlement.

A History of the English Church: 19th century; by F.W. Cornish William Hunt,1910 *The Origins of Australia's Capital Cities* Pamela Statham,1989 The Origins of Australia s Capital Cities is a comprehensive survey well illustrated with maps and plans which aims to answer two questions First why Australia s eight capital cities are situated where they are and second how they were established Pairs of chapters on each of the State capitals Sydney Hobart Perth Adelaide Melbourne and Brisbane are accompanied by studies of Canberra as the federal capital and Darwin as a territorial capital A capital is the administrative centre of a political entity and in Australia unlike many overseas countries a uniquely high proportion of the population resides in the capitals Companion chapters examine the causes of initial European settlement in each area and reasons for the actual establishment of each capital city Attention is given to such topics as planning and layout the basis of growth potential rivals the social nature of the cities and the nature of their spread While there have been no other volume covering all the capitals to seek answers to the same basic questions This will therefore be an invaluable source book and provide a stimulus to further enquiry in the social history of Australia An introduction by the editor pulls together the general strands which link the chapters and highlights the ways in which the Australian experience contrasts with the urban experience overseas American Monthly Review of Reviews Albert Shaw,1897 The New Worlds of Thomas Robert Malthus Alison Bashford,Joyce E. Chaplin,2017-11-07 This book is a sweeping global and intellectual history that radically recasts our understanding of Malthus s Essay on the Principle of Population the most famous book on population ever written or ever likely to be Malthus s Essay is also persistently misunderstood First published anonymously in 1798 the Essay systematically argues that population growth tends to outpace its means of subsistence unless kept in check by factors such as disease famine or war or else by lowering the birth rate through such means as sexual abstinence Challenging the widely held notion that Malthus s Essay was a product of the British and European context in which it was written Alison Bashford and Joyce Chaplin demonstrate that it was the new world as well as the old that fundamentally shaped Malthus s ideas

the second settled colony of Australia using both statistical evidence and historical sources The book examines detailed evidence from the 1904 New South Wales Royal Commission into the Fall in the Birth Rate which the Commissioners regarded as applying not only to NSW but to every state in Australia Many theories have been proposed as to why fertility declined at this time theories of economic and social development economic theories diffusion theories the spread of secularisation increased availability of artificial methods of contraception and changes in the rates of infant and child mortality The role of women in the fertility transition has generally been ignored The investigation concludes that fertility declined in Tasmania in the late 19th century in a period of remarkable social and economic transformation with industrialisation urbanisation improvements in transport and communication increasing levels of education and opportunities for social mobility One of the major social changes was in the status and role of women who became the driving force behind the fertility decline

Benevolent Colonizers in Nineteenth-Century Australia Eva Bischoff,2020-01-02 This book reconstructs the history of a group of British Quaker families and their involvement in the process of settler colonialism in early nineteenth century Australia Their everyday actions contributed to the multiplicity of practices that displaced and annihilated Aboriginal communities Simultaneously early nineteenth century Friends were members of a translocal transatlantic community characterized by pacifism and an involvement in transnational humanitarian efforts such as the abolitionist and the prison reform movements as well as the Aborigines Protection Society Considering these ideals how did Quakers negotiate the violence of the frontier To answer this question the book looks at Tasmanian and South Australian Quakers lives and experiences their journeys and their writings Building on recent scholarship on the entanglement between the local and the global each chapter adopts a different historical perspective in terms of breadth and focused time period The study combines these different takes to capture the complexities of this topic and era
